Alicja Mortensen - DTU Orbit (15/11/2018)
Alicja Mortensen

Research outputs:

Research output: Research - peer-review › Comment/debate – Annual report year: 2018

Subacute oral toxicity investigation of selenium nanoparticles and selenite in rats
Research output: Research - peer-review › Journal article – Annual report year: 2018

High-fat feeding rather than obesity drives taxonomical and functional changes in the gut microbiota in mice
Research output: Research - peer-review › Journal article – Annual report year: 2017

Effect of a long-term high-protein diet on survival, obesity development, and gut microbiota in mice
Research output: Research - peer-review › Journal article – Annual report year: 2016

Effects of 14-day oral low dose selenium nanoparticles and selenite in rat—as determined by metabolite pattern determination
Research output: Research - peer-review › Journal article – Annual report year: 2016

Epoxy composite dusts with and without carbon nanotubes cause similar pulmonary responses, but differences in liver histology in mice following pulmonary deposition
Research output: Research - peer-review › Journal article – Annual report year: 2016

Macronutrient composition determines accumulation of persistent organic pollutants from dietary exposure in adipose tissue of mice
Research output: Research - peer-review › Journal article – Annual report year: 2016

Acute and subacute pulmonary toxicity and mortality in mice after intratracheal instillation of ZnO nanoparticles in three laboratories
Research output: Research - peer-review › Journal article – Annual report year: 2015

Changes in cholesterol homeostasis and acute phase response link pulmonary exposure to multi-walled carbon nanotubes to risk of cardiovascular disease
Research output: Research - peer-review › Journal article – Annual report year: 2015

MWCNTs of different physicochemical properties cause similar inflammatory responses, but differences in transcriptional and histological markers of fibrosis in mouse lungs
Research output: Research - peer-review › Journal article – Annual report year: 2015

Absorption, distribution, metabolism and excretion of selenium following oral administration of elemental selenium nanoparticles or selenite in rats
Research output: Research - peer-review › Journal article – Annual report year: 2014

In-vivo study of genotoxic and inflammatory effects of the organo-modified Montmorillonite Cloisite® 30B
Research output: Research - peer-review › Journal article – Annual report year: 2014

Levels and risk assessment of chemical contaminants in byproducts for animal feed in Denmark
Research output: Research - peer-review › Journal article – Annual report year: 2014
Effects of lung exposure to carbon nanotubes on female fertility and pregnancy. A study in mice
Research output: Research - peer-review › Conference article – Annual report year: 2013

Morphological Lesions in Mouse Liver and Lungs After Lung Exposure to Carbon Nanotubes
Research output: Research - peer-review › Conference abstract in journal – Annual report year: 2013

Re-evaluation of azo dyes as food additives: Problems encountered
Research output: Research - peer-review › Conference abstract in journal – Annual report year: 2013

Systemic Absorption of Nanomaterials by Oral Exposure: Part of the "Better control of nano" initiative 2012-2015
Research output: Research › Report – Annual report year: 2013

A mouse fecal microbial gene catalogue established by Illumina-based sequencing
Research output: Research - peer-review › Poster – Annual report year: 2012

Identification of Cumulative Assessment Groups of Pesticides
Research output: Commissioned - peer-review › Report – Annual report year: 2012

Nanoparticulate silver increases uric acid and allantoin excretion in rats, as identified by metabonomics
Research output: Research - peer-review › Journal article – Annual report year: 2012

Nanotitanium dioxide toxicity in mouse lung is reduced in sanding dust from paint
Research output: Research - peer-review › Journal article – Annual report year: 2012

Potential contamination issues arising from the use of biofuel and food industry by-products in animal feed: Animal Feed Contamination: Effects on Livestock and Food Safety
Research output: Research - peer-review › Book chapter – Annual report year: 2012

Subacute oral toxicity investigation of nanoparticulate and ionic silver in rats
Research output: Research - peer-review › Journal article – Annual report year: 2011

The similar neurotoxic effects of nanoparticulate and ionic silver in vivo and in vitro
Research output: Research - peer-review › Journal article – Annual report year: 2012

Biprodukter fra fødevarer- og nonfoodindustrien til foderbrug - sikkerhed for mennesker og dyr
Research output: Research - peer-review › Report – Annual report year: 2011

Distribution of silver in rats following 28 days of repeated oral exposure to silver nanoparticles or silver acetate
Research output: Research - peer-review › Journal article – Annual report year: 2011

Investigation into the cancer protective effect of flaxseed in Tg.NK (MMTV/c-neu) mice, a murine mammary tumor model
Research output: Research - peer-review › Journal article – Annual report year: 2011

Lack of genotoxic potential of acetylated monoglyceride: An alternative plasticiser to phthalates
Research output: Research - peer-review › Conference article – Annual report year: 2011

Quantitative Characterization of Gold Nanoparticles by Field-Flow Fractionation Coupled Online with Light Scattering Detection and Inductively Coupled Plasma Mass Spectrometry
Research output: Research - peer-review › Journal article – Annual report year: 2011

Re-evaluation of natural food colours—State of the art
Research output: Research - peer-review › Conference article – Annual report year: 2011
The Effect of Apple Feeding on Markers of Colon Carcinogenesis
Research output: Research - peer-review › Journal article – Annual report year: 2011

Genotoxicity of clays with potential use in biopolymers for food packaging
Research output: Research › Poster – Annual report year: 2010

Phytosterols and atherosclerosis: The effect of phytosterols on development of atherosclerosis in the heterozygous Watanabe Heritable Hyperlipidemic rabbit
Research output: Research › Ph.D. thesis – Annual report year: 2009

Analytical and compositional aspects of isoflavones in food and their biological effects
Research output: Research - peer-review › Journal article – Annual report year: 2009

Effect of rapeseed oil derived plant sterol and stanol esters on atherosclerosis parameters in cholesterol challenged heterozygous Watanabe Heritable Hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2009

Isoflavones: Sources, Intake, fate in human body, and effects on cancer
Research output: Research - peer-review › Book chapter – Annual report year: 2009

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the Commission on calcium L-methionate, magnesium L-methionate and zinc mono-L-methionine sulphate as sources for calcium, magnesium and zinc added for nutritional purposes to food supplements: Question No EFSA-Q-2005-138, EFSA-Q-2005-143, EFSA-Q-2005-076
Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the Commission on magnesium ascorbate, zinc ascorbate and calcium ascorbate added for nutritional purposes in food supplements: Question number EFSA-Q-2005-087, EFSA-Q-2005-104, EFSA-Q-2006-229
Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the Commission on selenious acid added for nutritional purposes to food supplements: Question No EFSA-Q-2006-278
Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the Commission on the use of taurine and D-glucurono-γ-lactone as constituents of the so-called: Question No EFSA-Q-2007-113
Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the European Commission on Ferrous phosphate added for nutritional purposes to food supplements: EFSA-Q-2006-197, EFSA-Q-2006-303
Research output: Research - peer-review › Report – Annual report year: 2009
Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the European Commission on monomethylsilanetriol (organic silica) added for nutritional purposes to food supplements: Question No EFSA-Q-2006-198, EFSA-Q-2006-296

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on calcium caprylate and magnesium caprylate as a source of calcium and magnesium added for nutritional purposes to food supplements, following a request from the European Commission: Questions No EFSA-Q-2008-017, EFSA-Q-2008-018

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on calcium phosphinate as a source of calcium added for nutritional purposes to food supplements following a request from the European Commission: Question No EFSA-Q-2006-279

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on calcium silicate, silicon dioxide and silicic acid gel added for nutritional purposes to food supplements following a request from the European Commission: Questions No EFSA-Q-2005-140, EFSA-Q-2006-220, EFSA-Q-2005-098,

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on choline-stabilised orthosilicic acid added for nutritional purposes to food supplements following a request from the European Commission: Question No EFSA-Q-2006-189

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on chromium(III)-, iron(II)- and selenium- humic acid/fulvic acid chelate and supplemented humifulvate added for nutritional purposes to food supplements following a request from the European Commission: Questions No EFSA-Q-2006-191, EFSA-Q-2006-192, EFSA-Q-2006-193, EFSA-Q-2006-194

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on chromium(III) lactate trihydrate as a source of chromium added for nutritional purposes to food supplements, following a request from the European Commission: Question No EFSA-Q-2006-307

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on chromium nitrate as a source of chromium added for nutritional purposes to food supplements following a request from the European Commission: Question No EFSA-Q-2005-216

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on inositol hexanicotinate (inositol hexaniacinate) as a source for niacin (vitamin B3) added for nutritional purposes in food supplements following a request from the European Commission: Question No EFSA-Q-2005-213, EFSA-Q-2006-199

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on iron (II) taurate, magnesium taurate and magnesium acetyl taurate as sources for iron or magnesium to be added as a nutritional substance in food supplements following a request from the European Commission: Question number EFSA-Q-2005-217, EFSA-Q-2005-178, EFSA-Q-2006-187, EFSA-Q-2006-288

Research output: Research - peer-review › Report – Annual report year: 2009

Research output: Research - peer-review › Report – Annual report year: 2009

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on potassium molybdate as a source of molybdenum added for nutritional purposes to food supplements following a request from the European Commission: Question number EFSA-2005-157

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on Se-Methyl-L-Selenocysteine as a source of selenium added for nutritional purposes to food supplements following a request from the European Commission: Question No: EFSA-Q-2005-170, EFSA-Q-2006-306, EFSA-Q-2006-308

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the re-evaluation of Allura Red AC (E 129) as a food additive on request from the European Commission: Question No EFSA-Q-2008-230

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the re-evaluation of Azorubine/Carmoisine (E 122) as a food additive on request the European Commission: Question number: EFSA-Q-2008-226

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the reevaluation of Ponceau 4R (E 124) as a food additive on request from the European Commission: Question No EFSA-Q-2008-228

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the re-evaluation of Quinoline Yellow (E 104) as a food additive: Question No EFSA-Q-2008-223

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the re-evaluation of Sunset Yellow FCF (E 110) as a food additive on request from the European Commission: Question No EFSA-Q-2008-224

Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the re-evaluation Tartrazine (E 102) on request from the European Commission: Question No EFSA-Q-2008-222

Research output: Research - peer-review › Report – Annual report year: 2009
Scientific Opinion on the use of high viscosity white mineral oils as a food additive on request from the European Commission: Question No EFSA-Q-2008-003
Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the use of natamycin (E 235) as a food additive: Question No EFSA-Q-2007-072
Research output: Research - peer-review › Report – Annual report year: 2009

Scientific Opinion on the use of Polyglycitol Syrup as a food additive: Question No EFSA-Q-2007-072
Research output: Research - peer-review › Report – Annual report year: 2009

Stanol esters attenuate the aggravating effect of dietary cholesterol on atherosclerosis in homozygous Watanabe rabbits
Research output: Research › Conference abstract in proceedings – Annual report year: 2009

Updated Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the European Commission related to the 2nd ERF carcinogenicity study on aspartame taking into consideration study data submitted by the Ramazzini Foundation in February 2009: EFSA-Q-2009-00474
Research output: Research - peer-review › Report – Annual report year: 2009

Biological models for phytochemical research: from cell to human organism
Research output: Research - peer-review › Review – Annual report year: 2008

Effect of apple consumption on aberrant crypt foci, an intermediate colon cancer biomarker - an example of research activities within ISAFRUIT project
Research output: Research - peer-review › Book – Annual report year: 2008

Progestins oppose the effects of estradiol on endothelin-1 receptor type B in coronary arteries from ovariectomized hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2008

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food (ANS) on a request from the Commission on a mixture of chromium di- and tri-nicotinate as a source of chromium: Question No EFSA-Q-2005-079
Research output: Research - peer-review › Report – Annual report year: 2008

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food (ANS) on a request from the Commission on benfotiamine, thiamine monophosphate chloride and thiamine pyrophosphate chloride, as sources of vitamin B1
Research output: Research - peer-review › Report – Annual report year: 2008

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food (ANS) on a request from the Commission on calcium L-threonate as a source for calcium added for nutritional purposes in food supplements: Question No EFSA-Q-2005-158
Research output: Research - peer-review › Report – Annual report year: 2008

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food (ANS) on a request from the Commission on pantethine as a source for pantothenic acid added as a nutritional substance in food supplements: Question No EFSA-Q-2006-227
Research output: Research - peer-review › Report – Annual report year: 2008

Scientific Opinion of the Panel on Food Additives and Nutrient Sources added to Food on a request from the Commission on adenosylcobalamin and methylcobalamin as sources for Vitamin B12
Research output: Research - peer-review › Report – Annual report year: 2008
Strategy for in vivo and in vitro toxicity testing of engineered nanoparticles in the Nanotest project
Research output: Research › Poster – Annual report year: 2008

Dietary supplementation with an extract of lycopene-rich tomatoes does not reduce atherosclerosis in Watanabe Heritable Hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2007

Effects of red grape skin and seed extract supplementation on atherosclerosis in Watanabe heritable hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2007

Estrogen and phytoestrogens: Effect on eNOS expression and in vitro vasodilation in cerebral arteries in ovariectomized Watanabe heritable hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2007

Increased plant sterol and stanol levels in brain of Watanabe rabbits fed rapeseed oil derived plant sterol or stanol esters
Research output: Research - peer-review › Journal article – Annual report year: 2007

Opinion of the Scientific Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on a request from the Commission related to an application on the use of ethyl lauroyl arginate as a food additive: Question No EFSA-Q-2006-035
Research output: Research - peer-review › Report – Annual report year: 2007

Opinion of the Scientific Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on a request from the Commission related to an application on the use of partially depolymerised guar gum as a food additive: Question No EFSA-Q-2006-122
Research output: Research - peer-review › Report – Annual report year: 2007

Opinion of the Scientific Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on a request from the Commission related to Calcium ascorbate with a content of threonate for use as a source of vitamin C in food supplements: Question No EFSA-Q-2005-044
Research output: Research - peer-review › Report – Annual report year: 2007

Opinion of the Scientific Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on a request from the Commission related to Calcium, iron, magnesium, potassium and zinc L-pidolate as sources for calcium, iron, magnesium, potassium and zinc added for nutritional purposes to food supplements and to foods intended for particular nutritional uses
Research output: Research - peer-review › Report – Annual report year: 2007

Opinion of the Scientific Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on a request from the Commission related to D-alpha-tocopheryl polyethylene glycol 1000 succinate (TPGS) in use for food for particular nutritional purposes: Question No EFSA Q-2003-126
Research output: Research - peer-review › Report – Annual report year: 2007

Opinion of the Scientific Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on the food colour Red 2G (E128) based on a request from the Commission related to the re-evaluation of all permitted food additives: Question No EFSA-Q-2007-128
Research output: Research - peer-review › Report – Annual report year: 2007

Scientific Opinion of the Panel on Food additives, Flavourings, Processing aids and Materials in Contact with food (AFC) on a request from the Commission on Calcium citrate malate as source for calcium intended for use in foods for Particular Nutritional Uses (PARNUTS) and in foods for the general population (including food supplements)
Research output: Research - peer-review › Report – Annual report year: 2007
Scientific Opinion of the Panel on Food additives, Flavourings, Processing aids and Materials in Contact with Food (AFC) on a request from the Commission on the safety in use of beeswax: Question No EFSA-Q-2006-021
Research output: Research - peer-review › Report – Annual report year: 2007

Scientific Opinion of the Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on a request from European Commission on Neotame as a sweetener and flavour enhancer: Question No EFSA-Q-2003-137
Research output: Research - peer-review › Report – Annual report year: 2007

Surt men sundt
Research output: Research - peer-review › Journal article – Annual report year: 2007

Contrasting effect of fish oil supplementation on the development of atherosclerosis in murine models
Research output: Research - peer-review › Journal article – Annual report year: 2006

Effekt af plantesteroler på udviklingen af åreforkalkning
Research output: Research › Journal article – Annual report year: 2006

Improved high performance liquid chromatographic method for analysis of sodium copper chlorophyllin
Research output: Research › Conference abstract for conference – Annual report year: 2006

Medroxyprogesterone acetate attenuates long-term effects of 17 beta-oestradiol in coronary arteries from hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2006

Opinion of the Scientific Panel on Food Additives, Flavourings, Processing Aids and Materials in Contact with Food on the presence of 1,2-Benzisothiazolin-3-one as an impurity in saccharin used as a food additive: Question No EFSA-Q-2004-133
Research output: Research - peer-review › Report – Annual report year: 2006

Sweeteners permitted in the European Union, Safety aspects
Research output: Research - peer-review › Journal article – Annual report year: 2006

Tissue lipid lowering-effect of a traditional Nigerian anti-diabetic infusion of Rauwolfia vomitoria foliage and Citrus aurantium fruit
Research output: Research - peer-review › Journal article – Annual report year: 2006

Tools to evaluate estrogenic potency of dietary phytoestrogens: A consensus paper from the eu thematic network "Phytohealth" (QLKI-2002-2453)
Research output: Research - peer-review › Review – Annual report year: 2006

Anthocyanins increase low-density lipoprotein and plasma cholesterol and do not reduce atherosclerosis in Watanabe Heritable Hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2005

Effekten af kostens phytoøstrogener på kræft og atherosclerose i dyremodeller
Research output: Research - peer-review › Journal article – Annual report year: 2005

Fakta om aspartam
Research output: Research › Net publication - Internet publication – Annual report year: 2005

Influence of prevastein (R), an isoflavone-rich soy product, on mammary gland development and Tumorigenesis in Tg.NK (MMTV/c-neu) mice
Research output: Research - peer-review › Journal article – Annual report year: 2005
Atherosclerose og kostens phytoöstrogener
Research output: Research › Journal article – Annual report year: 2004

Occurence of natural isoflavonenes in diets for laboratory animals
Research output: Research › Conference abstract for conference – Annual report year: 2004

Twenty six-week exposure to 2 amino-3 methylimidazo [4,5-f]quinoline (IQ) does not significantly increase the incidence of tumours in HMGCR/mts1 tg579 transgenic mice
Research output: Research - peer-review › Journal article – Annual report year: 2004

Aterosklerose og kostens phytoöstrogener
Research output: Research - peer-review › Journal article – Annual report year: 2003

Effects of fish oil supplementation on atherosclerosis development Apo-E-/-
Research output: Research - peer-review › Journal article – Annual report year: 2003

Effects of fish oil supplementation on the development of atherosclerosis in murine models
Research output: Research - peer-review › Journal article – Annual report year: 2003

Lignan precursors from flaxseed or rye bran do not protect against the development of intestinal neoplasia in Apc(Min) mice
Research output: Research - peer-review › Journal article – Annual report year: 2003

Long-term estradiol treatment improves VIP-mediated vasodilation in atherosclerotic proximal coronary arteries
Research output: Research - peer-review › Journal article – Annual report year: 2003

Assessment of Carcinogenicity of di(2-ethylhexyl) phthalate in a short-term assay using Xpa(-/-) and Xpa(-/-)/p53(+/-) mice
Research output: Research - peer-review › Journal article – Annual report year: 2002

Effect of a long-chained fructan Raftilin HP on blood lipids and spontaneous atherosclerosis in low density receptor knockout mice
Research output: Research - peer-review › Journal article – Annual report year: 2002

17 beta-estradiol but not the phytoestrogen naringenin attenuates aortic cholesterol accumulation in WHHL rabbits
Research output: Research - peer-review › Journal article – Annual report year: 2001

Di(2-Ethylhexyl)Phthalate (DEHP): An assessment of carcinogenicity in XPA -/- , wild type, and XPA-/-/p53+/- mice following 39 weeks' dietary exposure
Research output: Research - peer-review › Conference abstract in journal – Annual report year: 2001

Improved culture methods for isolation of Salmonella organisms from swine feces
Research output: Research - peer-review › Journal article – Annual report year: 2000

Atherosclerosis in low density lipoprotein receptor knockout mice fed cholesterol and soybean oil
Research output: Research - peer-review › Journal article – Annual report year: 1999

Probulcol selectively increases oxidation of atherogenic lipoproteins in cholesterol-fed mice and in Watanabe heritable hyperlipidemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 1999
Comparison of the effects of fish oil and olive oil on blood lipids and aortic atherosclerosis in Watanabe heritable hyperlipidaemic rabbits
Research output: Research - peer-review › Journal article – Annual report year: 1998

Effects of long-term feeding with 2-amino-1-methyl-6-phenylimidazo[4,5-b]pyridine (PhIP) in C57BL/ByA and E mu-pim-1 mice
Research output: Research - peer-review › Journal article – Annual report year: 1998

The effect of soy isoflavones on the development of intestinal neoplasia in Apc(Min) mouse
Research output: Research - peer-review › Journal article – Annual report year: 1998

Lymphoma induction by heterocyclic amines in Eu-pim-1 transgenic mice
Research output: Research - peer-review › Journal article – Annual report year: 1997

Short-term carcinogenicity testing of a potent murine intestinal mutagen, 2-amino-1-methyl-6-phenylimidazo(4,5-b)pyridine (PhIP), in Apc1638N transgenic mice
Research output: Research - peer-review › Journal article – Annual report year: 1997

Lymphoma induction by heterocyclic amines in Eu-pim-1 transgenic mice
Research output: Research - peer-review › Journal article – Annual report year: 1996

Short-term carcinogenicity testing of 2-amino-1-methyl-6-phenylimidazo[4,5-b]pyridine (PhIP) and 2-amino-3-methylimidazo[4,5-f] quinoline (IQ) in E mu-pim-1 transgenic mice
Research output: Research - peer-review › Journal article – Annual report year: 1996

Changes in blood lipids and aorta in heterozygous WHHL rabbits fed cholesterol and fat
Research output: Research › Poster – Annual report year: 1993

Projects:

Meat and colorectal cancer
Project: Research

Sustainable plasticisers
Project: Research

Quantitative risk assessment strategies for novel foods
Project: Research

Activities:

Oral uptake of silver nanoparticles – a biodistribution study
Activity: Talks and presentations › Conference presentations
