Anders Stockmarr - DTU Orbit (09/02/2019)

Anders Stockmarr
Associate Professor
Department of Applied Mathematics and Computer Science
Statistics and Data Analysis
Postal address:
Richard Petersens Plads
324, 260
2800
Kgs. Lyngby
Denmark
Email: anst@dtu.dk
Phone: 45253332

Research outputs:

How a 10-day heatwave impacts barley grain yield when superimposed onto future levels of temperature and CO₂ as single and combined factors
Research output: Research - peer-review › Journal article – Annual report year: 2018

A Rollercoaster to Model Touch Interactions during Turbulence
Research output: Research - peer-review › Journal article – Annual report year: 2018

Effects of Lifestyle on Muscle Strength in a Healthy Danish Population
Research output: Research - peer-review › Journal article – Annual report year: 2018

Monthly variation in the probability of presence of adult Culicoides populations in nine European countries and the implications for targeted surveillance
Research output: Research - peer-review › Journal article – Annual report year: 2018

Probabilistic approach for assessing cancer risk due to benzo[a]pyrene in barbecued meat: Informing advice for population groups
Research output: Research - peer-review › Journal article – Annual report year: 2018

Spatial and temporal variation in the abundance of Culicoides biting midges (Diptera: Ceratopogonidae) in nine European countries
Research output: Research - peer-review › Journal article – Annual report year: 2018

Big data - modelling of midges in Europa using machine learning techniques and satellite imagery
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Modelling Dietary Exposure to Chemical Components in Heat-Processed Meats
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2017

Outlier Detection in End-User Performance Monitoring - Smart Innovation.
Research output: Research › Report – Annual report year: 2017

Social disparities in the prevalence of multimorbidity - A register-based population study: A register-based population study
Research output: Research - peer-review › Journal article – Annual report year: 2017

Concurrent elevation of CO₂, O₃ and temperature severely affects oil quality and quantity in rapeseed
Research output: Research - peer-review › Journal article – Annual report year: 2016
Correlations between fatigue and disease duration, disease activity, and pain in patients with rheumatoid arthritis: a systematic review
Research output: Research - peer-review › Review – Annual report year: 2015

Evaluation of temporal surveillance system sensitivity and freedom from bovine viral diarrhea in Danish dairy herds using scenario tree modelling
Research output: Research - peer-review › Journal article – Annual report year: 2016

Grain protein concentration and harvestable protein under future climate conditions. A study of 108 spring barley accessions
Research output: Research - peer-review › Journal article – Annual report year: 2016

Obesity Prevention in the Nordic Countries
Research output: Research - peer-review › Journal article – Annual report year: 2016

Spatial Distribution and Abundance of Culicoides Imicola and Obsoletus Group in Europe
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2017

Spatial distribution and abundance of culicoides imicola and obsolutes group in Europe
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2016

The fundament of food, crop protein production, is threatened by climate change
Research output: Research - peer-review › Net publication - Internet publication – Annual report year: 2016

A 10-day heatwave at flowering superimposed on climate change conditions strongly affects production of 22 barley accessions
Research output: Research › Poster – Annual report year: 2015

AB0346 Correlation of Disease Duration, Disease Activity and Pain to Fatigue – a Systematic Review
Research output: Research - peer-review › Conference abstract in journal – Annual report year: 2015

Battling Bluetongue and Schmallenberg virus: Local scale behavior of transmitting vectors
Research output: Research › Sound/Visual production (digital) – Annual report year: 2015

Battling Bluetongue and Schmallenberg virus: Local scale behavior of transmitting vectors
Research output: Research - peer-review › Conference abstract in journal – Annual report year: 2015

Challenges for bovine viral diarrhoea virus antibody detection in bulk milk by antibody enzyme-linked immunosorbent assays due to changes in milk production levels
Research output: Research - peer-review › Journal article – Annual report year: 2015

Characterization of the bacterial gut microbiota of piglets suffering from new neonatal porcine diarrhoea
Research output: Research - peer-review › Journal article – Annual report year: 2015

Fitting a distribution to microbial counts: Making sense of zeroes
Research output: Research - peer-review › Journal article – Annual report year: 2015

Flere overvægtige danske kvinder
Research output: Research › Journal article – Annual report year: 2015
GWAS of Barley Phenotypes Established Under Future Climate Conditions of Elevated Temperature, CO2, O3 and Elevated Temperature and CO2 Combined
Research output: Research - peer-review › Journal article – Annual report year: 2015

IC3 and IC4 Trains Under Risk of Blocking their Wheels
Research output: Research › Sound/Visual production (digital) – Annual report year: 2015

Model for TampImp-DeltaSigmaH Interaction.
Research output: Communication › Report – Annual report year: 2015

SigmaH for Switches and Crossings
Research output: Communication › Report – Annual report year: 2015

Significant decrease in yield under future climate conditions: Stability and production of 138 spring barley accessions
Research output: Research - peer-review › Journal article – Annual report year: 2015

Social ulighed i fedme og fedme-epidemien for børn
Research output: Research › Sound/Visual production (digital) – Annual report year: 2015

Social ulighed i fedme og fedme-epidemien for børn; et review
Research output: Research - peer-review › Article in proceedings – Annual report year: 2015

A Comparison between Two Simulation Models for Spread of Foot-and-Mouth Disease
Research output: Research - peer-review › Journal article – Annual report year: 2014

Danish children born to parents with lower levels of education are more likely to become overweight
Research output: Research - peer-review › Journal article – Annual report year: 2014

DTU's undersøgelser af lav adhæsion / glatte skinner for Transportministeriet og DSB
Research output: Commissioned › Report – Annual report year: 2014

Factors influencing observed and self-reported functional ability in women with chronic widespread pain: A cross-sectional study
Research output: Research - peer-review › Journal article – Annual report year: 2014

Fluorescence in situ hybridization investigation of potentially pathogenic bacteria involved in neonatal porcine diarrhea
Research output: Research - peer-review › Journal article – Annual report year: 2014

Quantitative assessment of the risk of introduction of bovine viral diarrhea virus in Danish dairy herds
Research output: Research - peer-review › Journal article – Annual report year: 2014

Stochastic simulation modeling to determine time to detect Bovine Viral Diarrhea antibodies in bulk tank milk
Research output: Research - peer-review › Journal article – Annual report year: 2014

The Relationship between Mechanical Hyperalgesia Assessed by Manual Tender Point Examination and Disease Severity in Patients with Chronic Widespread Pain: A Cross-Sectional Study
Research output: Research - peer-review › Journal article – Annual report year: 2014

Trends in overweight and obesity in Danish children and adolescents: 2000-2008 – exploring changes according to parental education
Research output: Research - peer-review › Journal article – Annual report year: 2014
Cell-Mediated and Humoral Immune Responses after Immunization of Calves with a Recombinant Multiantigenic Mycobacterium avium subsp. paratuberculosis Subunit Vaccine at Different Ages
Research output: Research - peer-review › Journal article – Annual report year: 2013

Dynamic changes in antibody levels as an early warning of Salmonella Dublin in bovine dairy herds
Research output: Research - peer-review › Journal article – Annual report year: 2013

Increasing social Inequality in overweight in Danish boys
Research output: Research - peer-review › Poster – Annual report year: 2013

Making sense of zeros: impact on human health risk estimates
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Persistence of low-pathogenic H5N7 and H7N1 avian influenza subtypes in filtered natural waters
Research output: Research - peer-review › Journal article – Annual report year: 2013

PMWS development in pigs from affected farms in Spain and Denmark
Research output: Research - peer-review › 2D/3D (physical products) – Annual report year: 2013

PMWS development in pigs from affected farms in Spain and Denmark
Research output: Research › Sound/Visual production (digital) – Annual report year: 2013

PMWS Development in Pigs from Affected Farms in Spain and Denmark
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Quantifying Dispersal of European Culicoides (Diptera: Ceratopogonidae) Vectors between Farms Using a Novel Mark-Release-Recapture Technique
Research output: Research - peer-review › Journal article – Annual report year: 2013

Spatial abundance and clustering of Culicoides (Diptera: Ceratopogonidae) on a local scale
Research output: Research - peer-review › Journal article – Annual report year: 2013

Spatial-temporal abundance of Culicoides on a local scale
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Spatial-temporal optimization of sampling for bluetongue vectors (Culicoides) near grazing livestock
Research output: Research - peer-review › Journal article – Annual report year: 2013

The Gut Microbiotassay: a high-throughput qPCR approach combinable with next generation sequencing to study gut microbial diversity
Research output: Research - peer-review › Journal article – Annual report year: 2013

The range of attraction for light traps catching Culicoides biting midges
Research output: Research - peer-review › Poster – Annual report year: 2013

The range of attraction for light traps catching Culicoides biting midges
Research output: Research - peer-review › Poster – Annual report year: 2013

The range of attraction for light traps catching Culicoides biting midges (Diptera: Ceratopogonidae)
Research output: Research - peer-review › Journal article – Annual report year: 2013
A Synoviocyte Model for Osteoarthritis and Rheumatoid Arthritis: Response to Ibuprofen, Betamethasone, and Ginger Extract—A Cross-Sectional In Vitro Study
Research output: Research - peer-review › Journal article – Annual report year: 2012

Detection of Dairy Herds at risk for changing Salmonella Dublin status
Research output: Research › Sound/Visual production (digital) – Annual report year: 2012

Detection of Dairy Herds at Risk for Changing Salmonella Dublin status
Research output: Research - peer-review › Poster – Annual report year: 2012

Fitting a distribution to microbial counts: making sense of zeros
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Infectious risk factors for individual postweaning multisystemic wasting syndrome (PMWS) development in pigs from affected farms in Spain and Denmark
Research output: Research - peer-review › Journal article – Annual report year: 2012

Model's comparison
Research output: Research - peer-review › Article in proceedings – Annual report year: 2012

Modulation of Cytokine mRNA Expression in Pharyngeal Epithelial Samples obtained from Cattle Infected with Foot-and-Mouth Disease Virus
Research output: Research - peer-review › Journal article – Annual report year: 2011

Optimal combinations of acute phase proteins for detecting infectious disease in pigs
Research output: Research - peer-review › 2D/3D (physical products) – Annual report year: 2012

Optimizing the control of foot-and-mouth disease in Denmark by simulation: Comparison of foot-and-mouth disease simulation models
Research output: Research - peer-review › Sound/Visual production (digital) – Annual report year: 2012

Regressions modeller: Hvad regresserer vi på og hvorfor?
Research output: Research - peer-review › 2D/3D (physical products) – Annual report year: 2013

Analysis of the acute phase responses of Serum Amyloid A, Haptoglobin and Type 1 Interferon in cattle experimentally infected with foot-and-mouth disease virus serotype O
Research output: Research - peer-review › Journal article – Annual report year: 2011

Optimal combinations of acute phase proteins for detecting infectious disease in pigs
Research output: Research - peer-review › Journal article – Annual report year: 2011

Persistence of Low-Pathogenic Avian Influenza H5N7 and H7N1 Subtypes in House Flies (Diptera: Muscidae)
Research output: Research - peer-review › Journal article – Annual report year: 2014

R0-modeling as a tool for early warning and surveillance of exotic vector borne diseases in Denmark
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2011

Spatial models for the distribution of Culicoides on a local scale
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2011

Infectious risk factors for postweaning multisystemic wasting syndrome (PMWS) development
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2011
Modeling the density of bluetongue vectors in a field
Research output: Research - peer-review › Poster – Annual report year: 2010

Modelling the seasonal variation in the basic reproduction ratio for bluetongue – a model incorporating Culicoides biology to quantify the vaccination cover needed to prevent outbreaks in the Nordic countries
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2010

Relative risk for human illness of biogas effluent use in horticulture at small-scale pig farms in northern Vietnam
Research output: Research - peer-review › Journal article – Annual report year: 2010

Simple spatial distribution models for vector density in a field: Bloodsucking creatures from dusk to dawn
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2010

Dimensions of socioeconomic position related to body mass index and obesity among Danish women and men
Research output: Research - peer-review › Journal article – Annual report year: 2009

Age-dependent windows for cohort culling in BSE herds
Research output: Research - peer-review › Journal article – Annual report year: 2009

Association between land cover and Culicoides (Diptera: Ceratopogonidae) breeding sites on four Danish cattle farms
Research output: Research - peer-review › Journal article – Annual report year: 2009

Isokinetic and Isometric Muscle Strength in a Healthy Population – with Special Reference to Age and Gender
Research output: Research - peer-review › Journal article – Annual report year: 2009

Effect of tulathromycin on the carrier status of Actinobacillus pleuropneumoniae serotype 2 in the tonsils of pigs
Research output: Research - peer-review › Journal article – Annual report year: 2008

Nu fanger der mitter!
Research output: Communication › Journal article – Annual report year: 2008

Prevalence and trends in overweight and obesity among children and adolescents in Denmark
Research output: Research - peer-review › Journal article – Annual report year: 2008

Age dependent windows for cohort culling Bovine Spongiform Encephalopathy
Research output: Research › Article in proceedings – Annual report year: 2007

Dispersal distances for airborne spores based on deposition rates and stochastic modeling
Research output: Research › Journal article – Annual report year: 2007

Forskning giver ny metode til at bekæmpe kogalskab
Research output: Research › Journal article – Annual report year: 2007

Fremtidens biogasfællesanlæg – nye anlægskoncepter og økonomisk potentiale
Research output: Research › Book – Annual report year: 2007

Future Biogas Plants: New Systems and their economic potential
Research output: Research › Report – Annual report year: 2007
Comparative, Collaborative, and On-Site Validation of a TaqMan PCR Method as a Tool for Certified Production of Fresh, Campylobacter-Free Chickens
Research output: Research - peer-review › Journal article – Annual report year: 2006

Data Manipulation etc. for Data Received From Vose Consulting
Research output: Research › Report – Annual report year: 2006

Risikovurdering gennemført af Danmarks Fødevareforskning vedr. effekten af at fjerne loftet på 500 dyrehedder pr. landbrugsejendom
Research output: Research › Report – Annual report year: 2006

Survival and transmission of Salmonella enterica serovar typhimurium in an outdoor organic pig farming environment
Research output: Research › Journal article – Annual report year: 2006

Porcine acute phase proteins in experimental models of infectious diseases.
Research output: Research › Conference abstract for conference – Annual report year: 2005

Smitterisiko ved separering af gylle
Research output: Research › Journal article – Annual report year: 2005

Wildrisk: Classical swine fever and wild boar in Denmark: A risk analysis
Research output: Research › Report – Annual report year: 2005

Principles, application areas and an example of risk assessment conducted at the Danish Institute for Food and Veterinary Research
Research output: Research - peer-review › Journal article – Annual report year: 2004

Use of existing surveillance data to detect welfare problems in Danish cattle: An evaluation of available data sources, with detection of existing herd health problems and associated risk factors
Research output: Research › Report – Annual report year: 2004

The distribution of particles in the plane dispersed by a simple 3-dimensional diffusion process
Research output: Research - peer-review › Journal article – Annual report year: 2002

Comment on Stockmarr's "Likelihood ratios for evaluating DNA evidence when the suspect is found through a database search - The author replied as follows
Research output: Research - peer-review › Letter – Annual report year: 2001

Forekomsten af utilsigtede hændelser på sygehuse
Research output: Research › Journal article – Annual report year: 2001

Kvalitetsudvikling af patientforløb i almen praksis baseret på forbedret tilgængelighed af diagnostiske undersøgelser: Et samarbejde mellem Københavns Praktiserende Lægers Laboratorium, Dansk Selskab for Almen Medicin og DSI Institut for Sundhedsvæsen
Research output: Research › Report – Annual report year: 2001

Diffusion modelling of spore dispersal using non-constant settling rates
Research output: Research › Conference abstract for conference – Annual report year: 2000

En model for sygdomsspredning mellem afgrøder og vilde planter
Research output: Communication › Journal article – Annual report year: 2000
Letter to the editor of Biometrics - The authors replied as follows
Research output: Research - peer-review › Letter – Annual report year: 2000

Matematisk modellering af sygdomsspredning mellem afgrøder og vilde planter
Research output: Research › Conference abstract for conference – Annual report year: 2000

Observed patterns of dispersal of wheat yellow rust spores from a point source
Research output: Research › Conference abstract for conference – Annual report year: 2000

Om brug og misbrug af sandsynlighedsregning ved vægtning af DNA-profil evidens
Research output: Research › Conference abstract for conference – Annual report year: 2000

Simulation of spatial stochastic models for spread of spores between fields and surrounding natural populations
Research output: Research › Conference abstract for conference – Annual report year: 2000

Stochastic models for the spatial development of a fungal plant disease
Research output: Research › Conference abstract for conference – Annual report year: 2000

The choice of hypotheses in the evaluation of DNA profile evidence
Research output: Research - peer-review › Book chapter – Annual report year: 2000

Research output: Research › Book chapter – Annual report year: 2000

Brug og misbrug af sandsynlighedsteori i retsmedicinske evalueringer af DNA-profiler
Research output: Research › Conference abstract for conference – Annual report year: 1999

DNA-fingeraftryk i kriminalsager - kan man dømme efter store tals lov?
Research output: Research › Conference abstract for conference – Annual report year: 1999

Likelihood ratios for evaluating DNA evidence when the suspect is found through a database search
Research output: Research - peer-review › Journal article – Annual report year: 1999

Limits of autoregressive processes with a special emphasis on relations to cointegration theory
Research output: Research › Ph.D. thesis – Annual report year: 1996

Gaussian Diffusions and Autoregressive Processes: Weak Convergence and Statistical Inference
Research output: Research - peer-review › Journal article – Annual report year: 1994

Projects:

Development and implementation of high-dimensional normal behavior areas for citizens with dementia, in proactive care at nursing homes
Project: PhD

Big Data Processing and shaping in SeaStatus
Project: PhD

Human Behavior of Track Pilot
Project: Research
Multivariate Time Series Modelling of Australian Data on Deaths from Homicide and Suicides
Project: Research

Automated NIR management
Project: PhD

Risk assessment woth matrix-analytic methods
Project: PhD

Methods and tools for the statistical data analysis for large datasets collected from bio-based manufacturing processes
Project: PhD

Statistical modelling of space-time processes with
Project: PhD

Short range modelling of Culicoides dispersal
Project: PhD

Opbygning af et Dansk veterinærer beredskab for Bluetongue
Project: Research

Optimizing the control of foot-and-mouth disease in Denmark by simulation
Project: Research

Activities:

Journal of Mathematical and Statistical Analysis (Journal)
Activity: Research › Peer review of manuscripts

Multimorbiditid and healthcare utilization: A register-based study in Denmark
Activity: Talks and presentations › Conference presentations

PhD defence Azucena Campillo Navarro: Order Statistics and Multivariate discrete phase-type distributions (Event)
