Research outputs:

- Anogenital distance as a toxicological or clinical marker for fetal androgen action and risk for reproductive disorders
  Research output: Contribution to journal › Review – Annual report year: 2019 › Research › peer-review

- A pragmatic approach for human risk assessment of chemical mixtures
  Research output: Contribution to journal › Journal article – Annual report year: 2019 › Research › peer-review

- Distinct transcriptional profiles of the female, male and finasteride-induced feminized male anogenital region in rat fetuses
  Research output: Contribution to journal › Journal article – Annual report year: 2019 › Research › peer-review

- Workshop on the validation and regulatory acceptance of innovative 3R approaches in regulatory toxicology - Evolution versus revolution
  Research output: Contribution to journal › Journal article – Annual report year: 2019 › Research › peer-review

- Workshop on acceleration of the validation and regulatory acceptance of alternative methods and implementation of testing strategies
  Research output: Contribution to journal › Journal article – Annual report year: 2018 › Research › peer-review

- Characterizing novel molecular mechanisms for short AGD – a biomarker of fetal testicular dysfunction
  Research output: Contribution to conference › Poster – Annual report year: 2018 › Research › peer-review

- Combination effects of pesticides on birth weight and metabolic programming in rat offspring
  Research output: Book/Report › Report – Annual report year: 2018 › Commissioned

- Effects on metabolic parameters in young rats born with low birth weight after exposure to a mixture of pesticides
  Research output: Contribution to journal › Journal article – Annual report year: 2018 › Research › peer-review

- Environmental toxicology: Pesticides
  Research output: Chapter in Book/Report/Conference proceeding › Encyclopedia chapter – Annual report year: 2018 › Research › peer-review

- Environmental Toxicology: Plastics
  Research output: Chapter in Book/Report/Conference proceeding › Encyclopedia chapter – Annual report year: 2018 › Research › peer-review
Erratum to: The OECD validation program of the H295R steroidogenesis assay: Phase 3. Final inter-laboratory validation study
Research output: Contribution to journal › Journal article – Annual report year: 2018 › Research › peer-review

Exposure to a glyphosate-based herbicide formulation, but not glyphosate alone, has only minor effects on adult rat testis
Research output: Contribution to journal › Journal article – Annual report year: 2018 › Research › peer-review

Glyphosate alone does not adversely affect testicular androgen function in mature rats
Research output: Contribution to conference › Poster – Annual report year: 2018 › Research › peer-review

Perineal gene expression profiling in rats with chemically induced short anogenital distance
Research output: Contribution to conference › Conference abstract for conference – Annual report year: 2018 › Research › peer-review

PFHxS Causes Developmental Hypothyroxinemia Without Affecting Behavioral Tests in Rat Offspring
Research output: Contribution to conference › Conference abstract for conference – Annual report year: 2018 › Research › peer-review

Prediction of adverse male reproductive health effects by integrating in vitro data and physiologically-based kinetic modelling
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2018 › Research › peer-review

Transcriptional profiling of the chemically induced feminized anogenital region in male rats
Research output: Contribution to conference › Poster – Annual report year: 2018 › Research › peer-review

Transcriptional profiling of the chemically induced feminized anogenital region in male rats
Research output: Contribution to conference › Conference abstract for conference – Annual report year: 2018 › Research › peer-review

Transcriptional profiling of the chemically-induced feminized male rat anogenital region
Research output: Contribution to conference › Conference abstract for conference – Annual report year: 2018 › Research › peer-review

An effect-directed strategy for characterizing emerging chemicals in food contact materials made from paper and board
Research output: Contribution to journal › Journal article – Annual report year: 2017 › Research › peer-review

Direct effect based approaches applied to the screening of emerging substances
Research output: Book/Report › Report – Annual report year: 2018 › Commissioned

Enniatin B and beauvericin are common in Danish cereals and show high hepatotoxicity on a high-content imaging platform
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

Environmental influences on ovarian dysgenesis - developmental windows sensitive to chemical exposures
Research output: Contribution to journal › Journal article – Annual report year: 2017 › Research › peer-review

Human biomonitoring in risk assessment: analysis of the current practice and 1st examples on the use of HBM in risk assessments of HBM4EU priority chemicals
Research output: Book/Report › Report – Annual report year: 2018 › Commissioned

Mechanisms of action involved in chemically induced effects on male reproductive health
Research output: Contribution to conference › Poster – Annual report year: 2018 › Research › peer-review
Mellemkødet sladrer om skadelige kemikalier
Research output: Contribution to journal › Journal article – Annual report year: 2017 › Research › peer-review

Corrigendum to “Reproductive and behavioral effects of diisononyl phthalate (DINP) in perinatally exposed rats” [Reprod. Toxicol. 31 (2) (2011) 200–209]
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

Fluorinated alkyl substances and technical mixtures used in food paper-packaging exhibit endocrine-related activity in vitro
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

Intrauterine Exposure to Paracetamol and Aniline Impairs Female Reproductive Development by Reducing Follicle Reserves and Fertility
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

Juvenile Male Rats Exposed to a Low-Dose Mixture of Twenty-Seven Environmental Chemicals Display Adverse Health Effects
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

Late-life effects on testosterone production following in utero exposure to the pesticide fludioxonil
Research output: Contribution to conference › Poster – Annual report year: 2016 › Research › peer-review

Multiple endocrine disrupting effects in rats perinatally exposed to butylparaben
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

Non-targeted screening for contaminants in paper and board food-contact materials using effect-directed analysis and accurate mass spectrometry
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

Perfluorononanoic acid in combination with 14 chemicals exerts low-dose mixture effects in rats
Research output: Contribution to journal › Journal article – Annual report year: 2015 › Research › peer-review

Perinatal exposure to mixtures of endocrine disrupting chemicals reduces female rat follicle reserves and accelerates reproductive aging
Research output: Contribution to journal › Journal article – Annual report year: 2016 › Research › peer-review

The risk of chemical cocktail effects and how to deal with the issue
Research output: Contribution to journal › Editorial – Annual report year: 2015 › Research › peer-review

Transferring in vivo exposure into in vitro assays using silicone to assess the endocrine activity of POPs accumulated in human breast implants
Research output: Chapter in Book/Report/Conference proceeding › Conference abstract in proceedings – Annual report year: 2017 › Research › peer-review

Chemical cocktail effects
Research output: Contribution to journal › Comment/debate – Annual report year: 2015 › Research › peer-review

Cocktail: Danmarks største forskningsprojekt om cocktaileffekter i fødevarer
Research output: Book/Report › Book – Annual report year: 2015 › Communication

Endocrine activity of persistent organic pollutants accumulated in human silicone implants — Dosing in vitro assays by partitioning from silicone
Research output: Contribution to journal › Journal article – Annual report year: 2015 › Research › peer-review
Exposure to perfluoronanoic acid combined with a low-dose mixture of 14 human-relevant compounds disturbs energy/lipid homeostasis in rats

Health risk assessment of chemical mixtures

Mixtures of environmentally relevant endocrine disrupting chemicals affect mammary gland development in female and male rats

Perinatal exposure to mixtures of anti-androgenic chemicals causes proliferative lesions in rat prostate

Prenatal exposure to persistent organochlorine pollutants is associated with high insulin levels in 5-year-old girls

Selection of reference genes for quantitative RT-PCR (RT-qPCR) analysis of rat tissues under physiological and toxicological conditions

A computational approach to mechanistic and predictive toxicology of pesticides

Applicability of Computational Systems Biology in Toxicology

Are Structural Analogues to Bisphenol A Safe Alternatives?

Compounds in food packaging materials - toxicological profiling of knowns and unknowns

Discovery and Early Clinical Development of 2-[(6-[2-(3,5-Dichloro-4-pyridyl)acetyl]-2,3-dimethoxyphenoxy]-N-propylacetamide (LEO 29102), a Soft-Drug Inhibitor of Phosphodiesterase 4 for Topical Treatment of Atopic Dermatitis

Green Toxicology – Application of predictive toxicology

Late-life effects on rat reproductive system after developmental exposure to mixtures of endocrine disrupters.
Low-dose effects of bisphenol A on early sexual development in male and female rats.
Research output: Contribution to journal › Journal article – Annual report year: 2014 › Research › peer-review

Polyfluorinated alkyl phosphate ester surfactants - current knowledge and knowledge gaps
Research output: Contribution to journal › Journal article – Annual report year: 2014 › Research › peer-review

A low dose chemical mixture modulates the effect of PFNA in male rats
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2013 › Research › peer-review

Are structural analogues to bisphenol A a safe alternative?
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2013 › Research › peer-review

Chemical Contaminants. Food monitoring 2004-2011
Research output: Book/Report › Report – Annual report year: 2013 › Research

Concentration addition, independent action and generalized concentration addition models for mixture effect prediction of sex hormone synthesis in vitro.
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Dietary relevant mixtures of phytoestrogens inhibit adipocyte differentiation in vitro
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Effects of perinatal ethinyl estradiol exposure in male and female Wistar rats
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Endocrine disrupting effects in rats perinatally exposed to a dietary relevant mixture of phytoestrogens
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Fluorochemicals used in food packaging inhibit male sex hormone synthesis
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Identification of a Novel Androgen Receptor Mutation in a Family With Multiple Components Compatible With the Testicular Dysgenesis Syndrome
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

In vitro–in vivo correlations for endocrine activity of a mixture of 5 currently used pesticides
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2013 › Research › peer-review

Levels of Pesticides and Their Metabolites in Wistar Rat Amniotic Fluids and Maternal Urine upon Gestational Exposure.
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Non-monotonous dose–response curves observed for some endpoints, after pre- and postnatal exposure of rats to the fungicide epoxiconazole
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2013 › Research › peer-review
Predictive value of cell assays for developmental toxicity and embryotoxicity of conazole fungicides.
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Triclosan exposure reduces thyroxine levels in pregnant and lactating rat dams and in directly exposed offspring
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

Adverse effects on sexual development in rat offspring after low dose exposure to a mixture of endocrine disrupting pesticides
Research output: Contribution to journal › Conference article – Annual report year: 2012 › Research › peer-review

Applicability of the GCA model for effect prediction of endocrine disrupters in mixture
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2012 › Research › peer-review

Developmental toxicity effects in experimental animals after mixed exposure to endocrine disrupting pesticides
Research output: Book/Report › Report – Annual report year: 2012 › Research

Differential effects of environmental chemicals and food contaminants on adipogenesis, biomarker release and PPARγ activation
Research output: Contribution to journal › Journal article – Annual report year: 2012 › Research › peer-review

Effect of environmental pollutants on obesity parameters in vitro
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2012 › Research › peer-review

Fluorochemicals used in food packaging inhibit male sex hormone synthesis
Research output: Contribution to conference › Poster – Annual report year: 2012 › Research › peer-review

Persistent developmental toxicity in rat offspring after low dose exposure to a mixture of endocrine disrupting pesticides
Research output: Contribution to journal › Conference article – Annual report year: 2012 › Research › peer-review

QSAR Model for Androgen Receptor Antagonism - Data from CHO Cell Reporter Gene Assays
Research output: Contribution to journal › Journal article – Annual report year: 2012 › Research › peer-review

Differential effects of environmental chemicals and food contaminants on adipocyte differentiation, biomarker release, and PPARα/γ activation
Research output: Contribution to journal › Conference article – Annual report year: 2011 › Research › peer-review

Reproductive and behavioral effects of diisononyl phthalate (DINP) in perinatally exposed rats
Research output: Contribution to journal › Journal article – Annual report year: 2011 › Research › peer-review

The OECD validation program of the H295R steroidogenesis assay: Phase 3. Final Inter-laboratory validation study
Research output: Contribution to journal › Journal article – Annual report year: 2011 › Research › peer-review

A prevalidation transferability study of the GreenScreen HC GADD45a-GFP assay with S9.
Research output: Contribution to journal › Journal article – Annual report year: 2010 › Research › peer-review

Effects of Nutrition Relevant Mixtures of Phytoestrogens on Steroidogenesis, Aromatase, Estrogen, and Androgen Activity
Research output: Contribution to journal › Journal article – Annual report year: 2010 › Research › peer-review

Endocrine disruptive effects in vitro of conazole antifungals used as pesticides and pharmaceutical
Research output: Contribution to journal › Journal article – Annual report year: 2010 › Research › peer-review
Synergistic Disruption of External Male Sex Organ Development by a Mixture of Four Antiandrogens
Research output: Contribution to journal › Journal article – Annual report year: 2009 › Research › peer-review

Do parabens have the ability to interfere with steroidogenesis?
Research output: Contribution to journal › Journal article – Annual report year: 2008 › Research › peer-review

Do azole fungicides possess an endocrine disrupting hazard?
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2008 › Research

Endocrine disrupting properties in vivo of widely used azole fungicides
Research output: Contribution to journal › Journal article – Annual report year: 2008 › Research › peer-review

Higher levels of ethyl paraben and butyl paraben in rat amniotic fluid than in maternal plasma after subcutaneous administration.
Research output: Contribution to journal › Journal article – Annual report year: 2008 › Research › peer-review

Dysgenesis and histological changes of genitals and perturbations of gene expression in male rats after in utero exposure to antiandrogen mixtures
Research output: Contribution to journal › Journal article – Annual report year: 2007 › Research › peer-review

Effects of azole fungicides on the function of sex and thyroid hormones
Research output: Book/Report › Report – Annual report year: 2007 › Research › peer-review

Endocrine-disrupting activities in vivo of the fungicides tebuconazole and epoxiconazole
Research output: Contribution to journal › Journal article – Annual report year: 2007 › Research › peer-review

In vitro and in vivo screening of azole fungicides for antiandrogenic effects
Research output: Contribution to conference › Poster – Annual report year: 2007 › Research

The OECD validation program of the H295R steroidogenesis assay for the identification of in vitro inhibitors and inducers of testosterone and estradiol production. Phase 2: Inter-laboratory pre-validation studies
Research output: Contribution to journal › Journal article – Annual report year: 2007 › Research › peer-review

Diisobutyl phthalate has comparable anti-androgenic effects to di-n-butyl phthalate in fetal rat testis
Research output: Contribution to journal › Journal article – Annual report year: 2006 › Research › peer-review

Estrogenic effects in vitro and in vivo of the fungicide fenarimol
Research output: Contribution to journal › Journal article – Annual report year: 2006 › Research › peer-review

In vitro screening of azole fungicides for antiandrogenic effects – comparison with in vivo effects
Research output: Non-textual form › Sound/Visual production (digital) – Annual report year: 2006 › Research

Kombinationseffekter af pesticider
Research output: Book/Report › Report – Annual report year: 2006 › Research

Mechanisms of action underlying the antiandrogenic effects of the fungicide prochloraz
Research output: Contribution to journal › Journal article – Annual report year: 2006 › Research › peer-review

Mechanisms underlying the anti-androgenic effects of diethylhexyl phthalate in fetal rat testis
Research output: Contribution to journal › Journal article – Annual report year: 2006 › Research › peer-review
Prochloraz: an imidazole fungicide with multiple mechanisms of action
Research output: Contribution to journal › Conference article – Annual report year: 2006 › Research › peer-review

Antiandrogenic effects in short-term in vivo studies of the fungicide fenarimol
Research output: Contribution to journal › Journal article – Annual report year: 2005 › Research › peer-review

Gene expression changes in rat prostate after activation or blocking of the androgen and estrogen receptor
Research output: Contribution to journal › Journal article – Annual report year: 2005 › Research › peer-review

Gene expression profiling of rat liver after in utero exposure to the fungicide prochloraz using GeneChip (R) Rat Genome Array
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2005 › Research › peer-review

Low-dose effects of anti-androgens in male rat offspring after perinatal exposure
Research output: Contribution to conference › Conference abstract for conference – Annual report year: 2005 › Research

Perinatal exposure to the fungicide prochloraz feminizes the male rat offspring
Research output: Contribution to journal › Journal article – Annual report year: 2005 › Research › peer-review

Hormonforstyrrende effekter af kombinationer af pesticider
Research output: Book/Report › Report – Annual report year: 2004 › Research

Interlaboratory comparison of four in vitro assays for assessing androgenic and antiandrogenic activity of environmental chemicals
Research output: Contribution to journal › Journal article – Annual report year: 2004 › Research › peer-review

Steroidogenesis in fetal male rats is reduced by DEHP and DINP, but endocrine effects of DEHP are not modulated by DEHA in fetal, prepubertal and adult male rats
Research output: Contribution to journal › Journal article – Annual report year: 2004 › Research › peer-review

The combined antiandrogenic effects of five commonly used pesticides
Research output: Contribution to journal › Journal article – Annual report year: 2004 › Research › peer-review

Di(2-ethylhexyl) adipate (DEHA) induced developmental toxicity but not antiandrogenic effects in pre- and postnatally exposed Wistar rats
Research output: Contribution to journal › Journal article – Annual report year: 2003 › Research › peer-review

Effect of in utero-administered coumestrol, equol, and organic selenium on biomarkers for phase 2 enzyme capacity and redox status
Research output: Contribution to journal › Journal article – Annual report year: 2003 › Research › peer-review

Effects of currently used pesticides in the AhR-CALUX assay: comparison between the human TV101L and the rat H4IIE cell line
Research output: Contribution to journal › Journal article – Annual report year: 2003 › Research › peer-review

Effects of dietary antioxidants and 2-amino-3-methylimidazo[4,5-f]-quinoline (IQ) on preneoplastic lesions and on oxidative damage, hormonal status, and detoxification capacity in the rat
Research output: Contribution to journal › Journal article – Annual report year: 2003 › Research › peer-review

Male reproductive effects of octylphenol and estradiol in Fischer and Wistar rats
Research output: Contribution to journal › Journal article – Annual report year: 2003 › Research › peer-review
The combined effects of vinclozolin and procymidone do not deviate from expected additivity in vitro and in vivo
Research output: Contribution to journal › Journal article – Annual report year: 2003 › Research › peer-review

Effects of currently used pesticides in assays for estrogenicity, androgenicity, and aromatase activity in vitro
Research output: Contribution to journal › Journal article – Annual report year: 2002 › Research › peer-review

Screening of food samples for dioxin levels – comparison of GC/MS determination with the CALUX bioassay
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2002 › Research

Toxicity testing and chemical analyses of recycled fibre-based paper for food contact
Research output: Contribution to journal › Journal article – Annual report year: 2002 › Research › peer-review

Effect of dietary antioxidants and 2-amino-3-methylimidazo[4,5-f]quinoline (IQ) on biomarkers for redox and hormonal status and enzyme detoxification capacity in blood and major organs of male F344 rats
Research output: Contribution to journal › Conference abstract in journal – Annual report year: 2001 › Research › peer-review

Effect of highly bioaccumulated polychlorinated biphenyl congeners on estrogen and androgen receptor activity
Research output: Contribution to journal › Journal article – Annual report year: 2001 › Research › peer-review

In utero reproductive study in rats exposed to nonylphenol
Research output: Contribution to journal › Journal article – Annual report year: 2001 › Research › peer-review

Quantification of antiandrogeen effect determined by Lightcycler technology
Research output: Contribution to journal › Journal article – Annual report year: 2001 › Research › peer-review

Using the CALUX bioassay for screening and determination of dioxin-like compounds in human milk
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2001 › Research

Identification and quantification of estrogenic compounds in recycled and virgin paper for household use as determined by an in vitro yeast estrogen screen and chemical analysis
Research output: Contribution to journal › Journal article – Annual report year: 2000 › Research › peer-review

Identification and Quantification of Estrogenic Compounds in Recycled and Virgin Paper for Household use as determined by an in vitro Yeast Estrogen Screen and Chemical Analysis
Research output: Contribution to conference › Poster – Annual report year: 2000 › Research › peer-review

Rapid and sensitive reporter gene assays for detection of antiandrogenic and estrogenic effects of environmental chemicals
Research output: Contribution to journal › Journal article – Annual report year: 1999 › Research › peer-review

Screening of selected pesticides for oestrogen receptor activation in vitro
Research output: Contribution to journal › Journal article – Annual report year: 1999 › Research › peer-review

Screening af plastemballage til silk og chokoladevarer for østrogen aktivitet
Research output: Book/Report › Report – Annual report year: 1997 › Research

The effects of n-butanol vapour on respiratory rate and tidal volume.
Research output: Contribution to journal › Journal article – Annual report year: 1988 › Research › peer-review
