Research outputs:

**Anogenital distance as a toxicological or clinical marker for fetal androgen action and risk for reproductive disorders**
Research output: Research - peer-review › Review – Annual report year: 2019

**A pragmatic approach for human risk assessment of chemical mixtures**
Research output: Research - peer-review › Journal article – Annual report year: 2019

**Distinct transcriptional profiles of the female, male and finasteride-induced feminized male anogenital region in rat fetuses**
Research output: Research - peer-review › Journal article – Annual report year: 2019

**Workshop on acceleration of the validation and regulatory acceptance of alternative methods and implementation of testing strategies**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Characterizing novel molecular mechanisms for short AGD – a biomarker of fetal testicular dysfunction**
Research output: Research - peer-review › Poster – Annual report year: 2018

**Combination effects of pesticides on birth weight and metabolic programming in rat offspring**
Research output: Research - peer-review › Report – Annual report year: 2018

**Effects on metabolic parameters in young rats born with low birth weight after exposure to a mixture of pesticides**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Environmental toxicology: Pesticides**
Research output: Research - peer-review › Encyclopedia chapter – Annual report year: 2018

**Environmental Toxicology: Plastics**
Research output: Research - peer-review › Encyclopedia chapter – Annual report year: 2018
