MacKenzie, Brian
brm@aqua.dtu.dk
National Institute of Aquatic Resources - Professor
Section for Oceans and Arctic

Publications:

Glue finned tuna's will be investigated in Danish waters
MacKenzie, B., Aarestrup, K. & Christoffersen, M. 2017 24, 26, Fritidsfiskeren
Publication: Communication › Newspaper article – Annual report year: 2017

Dan glue finned tuna's will be investigated in Danish waters
Publication: Communication › Internet publication – Annual report year: 2017

Global biogeochemical provinces of the mesopelagic zone
Publication: Research - peer-review › Journal article – Annual report year: 2017

Global patterns in marine predatory fish
Publication: Research - peer-review › Journal article – Annual report year: 2017

Global patterns in the productivity of marine fish along parallel pathways of energy
van Denderen, P. D., Lindegren, M., MacKenzie, B., Watson, R. & Andersen, K. H. 2017
Publication: Research › Conference abstract for conference – Annual report year: 2017

Lessons from the first generation of marine ecological forecast products
Publication: Research - peer-review › Journal article – Annual report year: 2017

Multi-decadal cod reproductive habitat variability in the Baltic Sea and its impact on reproductive success
Publication: Research › Conference abstract for conference – Annual report year: 2017

Predicting ecosystems for managing a dynamic ocean
Publication: Communication › Internet publication – Annual report year: 2017

Productivity and recovery of forage fish under climate change and fishing: North Sea sandeel as a case study
Lindegren, M., van Deurs, M., MacKenzie, B., Worsøe Clausen, L., Christensen, A. & Rindorf, A. 2017 In : Fisheries Oceanography.
Publication: Research - peer-review › Journal article – Annual report year: 2017

Trophic impact of Atlantic bluefin tuna migrations in the North Sea
Publication: Research - peer-review › Journal article – Annual report year: 2017
Adult lifetime reproductive value in fish depends on size and fecundity type
Tsoukali, S., Olsson, K. H., Visser, A. W. & MacKenzie, B. R. 2016 In : Canadian Journal of Fisheries and Aquatic Sciences. 73, 9, p. 1405-1412
Publication: Research - peer-review › Journal article – Annual report year: 2016

Dietary evidence of mesopelagic and pelagic foraging by Atlantic bluefin tuna (Thunnus thynnus L.) during autumn migrations to the Iceland Basin
Publication: Research - peer-review › Journal article – Annual report year: 2016

Ecosystem indicators in the context of fisheries management: example of cod in the Baltic Sea
Publication: Research › Conference abstract for conference – Annual report year: 2016

Functional responses of North Atlantic fish eggs to increasing temperature
Tsoukali, S., Visser, A. & MacKenzie, B. 2016 In : Marine Ecology Progress Series. 555, p. 151-165
Publication: Research - peer-review › Journal article – Annual report year: 2016

Global patterns in the feeding ecology of large marine fish
Publication: Research › Poster – Annual report year: 2016

Habitat suitability of the Atlantic bluefin tuna by size class: An ecological niche approach
Publication: Research - peer-review › Journal article – Annual report year: 2016

Has eutrophication promoted forage fish production in the Baltic Sea?
Publication: Research - peer-review › Journal article – Annual report year: 2016

ICES meets marine historical ecology: placing the history of fish and fisheries in current policy context
Publication: Research - peer-review › Journal article – Annual report year: 2015

Multidisciplinary perspectives on the history of human interactions with life in the ocean
Publication: Research - peer-review › Journal article – Annual report year: 2016

Ocean warming expands habitat of a rich natural resource and benefits a national economy
Publication: Research - peer-review › Journal article – Annual report year: 2016

The migration game in habitat network: the case of tuna
Publication: Research - peer-review › Journal article – Annual report year: 2015

Uncertainties in projecting climate-change impacts in marine ecosystems
A time for every season: seasonal cycles of plankton and fish
Publication: Research › Ph.D. thesis – Annual report year: 2017

Biogeographic changes in fish diversity driven by changes in climate and exploitation
Bryndum, K. M., Christensen, A., She, J., Richardson, K. & MacKenzie, B. 2015
Publication: Research › Conference abstract for conference – Annual report year: 2015

Controlling factors in fish early life history and how they combine to influence trophic links across the North Atlantic Ocean.
Publication: Research › Conference abstract for conference – Annual report year: 2015

Fisheries oceanography of northern pelagic fish species
Publication: Research › Ph.D. thesis – Annual report year: 2015

Functional responses of North Atlantic fish eggs to increasing temperature
Tsoukali, S., Visser, A. & MacKenzie, B. 2015
Publication: Research › Conference abstract for conference – Annual report year: 2015

GOFORIT: IntelliGent Oceanographically – based short-term fishery FORecastIng applicaTions
Publication: Research › Conference abstract for conference – Annual report year: 2015

Has human-induced eutrophication promoted fish production in the Baltic Sea?
Publication: Research › Conference abstract for conference – Annual report year: 2015

Predicting future shifts in herring spawning habitat in the North Sea
Tsoukali, S., Christensen, A., Tian, T., Visser, A. & MacKenzie, B. 2015
Publication: Research › Conference abstract for conference – Annual report year: 2015

Progressive changes in the Western English Channel foster a reorganization in the plankton food web
Publication: Research - peer-review › Journal article – Annual report year: 2015

Spatially explicit estimates of stock sizes, structure and biomass of herring and blue whiting, and catch data of bluefin tuna
Publication: Research - peer-review › Journal article – Annual report year: 2015

A cascade of warming impacts brings bluefin tuna to Greenland waters
Publication: Research › Conference abstract for conference – Annual report year: 2014

A cascade of warming impacts brings bluefin tuna to Greenland waters
Publication: Research - peer-review › Journal article – Annual report year: 2014
Accuracy and precision in the calculation of phenology metrics
Publication: Research - peer-review › Journal article – Annual report year: 2015

A life-history evaluation of the impact of maternal effects on recruitment and fisheries reference points
Publication: Research - peer-review › Journal article – Annual report year: 2014

Comparative ecology of widely distributed pelagic fish species in the North Atlantic: Implications for modelling climate and fisheries impacts
Publication: Research - peer-review › Journal article – Annual report year: 2014

Comparative impacts of temperature and trade-offs on egg ecology of north Atlantic pelagic fish species
Tsoukal, S. & MacKenzie, B. 2014
Publication: Research › Conference abstract for conference – Annual report year: 2014

Explaining life history variation in a changing climate across a species' range
Publication: Research - peer-review › Journal article – Annual report year: 2015

Explaining variation in life history timing across a species range: Effects of climate on spawning time in an exploited marine fish
Neuheimer, A. & MacKenzie, B. 2014
Publication: Research › Conference abstract for conference – Annual report year: 2014

Fishing out collective memory of migratory schools
Publication: Research - peer-review › Journal article – Annual report year: 2014

From fish to phytoplankton
Publication: Research › Conference abstract for conference – Annual report year: 2014

How can we distinguish between competing explanations of year class strength?
Publication: Research › Conference abstract for conference – Annual report year: 2014

ICES and PICES strategies for coordinating research on the impacts of climate change on marine ecosystems
Publication: Research - peer-review › Journal article – Annual report year: 2015

Warming impacts on fish species composition in the Kattegat-Belt Sea
Publication: Research › Conference abstract for conference – Annual report year: 2014

Climate-induced response of commercially important flatfish species during the 20th century
Publication: Research - peer-review › Journal article – Annual report year: 2013
Combined effects of global climate change and regional ecosystem drivers on an exploited marine food web
Publication: Research - peer-review › Journal article – Annual report year: 2013

Estimating phytoplankton phenology metrics from noisy, gappy data
Publication: Research › Poster – Annual report year: 2013

Fisheries: Manage declines
Publication: Research › Comment/debate – Annual report year: 2013

From phytoplankton to fish
Publication: Research › Conference abstract for conference – Annual report year: 2014

Projected impacts of climate change on marine fish and fisheries
Publication: Research - peer-review › Journal article – Annual report year: 2013

Climate impacts on the Baltic Sea: From science to policy
Publication: Research - peer-review › Book – Annual report year: 2012

Comparing reconstructed past variations and future projections of the Baltic Sea ecosystem—first results from multi-model ensemble simulations
Publication: Research - peer-review › Journal article – Annual report year: 2012

How the Subpolar gyre strength influences phytoplankton blooms dynamics in the North Atlantic
Publication: Research › Paper – Annual report year: 2012

Impact of climate change on fish population dynamics in the Baltic Sea: a dynamical downscaling investigation
Publication: Research - peer-review › Journal article – Annual report year: 2012

Spatial patterns in the distribution and early life characteristics of North Sea cod - Influence from environmental factors and climate change
Publication: Research › Ph.D. thesis – Annual report year: 2012

Spawning of bluefin tuna in the Black Sea: historical evidence, environmental constraints and population plasticity
Publication: Research - peer-review › Journal article – Annual report year: 2012
Subpolar gyre strength influences phytoplankton bloom dynamics
Publication: Research › Conference abstract for conference – Annual report year: 2012

Weak subpolar Gyre lead to early blooms
Publication: Research › Conference abstract for conference – Annual report year: 2012

Could seals prevent cod recovery in the Baltic Sea?
Publication: Research - peer-review › Journal article – Annual report year: 2011

Could seals prevent cod recovery in the Baltic Sea?
Publication: Research › Conference article – Annual report year: 2011

Extending time-series of fish biomasses using a simple surplus production based approach
Eero, M. & MacKenzie, B. 2011 In : Marine Ecology - Progress Series. 440, p. 191-201
Publication: Research - peer-review › Journal article – Annual report year: 2011

Four regional marine biodiversity studies: Approaches and contributions to ecosystem-based management
Publication: Research - peer-review › Journal article – Annual report year: 2011

Historical ecology provides new insights for ecosystem management: Eastern Baltic cod case study
MacKenzie, B., Ojaveer, H. & Eero, M. 2011 In : Marine Policy. 35, 2, p. 266-270
Publication: Research - peer-review › Journal article – Annual report year: 2010

Multi-decadal responses of a cod (Gadus morhua) population to human-induced trophic changes, fishing, and climate
Eero, M., MacKenzie, B., Köster, F. & Gislason, H. 2011 In : Ecological Applications. 21, 1, p. 214-226
Publication: Research - peer-review › Journal article – Annual report year: 2010

Phytoplankton spring bloom influence on larval and juvenile fish survival
Publication: Research › Conference abstract for conference – Annual report year: 2011

Scenarios of ecological and economic consequences of rebuilding paths of depleted populations
Publication: Research › Paper – Annual report year: 2011

Stable isotope evidence for late medieval (14th-15th C) origins of the eastern Baltic cod (Gadus morhua) fishery
Publication: Research - peer-review › Journal article – Annual report year: 2011

Cod and future climate change
Publication: Research › Report – Annual report year: 2010
Why is haddock overtaking cod? Comparing the effects of temperature and habitat size on recruitment dynamics of both species across the N Atlantic
Mantzouni, I. & MacKenzie, B. 2010
Publication: Research › Paper – Annual report year: 2010

Can we sustain fisheries as the climate changes?
Publication: Research › Book chapter – Annual report year: 2009

Ecosystem productivity: From: DTU Climate Change Technologies
Publication: Research › Report – Annual report year: 2009

Environmental effects on recruitment and implications for biological reference points of Eastern Baltic cod (Gadus morhua)
Publication: Research - peer-review › Journal article – Annual report year: 2009

Fishing and jellyfish eradicate fish 180 years ago
MacKenzie, B. & Poulsen, B. 2009
Publication: Research › Paper – Annual report year: 2010

Impending collapse of bluefin tuna in the northeast Atlantic and Mediterranean
Publication: Research - peer-review › Journal article – Annual report year: 2009

Konsekvensen af klimatiske ændringer på det danske tungefiskeri
Nielsen, E. & MacKenzie, B. 2009
Publication: Research › Conference abstract for conference – Annual report year: 2009

Productivity patterns and abundance-area relationships in 3 marine fish species (cod, herring and haddock): meta-analyses on the effects of temperature, life-history and habitat size across the N Atlantic
Mantzouni, I. & MacKenzie, B. 2009
Publication: Research › Conference abstract for conference – Annual report year: 2009

Beware the misapplication of results: Response to Cardinale and Svedång (2007)
Publication: Research - peer-review › Journal article – Annual report year: 2008

Climate related marine ecosystem changes
Publication: Research - peer-review › Book chapter – Annual report year: 2008

Effect of recent climatic changes on abundance of sole, Solea solea, in the Kattegat and the Belt Sea
Publication: Research › Conference abstract in proceedings – Annual report year: 2008

Fish
Publication: Research - peer-review › Book chapter – Annual report year: 2008
Fish stock development under hydrographic and hydrochemical aspects - the history of Baltic Sea fisheries and its management
Publication: Research - peer-review › Book chapter – Annual report year: 2008

Hierarchical modeling of temperature and habitat effects on carrying capacity and maximum reproductive rate of North Atlantic cod in the Baltic Sea, Gulf of St. Lawrence and throughout the North Atlantic
Publication: Research › Conference article – Annual report year: 2008

Hindcasting the temperature and growth history of surviving larvae of bluefin tuna (Thunnus thynnus) in the Northwest Mediterranean Sea
Publication: Research › Conference abstract in proceedings – Annual report year: 2008

Importance of fish biodiversity for the management of fisheries and ecosystems
Publication: Research - peer-review › Journal article – Annual report year: 2008

Incorporating environmental variability in stock assessment: predicting recruitment, spawner biomass and landings of sprat (Sprattus sprattus) in the Baltic Sea
MacKenzie, B., Horbowy, J. & Köster, F. 2008 In : Canadian Journal of Fisheries and Aquatic Sciences. 65, 7, p. 1334-1341
Publication: Research - peer-review › Journal article – Annual report year: 2008

Reconstructing historical stock development of Atlantic cod (Gadus morhua) in the eastern Baltic Sea before the beginning of intensive exploitation
Eero, M., Köster, F. & MacKenzie, B. 2008 In : Canadian Journal of Fisheries and Aquatic Sciences. 65, 12, p. 2728-2741
Publication: Research - peer-review › Journal article – Annual report year: 2008

The Eastern Baltic cod stock in the 20th century: Resolving impacts of fishing, human-induced trophic changes and climate
Publication: Research › Conference article – Annual report year: 2008

Daily ocean monitoring since the 1860s shows record warming of northern European seas
Publication: Research - peer-review › Journal article – Annual report year: 2007

A long term (1667-1860) perspective on impacts of fishing and environmental variability on fisheries for herring, eel, and whitefish in the Limfjord, Denmark
Publication: Research - peer-review › Journal article – Annual report year: 2007

An abundance estimate of ling (Molva molva) and cod (Gadus morhua) in the Skagerrak and the northeastern North Sea, 1872
Publication: Research - peer-review › Journal article – Annual report year: 2007

Ansjoserne kommer: nyhed fra Danmarks Fiskeriundersøgelser 18. september 2006
MacKenzie, B. 2007 In : Fritidsfiskeren. 27, 1, p. 12-12
Publication: Research › Journal article – Annual report year: 2007
Daily ocean monitoring since the 1860s shows record warming of northern European seas
Publication: Research › Conference article – Annual report year: 2007

Development of international fisheries for the eastern Baltic cod (Gadus morhua) from the late 1880s until 1938
Publication: Research - peer-review › Journal article – Annual report year: 2007

Historical analysis of Pan I in Atlantic cod (Gadus morhua): temporal stability of allele frequencies in the southeastern part of the species distribution
Eg Nielsen, E., MacKenzie, B., Magnussen, E. & Meldrup, D. 2007 In : Canadian Journal of Fisheries and Aquatic Sciences. 64, 10, p. 1448-1455
Publication: Research - peer-review › Journal article – Annual report year: 2007

Historical development of fisheries in northern Europe - Reconstructing chronology of interactions between nature and man: Introduction
Publication: Research - peer-review › Journal article – Annual report year: 2007

Impact of 21st century climate change on the Baltic Sea fish community and fisheries
Publication: Research - peer-review › Journal article – Annual report year: 2007

Impact of 21st century climate change on the Baltic Sea fish community and fisheries
Publication: Research › Conference article – Annual report year: 2007

Incorporating environmental variability in stock assessment - predicting recruitment, spawner biomass and landings of sprat in the Baltic Sea
Publication: Research › Conference abstract for conference – Annual report year: 2007

Individual based model of cod larvae feeding behavior: interaction with turbulence and search shape
MacKenzie, B., Mariani, P. & Visser, A. 2007
Publication: Research › Conference abstract for conference – Annual report year: 2007

Individual-based simulations of larval fish feeding in turbulent environments
Mariani, P., MacKenzie, B., Visser, A. & Botte, V. 2007 In : Marine Ecology - Progress Series. 347, p. 155-169
Publication: Research - peer-review › Journal article – Annual report year: 2007

Long-term sea surface temperature baselines - time series, spatial covariation and implications for biological processes
Publication: Research - peer-review › Journal article – Annual report year: 2007

MarFish: Causes and consequences of changing marine biodiversity, a fish and fisheries perspective
Publication: Research › Conference article – Annual report year: 2007

Modelling retention dispersion mechanisms of bluefin tuna eggs and larvae in the Balearic area
Publication: Research › Conference abstract for conference – Annual report year: 2007

Molecular methods for assessing temporal adaptive changes in fish populations, a case study employing historical analysis of Pan I in cod (Gadus morhua)
**Multi-decadal scale variability in the eastern Baltic cod fishery 1550-1860 - Evidence and causes**

Publication: Research - peer-review › Journal article – Annual report year: 2007

Turbulence-enhanced prey encounter rates in larval fish: Effects of spatial scale, larval behaviour and size
Publication: Research - peer-review › Journal article – Annual report year: 1995

Water temperature and wind effects on the abundance of 0 group plaice (Pleuronectes platessa) in the Kattegat
Publication: Research › Conference article – Annual report year: 1995

Projects:

Marine Ecosystem Climate Services
Miesner, A. K., Payne, M. & MacKenzie, B.
01/09/2016 → 31/08/2020
Project: PhD

Intelligent oceanographically-based short-term fishery forecasting applications (GOFORIT) (39270)
MacKenzie, B., van Deurs, M. & Jonasdottir, S.
01/04/2015 → 01/04/2018
Project
Copepo traits and trade-offs: characterizing gender and feeding type specific behavior
van Someren Gréve, H., Kiørboe, T., Almeda, R., MacKenzie, B., Fiksen, Ø. & Mazzocchi, M. G.
01/05/2014 → 30/08/2017
Project: PhD

Biodiversity changes - causes, consequences and management implications (BIO-C3) (39117)
Köster, F., Neuenfeldt, S., Tomkiewicz, J., MacKenzie, B., Jaspers, C., Eero, M., Bekkevold, D., Dutz, J., Behrens, J. & Huwer, B.
01/03/2014 → 28/02/2018
Project

A trait-based approach towards understanding benthic-pelagic pathways in marine ecosystems
15/12/2013 → 06/06/2017
Project: PhD

North Atlantic climate (NACLIM) (38945)
Payne, M., MacKenzie, B. & Miesner, A. K.
01/11/2012 → 31/01/2017
Project

North Sea Mackerel or Mackerel in the North (Sea)?
Jansen, T., Gislason, H., MacKenzie, B., Sparholt, H. & Villamor, B.
01/08/2012 → 21/11/2012
Project: PhD

Center for Ocean Life (COOL) - a Villum-Kahn Rasmussen Centre of excellence for the study of life in a changing ocean (38960)
01/01/2012 → 31/12/2017
Project

The role of deep convection on the dynamics of the North Atlantic phytoplankton community
Lindemann, C., St. John, M., Mariani, P., MacKenzie, B., Bruggeman, J. & Martin, A. P.
01/01/2012 → 01/07/2015
Project: PhD

Fisheries Oceanography of Northern Pelagic Fish Populations
Tsoukali, S., MacKenzie, B., Visser, A., Nielsen, T. G., Folkvord, A. & Miller, T. J.
15/12/2011 → 02/09/2015
Project: PhD

Comparative growth and feeding ecology between whiting (Merlangius merlangus) in the Baltic Sea and the North Sea
Ross, S. D., Nielsen, J. R., Andersen, N. G., Gislason, H., MacKenzie, B., Rijnsdorp, A. D. & Temming, A.
01/11/2011 → 21/04/2016
Project: PhD

PhD Scholarship in Marine Ecology and Climate
15/09/2011 → 01/04/2015
Project: PhD

Externally driven mortality of Eastern Baltic cod early life stages: Impact of predation and hydrography
Neumann, V., Köster, F., Eero, M., MacKenzie, B., Grønkjær, P. & Kraus, G.
Climate change on marine ecosystems and resource economics (NorMER) (38898)
01/01/2011 → 31/12/2015
Project

History of marine animal populations (HMAP) (38156)
MacKenzie, B. & Eero, M.
01/01/2011 → 01/03/2012
Project

Integration of European marine research networks of excellence (EUROMARINE) (38903)
Mariani, P. & MacKenzie, B.
01/01/2011 → 31/01/2013
Project

Centre for Macroecology, Evolution and Climate (CMEC) (38784)
MacKenzie, B., Lindegren, M., Mantzouni, I., Neuheimer, A., Hartvig, M., Reygondeau, G. & Tsoukali, S.
01/01/2010 → 31/12/2015
Project

European basin-scale analysis, synthesis and integration (EURO-BASIN) (38899)
01/01/2010 → 31/12/2014
Project

Demography of fished Populations: Yield, Resilience and Evolutionary Change
01/12/2009 → 28/03/2012
Project: PhD

Advanced modelling tool for scenarios of the Baltic Sea ecosystem to support decision making (ECOSUPPORT) (38733)
MacKenzie, B., Eero, M., Lindegren, M. & Neuenfeldt, S.
01/01/2009 → 31/12/2011
Project

Marine fish atlas of Denmark (38852)
MacKenzie, B., Støttrup, J. G. & Hoffmann, E.
01/01/2009 → 31/12/2013
Project

Torskens populationsdynamik i Nordøen
Höffle, H., Munk, P., MacKenzie, B., Brander, K., Gallego, A. & Grønkjaer, P.
15/12/2008 → 27/06/2012
Project: PhD

Stereology as a tool to assess reproduction strategy and fecundity of teleost fishes
01/10/2008 → 29/01/2014
Project: PhD

Local adaption in Baltic Sea small pelagic fishes
Limborg, M., Bekkevold, D., Hansen, M. M., MacKenzie, B., Eg Nielsen, E., Mosegaard, H., Hauser, L. & Vasemägi, A.
01/09/2008 → 28/03/2012
Project: PhD

Marine ecosystem evolution in a changing environment (MEECE) (38131)
Christensen, A., Köster, F., Vinther, M., Neuenfeldt, S., MacKenzie, B., Nielsen, J. R., Eero, M., Andersen, K. H., Bastardie, F., Neumann, V. & Grigorov, I.
01/01/2008 → 15/10/2012
Project

Resolving climatic impacts on fish stocks (RECLAIM) (38109)
Köster, F., Christensen, A., Neuenfeldt, S., MacKenzie, B., Andersen, K. H., Huwer, B., Payne, M., Brander, K., Gürkan, Z., Mosegaard, H., Geitner, K. & Jensen, H.
01/01/2007 → 31/12/2009
Project

Elucidating the structure and functioning of marine ecosystems through synthesis and comparative analysis (META-OCEANS) (38154)
01/03/2006 → 09/12/2011
Project

Incorporating extrinsic drivers into fisheries management (IN EX FISH) (38188)
Dolmer, P., van Deurs, M., MacKenzie, B. & Jensen, H.
01/01/2006 → 31/12/2008
Project

Understanding the mechanisms of stock recovery (UNCOVER) (38104)
01/01/2006 → 31/12/2010
Project

Danish Network for Aquaculture and Fisheries Research (FISHNET) (38082)
Gislason, H., MacKenzie, B., Rindorf, A. & van Deurs, M.
01/01/2000 → 31/12/2012
Project

Activities:

ICES - Science Committee meeting - SCICOM (External organisation)
MacKenzie, B. (Participant)
2012 → …
Activity: Membership › Membership of committees, commissions, boards, councils, associations, organisations, or similar
