Publications:

Impact of environmental conditions on biomass yield, quality, and bio-mitigation capacity of Saccharina latissima
Publication: Research - peer-review › Journal article – Annual report year: 2016

Bioaccumulation of metals (Cd, Cu, Ni, Pb and Zn) in suspended cultures of blue mussels exposed to different environmental conditions
Publication: Research - peer-review › Journal article – Annual report year: 2015

Chemical composition and standardized ileal digestibility of protein and amino acids from blue mussel, starfish, and fish silage in pigs
Publication: Research - peer-review › Journal article – Annual report year: 2015

Reducing the impact of blue mussel (Mytilus edulis) dredging on the ecosystem in shallow water soft bottom areas
Publication: Research - peer-review › Journal article – Annual report year: 2014

De Lokale Dyder: Udvikling af muslingeerhvervet i Limfjorden
Publication: Research › Report – Annual report year: 2015

Mussels as a tool for mitigation of nutrients in the marine environment
Publication: Research - peer-review › Journal article – Annual report year: 2014

Research, tourism and education: A turbulent but successful marriage.
Publication: Research › Conference abstract for conference – Annual report year: 2014

The seaweed challenge
Publication: Research › Conference abstract for conference – Annual report year: 2014

Kulturbankedyrkning af blåmuslinger i Limfjorden.
Publication: Research › Conference abstract for conference – Annual report year: 2014

Status and trends of Zostera marina in the Limfjorden
Publication: Research › Conference abstract for conference – Annual report year: 2014

Comparative study of predatory responses in blue mussels (Mytilus edulis L.) produced in suspended long line cultures or collected from natural bottom mussel beds
Publication: Research - peer-review › Journal article – Annual report year: 2011

Opbevaring og konditionering af ferske muslinger - med fokus på optimering af kvalitet og holdbarhed
Publication: Research › Report – Annual report year: 2010

Supplerende bestandsundersøgelser af blåmuslinger, ålegræs og makroalger på lavt vand i Lovns og Løgstør Bredning i 2009
Publication: Research › Report – Annual report year: 2010

Udvikling af kulturbanker til produktion af blåmuslinger i Limfjorden
Publication: Research › Report – Annual report year: 2009
Projects:

Development of sustainable mussel production (Idékataloget) (39250)

The macroalgae biorefinery - Sustainable production of 3G energy carriers and fish feed from macroalgae (MAB3) (39165)
