Fredrik Haglind - Research outputs - DTU Orbit (24/06/2019)

Mondejar, Maria E. and Fredrik Haglind On the prediction of thermophysical properties of innovative fluids. 2018. 1 p.

Montagud, Maria E. Mondejar and Fredrik Haglind *Factors affecting the thermophysical properties of nanofluids*. 2017.

Montagud, Maria E. Mondejar and Fredrik Haglind *Factors affecting the thermophysical properties of nanofluids*. 2017. 1 p.

Wronski, Jorrit, Jean-Francois Oudkerk, and Fredrik Haglind *Modelling of a small scale reciprocating ORC expander for cogeneration applications*. 2013. 4 p.

Lythcke-Jørgensen, Christoffer Ernst, Fredrik Haglind, and Laase Rangaard Clausen Thermodynamic and economic analysis of integrating lignocellulosic bioethanol production in a Danish combined heat and power unit. 2013. 8 p.
