Publications:

Changes in reproductive life history and resource allocation impacting population dynamics of Baltic cod
Publication: Research › Conference abstract for conference – Annual report year: 2017

Do spatio-temporal spawning closures promote the recovery of cod in the Baltic Sea?
Publication: Research › Conference abstract for conference – Annual report year: 2017

Eastern Baltic cod recruitment revisited—dynamics and impacting factors
Publication: Research › peer-review › Review – Annual report year: 2016

Fish egg predation by Baltic sprat and herring: do species characteristics and development stage matter?
Publication: Research › peer-review › Journal article – Annual report year: 2017

Quantifying predation on Baltic cod early life stages
Publication: Research › peer-review › Journal article – Annual report year: 2017

Trophic Interactions in the Baltic Sea: Clupeid predation on cod early life stages
Publication: Research › Conference abstract for conference – Annual report year: 2017

Trophic Interactions in the Baltic Sea: Clupeid predation on cod early life stages
Publication: Research › Conference abstract for conference – Annual report year: 2017

Trophic Interactions in the Baltic Sea: Predation on cod eggs by clupeids
Publication: Research › Ph.D. thesis – Annual report year: 2017

Baltic cod recruitment – the impact of changing environmental conditions
Publication: Research › Paper – Annual report year: 2016

Clupeid consumption of cod eggs: Does it affect recent recruitment of Baltic cod?
Publication: Research › Conference abstract for conference – Annual report year: 2016

Ecosystem indicators in the context of fisheries management: example of cod in the Baltic Sea
Publication: Research › Conference abstract for conference – Annual report year: 2016

Towards sustainable blue growth: Outline of the joint Baltic Sea and the North Sea research and innovation programme 2018-2023
Publication: Research › Report – Annual report year: 2016
Understanding the processes behind fish stock dynamics: Where are we?
Publication: Research › Conference abstract for conference – Annual report year: 2017

Eastern Baltic cod in distress: biological changes and challenges for stock assessment
Publication: Research - peer-review › Journal article – Annual report year: 2015

Processes controlling recruitment in Baltic cod
Publication: Research › Conference abstract for conference – Annual report year: 2015

Reproduction of Baltic cod, Gadus morhua (Actinopterygii: Gadiformes: Gadidae), in the Gotland Basin: Causes of annual variability
Publication: Research - peer-review › Journal article – Annual report year: 2015

BONUS strategic research agenda 2011–2017, update 2014
Publication: Research › Report – Annual report year: 2014

Characteristics of juvenile survivors reveal spatio-temporal differences in early life stage survival of Baltic cod
Publication: Research - peer-review › Journal article – Annual report year: 2014

Floating along buoyancy levels: dispersal and survival of western Baltic fish eggs
Publication: Research - peer-review › Journal article – Annual report year: 2014

Gadoid fisheries: the ecology and management of rebuilding: Introduction
Publication: Research - peer-review › Journal article – Annual report year: 2014

Recovery in eastern Baltic cod: is increased recruitment caused by decreased predation on early life stages?
Publication: Research - peer-review › Journal article – Annual report year: 2014

Sustainable exploitation and management of aquatic resources
Publication: Research › Conference abstract in proceedings – Annual report year: 2014

Cod recovery as a new challenge for fisheries management: experience from the Baltic Sea
Publication: Research › Conference abstract for conference – Annual report year: 2013

Linking size and age at sexual maturation to body growth, productivity and recruitment of Atlantic cod stocks spanning the North Atlantic
Publication: Research - peer-review › Journal article – Annual report year: 2012

Marine fisheries science priorities
Publication: Research › Paper – Annual report year: 2013

Recruitment processes in Baltic sprat - A re-evaluation of GLOBEC Germany hypotheses
Publication: Research - peer-review › Journal article – Annual report year: 2012

Robustness of egg production methods as a fishery independent alternative to assess the Eastern Baltic cod stock (Gadus morhua callarias L.)
Publication: Research - peer-review › Journal article – Annual report year: 2011

Spatial management of marine resources can enhance the recovery of predators and avoid local depletion of forage fish
Publication: Research - peer-review › Journal article – Annual report year: 2012
Stock assessment in the BCC region
Publication: Research › Conference abstract for conference – Annual report year: 2013

The ecophysiology of Sprattus sprattus in the Baltic and North Seas
Publication: Research - peer-review › Journal article – Annual report year: 2012

The state and relative importance of drivers of fish population dynamics: An indicator-based approach
Publication: Research - peer-review › Journal article – Annual report year: 2011

Why is the Eastern Baltic cod recovering?
Publication: Research - peer-review › Journal article – Annual report year: 2011

Externally driven mortality of cod early life stages in the central Baltic: hydrography vs. predation
Publication: Research › Conference abstract for conference – Annual report year: 2011

Grey seal predation on forage fish in the Baltic Sea
Publication: Research › Conference abstract for conference – Annual report year: 2011

Introducing state-space stock assessment (SAM), split species issues and spatial modelling
Publication: Research › Paper – Annual report year: 2011

Linking size and age of attaining sexual maturation to growth and stock productivity in Atlantic cod stocks
Publication: Research › Conference abstract for conference – Annual report year: 2011

Multi-decadal responses of a cod (Gadus morhua) population to human-induced trophic changes, fishing, and climate
Publication: Research - peer-review › Journal article – Annual report year: 2010

Spatio-temporal overlap of the alien invasive ctenophore Mnemiopsis leidyi and ichthyoplankton in the Bornholm Basin (Baltic Sea)
Publication: Research - peer-review › Journal article – Annual report year: 2011

The invasive ctenophore Mnemiopsis leidyi in the central Baltic Sea: seasonal phenology and hydrographic influence on spatio-temporal distribution patterns
Publication: Research - peer-review › Journal article – Annual report year: 2011

The recovery of cod in the Baltic Sea, a success against all odds
Publication: Research › Paper – Annual report year: 2011

Vertical distribution and growth performance of Baltic cod larvae - Field evidence for starvation-induced recruitment regulation during the larval stage?
Publication: Research - peer-review › Journal article – Annual report year: 2011

Weaving marine food webs from end to end under global change
Publication: Research - peer-review › Journal article – Annual report year: 2010

Baltic cod cannibalism: differing consequences at stock recovery vs. decline?
Publication: Research › Conference abstract for conference – Annual report year: 2010

CAVIAR: Climate variability of the Baltic Sea area
Publication: Research › Paper – Annual report year: 2010
Framework of stock-recovery strategies: analyses of factors affecting success and failure
Publication: Research › Peer review › Journal article – Annual report year: 2010

Impact of hypoxia on consumption of Baltic cod in a multispecies stock assessment context
Publication: Research › Peer review › Journal article – Annual report year: 2010

Influence of lipids and fatty acid composition on Baltic cod (Gadus morhua L.) maturation and timing of spawning
Publication: Research › Conference abstract for conference – Annual report year: 2010

Marine resources management in the face of change: from ecosystem science to ecosystem-based management
Publication: Research › Conference abstract for conference – Annual report year: 2010

The EFARO perspective on providing science for policy
Publication: Research › Conference abstract for conference – Annual report year: 2010

An ecosystem-based framework for tracking performance of fish stocks and related forcings using fuzzy-logic approach
Publication: Research › Conference abstract for conference – Annual report year: 2009

Baltic cod cannibalism: Differing consequences at stock recovery versus the historic situation of cod decline?
Publication: Research › Conference abstract for conference – Annual report year: 2009

Current trends in the assessment and management of stocks
Publication: Research › Peer review › Book chapter – Annual report year: 2009

Ecosystem productivity: From: DTU Climate Change Technologies
Publication: Research › Report – Annual report year: 2009

Egg production methods as a fishery independent alternative to assess the Eastern Baltic cod stock
Publication: Research › Conference abstract for conference – Annual report year: 2009

Environmental effects on recruitment and implications for biological reference points of Eastern Baltic cod (Gadus morhua)
Publication: Research › Peer review › Journal article – Annual report year: 2009

Identifying eastern Baltic cod nursery grounds using hydrodynamic modelling: knowledge for the design of Marine Protected Areas
Publication: Research › Peer review › Journal article – Annual report year: 2009

Reflection on the CFP reform
Publication: Research › Conference abstract for conference – Annual report year: 2009

Seasonal lipid dynamics of herring and sprat in the Baltic Sea and possible implications for cod reproduction
Publication: Research › Poster – Annual report year: 2009

Udbrædelse af den invasive ribbegople Mnemiopsis leidyi i Bornholmerdybet og mulige konsekvenser for kommercielt vigtige fiskebestande
Publication: Research › Conference abstract for conference – Annual report year: 2009

UNCOVER: Fish Stock Recovery Strategies – Lessons learned in the Baltic Sea
Publication: Research › Conference abstract for conference – Annual report year: 2009
Yes, we can – the successful recovery of the Baltic sprat stock
Publication: Research › Conference abstract for conference – Annual report year: 2009

CAVIAR: Climate variability of the Baltic Sea area
Publication: Research › Poster – Annual report year: 2008

Climate related marine ecosystem changes
Publication: Research - peer-review › Book chapter – Annual report year: 2008

Fish
Publication: Research - peer-review › Book chapter – Annual report year: 2008

FishFrame 5.0: A web based datawarehouse application for management, access and integration of fisheries and stock assessment data
Publication: Research › Conference article – Annual report year: 2008

Fish stock development under hydrographic and hydrochemical aspects - the history of Baltic Sea fisheries and its management
Publication: Research - peer-review › Book chapter – Annual report year: 2008

Incorporating environmental variability in stock assessment: predicting recruitment, spawner biomass and landings of sprat ( Sprattus sprattus ) in the Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2008

Process-based model for direct and indirect effects of hydrographic conditions on Central Baltic ( Gadus morhua ) cod egg mortality
Publication: Research - peer-review › Journal article – Annual report year: 2008

Reconstructing historical stock development of Atlantic cod (Gadus morhua) in the eastern Baltic Sea before the beginning of intensive exploitation
Publication: Research - peer-review › Journal article – Annual report year: 2008

Seasonal prevalence and intensity of follicular atresia in Baltic cod Gadus morhua callarias L
Publication: Research - peer-review › Journal article – Annual report year: 2008

The Eastern Baltic cod stock in the 20th century: Resolving impacts of fishing, human-induced trophic changes and climate
Publication: Research › Conference article – Annual report year: 2008

Vertical distribution and nutritional condition of Baltic cod larvae - revisited
Publication: Research › Poster – Annual report year: 2008

Developing an integrated view on the Baltic Sea ecosystem: The EUR-OCEANS Baltic system stydy
Publication: Research › Article in proceedings – Annual report year: 2007

Eastern Baltic cod ( Gadus morhua callarias ) stock dynamics: extending the analytical assessment back to the mid-1940s
Publication: Research - peer-review › Journal article – Annual report year: 2007

Impact of 21st century climate change on the Baltic Sea fish community and fisheries
Publication: Research - peer-review › Review – Annual report year: 2007

Impact of 21st century climate change on the Baltic Sea fish community and fisheries
Publication: Research › Conference article – Annual report year: 2007
Incorporating environmental variability in stock assessment - predicting recruitment, spawner biomass and landings of sprat in the Baltic Sea
Publication: Research › Conference article – Annual report year: 2007

Invading Mnemiopsis leidyi as a potential threat to Baltic fish
Publication: Research - peer-review › Journal article – Annual report year: 2007

Pelagic habitat mapping: A tool for area-based fisheries management in the Baltic Sea
Publication: Research › Report – Annual report year: 2007

Spatial and temporal heterogeneity of the cod spawning environment in the Bornholm Basin, Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2007

Dorsch in der Ostsee
Publication: Research › Book chapter – Annual report year: 2006

Growth, drift and survival probability of cod early life stages in relation to environmental conditions
Publication: Research › Poster – Annual report year: 2006

Recruitment variability in Baltic Sea sprat (Sprattus sprattus) is tightly coupled to temperature and transport patterns affecting the larval and early juvenile stages
Publication: Research - peer-review › Journal article – Annual report year: 2006

Torsken og klimaforandringer
Publication: Research › Poster – Annual report year: 2006

Baltic
Publication: Research › Book chapter – Annual report year: 2005

Baltic cod recruitment - the impact of climate variability on key processes
Publication: Research - peer-review › Journal article – Annual report year: 2005

Climate, zooplankton, and pelagic fish growth in the central Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2005

Maternal and paternal influences on early life history traits and processes of Baltic cod Gadus morhua
Publication: Research - peer-review › Journal article – Annual report year: 2005

Timing of Baltic cod spawning and spawner demography
Publication: Research › Conference article – Annual report year: 2005

A new retention index for the Central Baltic Sea: long-term hydrodynamic modelling used to improve Baltic sprat recruitment models
Publication: Research › Journal article – Annual report year: 2004

A new retention index for the central Baltic Sea: long-term hydrodynamic modelling used to improve Baltic sprat, Sprattus sprattus, recruitment models
Publication: Research › Conference article – Annual report year: 2004

Baltic cod recruitment - the role of physical forcing and species interactions
Publication: Research › Conference article – Annual report year: 2004
Distribution of herring and sprat in the Baltic Sea in relation to physical features
Publication: Research › Conference article – Annual report year: 2004

Estimating Baltic sprat (Sprattus sprattus balticus S.) population sizes from egg production
Publication: Research - peer-review › Journal article – Annual report year: 2004

Feeding ecology of central Baltic Sea herring (Clupea harengus) and sprat (Sprattus sprattus)
Publication: Research - peer-review › Journal article – Annual report year: 2004

Fish predation control of key copepod species in the Bornholm Basin
Publication: Research › Journal article – Annual report year: 2004

Fish predation control of key copepod species in the Bornholm Basin
Publication: Research › Conference article – Annual report year: 2004

Fish production and climate: Sprat in the Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2004

Herring and sprat growth changes in the central Baltic Sea
Publication: Research › Conference article – Annual report year: 2004

Baltic cod
Publication: Research › Report – Annual report year: 2003

Comparing the feeding habits of co-occurring sprat (Sprattus sprattus) and cod (Gadus morhua) larvae in the Bornholm Basin, Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2003

Developing alternative indices of reproductive potential for use in fisheries management: Case studies for stocks spanning an information gradient
Publication: Research - peer-review › Journal article – Annual report year: 2003

Environmental indices in fish stock assessment and management procedures: State of the art in pelagic fish stocks: report of the 2nd meeting of the SPACC/IOC Study Group on "Use of environmental indices in the management of pelagic fish populations" (9-11 November 2002, Paris, France)
Publication: Research › Report – Annual report year: 2003

Environmental indices in the assessment of Baltic sprat and herring: Report of the 2nd meeting of the SPACC/IOC Study Group on "Use of environmental indices in the management of pelagic fish populations" (9-11 November 2002, Paris, France)
Publication: Research › Report – Annual report year: 2003

Fish stock development in the Central Baltic Sea (1976-2000) in relation to variability in the environment
Publication: Research - peer-review › Journal article – Annual report year: 2003

Interannual variability in population dynamics of calanoid copepods in the Central Baltic Sea
Publication: Research › Journal article – Annual report year: 2003

Modelling the influences of atmospheric forcing conditions on Baltic cod early life stages: distribution and drift
Publication: Research - peer-review › Journal article – Annual report year: 2003
Recruitment of Baltic cod and sprat stocks: identification of critical life stages and incorporation of environmental variability into stock-recruitment relationships
Publication: Research - peer-review › Journal article – Annual report year: 2003

Scientific knowledge on biological processes potentially useful in fish stock predictions
Publication: Research - peer-review › Journal article – Annual report year: 2003

The marine copepod, Pseudocalanus elongatus, as a mediator between climate variability and fisheries in the Central Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2003

Biodiversity and species-environment relationships of the demersal fish assemblage at the Great Meteor Seamount (subtropical NE Atlantic), sampled by different trawls
Publication: Research - peer-review › Journal article – Annual report year: 2002

Biophysical modelling of larval Baltic cod (Gadus morhua) survival and growth
Publication: Research - peer-review › Journal article – Annual report year: 2002

Egg production of Baltic cod in relation to variable sex ratio, maturity and fecundity
Publication: Research - peer-review › Journal article – Annual report year: 2002

Long-term trends in abundance of cladocerans in the Central Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2002

Population dynamics of calanoid copepods and the implications of their predation by clupeid fish in the Central Baltic Sea
Publication: Research - peer-review › Journal article – Annual report year: 2002

Resolving the impact of short-term variations in physical processes impacting on the spawning environment of eastern Baltic cod: application of a 3-D hydrodynamic model
Publication: Research - peer-review › Journal article – Annual report year: 2002

Developing Baltic cod recruitment models II: Incorporation of environmental variability and species interaction
Publication: Research - peer-review › Journal article – Annual report year: 2001

Developing Baltic cod recruitment models I: Resolving spatial and temporal dynamics of spawning stock and recruitment for cod, herring, and sprat
Publication: Research - peer-review › Journal article – Annual report year: 2001

Diatom production in the marine environment: implications for larval fish growth and condition
Publication: Research - peer-review › Journal article – Annual report year: 2001

Baltic cod: Resolving processes determining spatial and temporal windows of survival
Publication: Research › Conference article – Annual report year: 2000

Recruitment of Baltic cod and sprat stocks: Identification of critical life stages and incorporation of environmental variability and spatial heterogeneity into stock-recruitment relationships
Publication: Research › Conference article – Annual report year: 2000

Trophodynamic control on recruitment success in Baltic cod: the influence of cannibalism
Publication: Research - peer-review › Journal article – Annual report year: 2000

Baltic cod reproduction in the Gotland Basin: annual variability and possible causes
Publication: Research › Conference article – Annual report year: 1999
Does spatial match-mismatch of spawning and environmental conditions and recruitment in Baltic cod?
Publication: Research › Conference article – Annual report year: 1999

Stock-recruitment relationships of Baltic cod incorporating environmental variability and spatial heterogeneity
Publication: Research › Conference article – Annual report year: 1999

Summary of environmental conditions relevant to cod and sprat biology in the Baltic Sea
Publication: Research › Report – Annual report year: 1999

Quantifying and disaggregating the spawner effect: Incorporating stock structure, spatial distribution and female influences into estimates of annual population egg production
Publication: Research › Conference article – Annual report year: 1998

Baltic cod recruitment project (CORE)
Publication: Research › Conference article – Annual report year: 1996

Size and visibility of Baltic cod eggs with reference to size-selective and stage-dependent predation mortality
Publication: Research - peer-review › Journal article – Annual report year: 1996

Baltic cod recruitment project
Publication: Research › Conference article – Annual report year: 1995

Wissenschaftliche Grundlagen für ökosystem-orientiertes Fischereimanagement in den Gewässern vor Grönland
Publication: Research › Report – Annual report year: 1993
