A Maternal Gluten-Free Diet Reduces Inflammation and Diabetes Incidence in the Offspring of NOD Mice
Publication: Research - peer-review › Journal article – Annual report year: 2014

Postnatal amniotic fluid intake reduces gut inflammatory responses and necrotizing enterocolitis in preterm neonates
Publication: Research - peer-review › Journal article – Annual report year: 2013

Comparative analysis of a large panel of non-starch polysaccharides reveals structures with selective regulatory properties in dendritic cells
Publication: Research - peer-review › Journal article – Annual report year: 2010

The complexity of the murine microbiota influences the important recruitment of immune cells in early life
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2011

Milk Bioactives to Prevent Gut Inflammation
Publication: Research › Ph.D. thesis – Annual report year: 2010

Bifidobacterium bifidum Actively Changes the Gene Expression Profile Induced by Lactobacillus acidophilus in Murine Dendritic Cells
Publication: Research - peer-review › Journal article – Annual report year: 2010

CD4+ T‐cell activation is differentially modulated by bacteria‐primed dendritic cells, but is generally down‐regulated by n‐3 polyunsaturated fatty acids
Publication: Research - peer-review › Journal article – Annual report year: 2010

Dietary fibers as immunoregulatory compounds in health and disease
Publication: Research - peer-review › Article in proceedings – Annual report year: 2010

Lactobacillus acidophilus induces a slow but more sustained chemokine and cytokine response in naïve foetal enterocytes compared to commensal Escherichia coli
Publication: Research - peer-review › Journal article – Annual report year: 2010

Lactobacillus acidophilus induces virus immune defence genes in murine dendritic cells by a Toll-like receptor-2-dependent mechanism
Publication: Research - peer-review › Journal article – Annual report year: 2010

Tarmens Mikrobiota og Immunsystem
Publication: Research › Book chapter – Annual report year: 2010

Pseudomonas aeruginosa quorum-sensing signal molecules interfere with dendritic cell-induced T-cell proliferation
Publication: Research - peer-review › Journal article – Annual report year: 2009

Reduced ex Vivo Interleukin-6 Production by Dietary Fish Oil Is Not Modified by Linoleic Acid Intake in Healthy Men
Publication: Research - peer-review › Journal article – Annual report year: 2009

Whole-blood culture is a valid low-cost method to measure monocytic cytokines - A comparison of cytokine production in cultures of human whole-blood, mononuclear cells and monocytes
Publication: Research - peer-review › Journal article – Annual report year: 2009
Dendritic Cells from Peyer's Patches and Mesenteric Lymph Nodes Differ from Spleen Dendritic Cells in their Response to Commensal Gut Bacteria
Publication: Research - peer-review › Journal article – Annual report year: 2008

Dietary soya saponins increase gut permeability and play a key role in the onset of soyabean-induced enteritis in Atlantic salmon (Salmo salar L.)
Publication: Research - peer-review › Journal article – Annual report year: 2008

Effect on dendritic cells of aloe vera and pomme granate products from Forever Living Products
Publication: Research › Report – Annual report year: 2008

Fish oil in combination with high or low intakes of linoleic acid lowers plasma triacylglycerols but does not affect other cardiovascular risk markers in healthy men
Publication: Research - peer-review › Journal article – Annual report year: 2008

Tarmfloras betydning for immunforsvaret kortægges
Publication: Communication › Journal article – Annual report year: 2008

The effects of fish oil and high or low linoleic acid intake on fatty acid composition of human peripheral blood mononuclear cells
Publication: Research - peer-review › Journal article – Annual report year: 2008

Toll-like receptor 2 and nucleotide-binding oligomerization domain-2 play divergent roles in the recognition of gut-derived lactobacilli and bifidobacteria in dendritic cells
Publication: Research - peer-review › Journal article – Annual report year: 2008

Immunomodulatory properties of probiotic bacteria: Effects on dendritic cells and their interactions with NK cells and T cells
Publication: Research › Ph.D. thesis – Annual report year: 2007

Monoclonal antibody-based Surface Plasmon Resonance sensors for pathogen detection
Publication: Research › Ph.D. thesis – Annual report year: 2007

Bakteriefloraen i tarmen afbalancerer immunsystemet: Den rigtige bakterieflora i tarmen kan modvirke allergi og inflammatoriske sygdomme
Publication: Communication › Journal article – Annual report year: 2007

Detection of Fungal Spores Using a Generic Surface Plasmon Resonance Immunoassay
Publication: Research - peer-review › Journal article – Annual report year: 2007

Dietary fibres differentially modulate the bacterially induced maturation of dendritic cells
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

Dietary fibres differentially modulate the TLR-induced maturation of dendritic cells
Publication: Research › Sound/Visual production (digital) – Annual report year: 2007

Distinct gut-derived lactic acid bacteria elicit divergent dendritic cell-mediated NK cell responses
Publication: Research › peer-review › Journal article – Annual report year: 2007

Epithelial cells prime the immune response to an array of gut-derived commensals towards a tolerogenic phenotype through distinct actions of thymic stromal lymphopoietin and transforming growth factor-beta
Publication: Research - peer-review › Journal article – Annual report year: 2007
Epithelial cells prime the immune response to an array of gut-derived commensals towards a tolerogenic phenotype through the distinct action of thymic stromal lymphopoietin and transforming growth factor beta
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

Fish oil supplementation modulates immune function in healthy infants
Publication: Research - peer-review › Journal article – Annual report year: 2007

Human antigen-presenting cells respond differently to gut-derived probiotic bacteria but mediate similar strain-dependent NK and T cell activation
Publication: Research - peer-review › Journal article – Annual report year: 2007

Influence of gut microbiota on immunological maturation in infancy
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

Influence of gut microbiota on immunological maturation in infancy
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2007

Influence of gut microbiota on immunological maturation in infancy
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2007

Influence of gut microbiota on immunological maturation in infancy
Publication: Research - peer-review › Poster – Annual report year: 2007

Influence of gut microbiota on immunological maturation in infancy
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

Influence of gut microbiota on immunological maturation in infancy
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2007

Influence of gut microbiota on immunological maturation in infancy
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2007

Kan kosten påvirke vores risiko for at udvikle allergi?
Publication: Communication › Journal article – Annual report year: 2007

Monoclonal antibodies for the detection of Puccinia striiformis urediniospores
Publication: Research - peer-review › Journal article – Annual report year: 2007

Probiotic bacteria interact differently with dendritic cells from gut and spleen
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

Production of recombinant peanut allergen Ara h 2 using Lactococcus lactis
Publication: Research - peer-review › Journal article – Annual report year: 2007

Proteome-analysis of gut bacteria-matured dendritic cells
Publication: Research - peer-review › Poster – Annual report year: 2007

Proteome-analysis of gut bacteria-matured dendritic cells
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

Proteome-analysis of gut bacteria-matured dendritic cells
Publication: Research - peer-review › Poster – Annual report year: 2007
Saponin-containing subfractions of soybean molasses induce enteritis in the distal intestine of Atlantic salmon
Publication: Research - peer-review › Journal article – Annual report year: 2007

The effects of fish oil combined with high and low PUFA intake on tissue fatty acid composition and cardiovascular risk markers in healthy men
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

The potential of gut bacteria-matured DCs to activate CD4+ T cells highly depends on the lipid composition of the T cell membrane
Publication: Research › Sound/Visual production (digital) – Annual report year: 2007

The potential of gut bacteria-matured DCs to activate CD4+T cells highly depends on the lipid composition of the T cell membrane
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2007

Assessment of Lupin Allergenicity in the Cholera Toxin Model: Induction of IgE Response Depends on the Intrinsic Properties of the Conglutins and Matrix Effects
Publication: Research - peer-review › Journal article – Annual report year: 2006

A Surface Plasmon Resonance Immunobiosensor for Detection of Phytophthora infestans
Publication: Research - peer-review › Poster – Annual report year: 2006

A Surface Plasmon Resonance Immunosensor for Detection of urediniospores from Puccinia striformis f. sp. tritici
Publication: Research - peer-review › Poster – Annual report year: 2006

Different kinetic in incorporation and depletion of n-3 fatty acids in erythrocytes and leukocytes of mice
Publication: Research - peer-review › Journal article – Annual report year: 2006

Distinct Gut-Derived Bacteria Differentially Affect Three Types of Antigen-Presenting Cells and Impact on NK- and T-Cell Responses
Publication: Research - peer-review › Poster – Annual report year: 2006

Early nutrition and immunity - progress and perspectives
Publication: Research - peer-review › Journal article – Annual report year: 2006

Effects of dietary fatty acids on T-cell responses induced by dendritic cells
Publication: Research - peer-review › Poster – Annual report year: 2006

Fish oil affects immune function in 9 to 12 month old infants
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2006

Immunogenicity of κ-Casein and Glycomacropeptide
Publication: Research - peer-review › Journal article – Annual report year: 2006

Immunomodulating potential of supplementation with probiotics: a dose-response study in healthy young adults
Publication: Research - peer-review › Journal article – Annual report year: 2006

Lactic Acid Bacteria Inducing a Weak Interleukin-12 and Tumor Necrosis Alpha Response in Human Dendritic Cells Inhibit Strongly Stimulating Lactic Acid Bacteria but Act Synergistically with Gram-Negative Bacteria
Publication: Research - peer-review › Journal article – Annual report year: 2006

Nutrigenomics - Ernæringsforskningens nye redskab
Publication: Communication › Journal article – Annual report year: 2006
Soyasaponins resist extrusion cooking and are not degraded during gut passage in Atlantic salmon (Salmo salar L.)
