Publications:

The role of outer membrane proteins and lipopolysaccharides for the sensitivity of escherichia coli to antimicrobial peptides
Publication: Research - peer-review › Journal article – Annual report year: 2018

Dissection of the antimicrobial and hemolytic activity of Cap18: Generation of Cap18 derivatives with enhanced specificity
Publication: Research - peer-review › Journal article – Annual report year: 2018

Draft Genome Sequence of Acinetobacter johnsonii C6, an Environmental Isolate Engaging in Interspecific Metabolic Interactions
Publication: Research - peer-review › Journal article – Annual report year: 2017

A sampling and metagenomic sequencing-based methodology for monitoring antimicrobial resistance in swine herds
Publication: Research - peer-review › Journal article – Annual report year: 2016

Comparative Evaluation of the Antimicrobial Activity of Different Antimicrobial Peptides against a Range of Pathogenic Bacteria
Publication: Research - peer-review › Journal article – Annual report year: 2015

Characterization of Extended spectrum beta-lactamases (ESBL)-producing Escherichia coli obtained from Danish pigs, pig farmers and their families from farms with high or no consumption of 3rd or 4th generation cephalosporins
Publication: Research - peer-review › Journal article – Annual report year: 2014

Survival and Growth of Epidemically Successful and Nonsuccessful Salmonella enterica Clones after Freezing and Dehydration.
Publication: Research - peer-review › Journal article – Annual report year: 2012

Adjustment of pH of enrichment media might improve selective isolation of MRSA from pig samples
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2011

The survival of Listeria monocytogenes during long term desiccation is facilitated by sodium chloride and organic material
Publication: Research - peer-review › Journal article – Annual report year: 2010
