Publications:

Earlier hatching and slower growth, a key to survival in the early life history of Norwegian spring spawning herring
Publication: Research - peer-review › Journal article – Annual report year: 2018

Flabellum alabastrum deep sea cup coral meadows from West Greenland: Density, catchability and habitat suitability modelling
Publication: Research - peer-review › Journal article – Annual report year: 2018

Do spatio-temporal spawning closures promote the recovery of cod in the Baltic Sea?
Publication: Research › Conference abstract for conference – Annual report year: 2017

Dynamiske brugerstyrede havkort til værdiløft af dansk industrifiskeri (GUDP-VIND)
Publication: Research › Conference abstract for conference – Annual report year: 2017

Challenging ICES age estimation protocols: lessons learned from the eastern Baltic cod stock
Publication: Research - peer-review › Journal article – Annual report year: 2016

Evaluation of otolith shape as a tool for stock discrimination in marine fishes using Baltic Sea cod as a case study
Publication: Research - peer-review › Journal article – Annual report year: 2015

Spatio-temporal trends in stock mixing of eastern and western Baltic cod in the Arkona Basin and the implications for recruitment
Publication: Research - peer-review › Journal article – Annual report year: 2015

Connectivity, growth and survival in a spatially structured fish population, which is currently managed as seven separate stock units
Publication: Research › Poster – Annual report year: 2015

Effect of spatial differences in growth on distribution of seasonally co-occurring herring Clupea harengus stocks
Publication: Research - peer-review › Journal article – Annual report year: 2015

Korttidsprognoser for kortlivede industrifisk under MSY – forvaltning af tobis i Nordsøen
Publication: Research › Report – Annual report year: 2015

Long-term effects of an offshore wind farm in the North Sea on fish communities
Publication: Research - peer-review › Journal article – Annual report year: 2015
Managing population mixing; genetics supported stock splitting in Atlantic cod
Publication: Research › Conference abstract for conference – Annual report year: 2015

Optimal bæredygtig udnyttelse af tilgængelige torskebestande for dansk fiskeri
Publication: Research › Report – Annual report year: 2015

Stock mixing of eastern and western Baltic cod in SD 24
Publication: Research › Conference abstract for conference – Annual report year: 2015

Exploring the multidimensional nature of stock structure: a case study on herring dynamics in a transition area
Publication: Research › Ph.D. thesis – Annual report year: 2014

Prey or predator – expanding the food web role of sandeel (Ammodytes marinus)
Publication: Research › peer-review › Journal article – Annual report year: 2014

Statistical analysis of population assignment for fisheries management employing otolith characteristics
Publication: Research › Conference abstract for conference – Annual report year: 2014

The Baltic cod: A case study for testing stock discrimination based on otolith shape analysis in a mixed stock fishery
Publication: Research › Conference abstract for conference – Annual report year: 2014

Trading yield against precautionarity and the need for stability in the fishing sector
Publication: Research › Conference abstract for conference – Annual report year: 2014

Cod recovery as a new challenge for fisheries management: experience from the Baltic Sea
Publication: Research › Conference abstract for conference – Annual report year: 2013

Hav vindmølleparker og deres indflydelse på fisk – et casestudy fra Horns Rev havvindmøllepark
Publication: Research › Conference abstract for conference – Annual report year: 2013

Improved management based on stock identification of eastern and western Baltic cod
Publication: Research › Report – Annual report year: 2013

Modelling the economic consequences of Marine Protected Areas using the BEMCOM model
Publication: Research › peer-review › Journal article – Annual report year: 2012

Recruitment decline in North Sea herring is accompanied by reduced larval growth rates
Publication: Research › peer-review › Journal article – Annual report year: 2013

Spatio-temporal dynamics of growth and survival of Lesser Sandeel early life-stages in the North Sea: Predictions from a coupled individual-based and hydrodynamic-biogeochemical model
Publication: Research › peer-review › Journal article – Annual report year: 2012

Udvikling af effektivt og skånsomt redskab til tobisfiskeri på Dogger Banke
Publication: Research › Conference abstract for conference – Annual report year: 2013

A bioenergetic approach to model and reconstruct individual life traits from fish otoliths
Publication: Research › Conference abstract for conference – Annual report year: 2012
Growth and survival of larval and early juvenile lesser sandeel in patchy prey field in the North Sea: An examination using individual-based modelling
Publication: Research › Journal article – Annual report year: 2012

High-resolution stock discrimination of Atlantic herring (Clupea harengus) based on otolith shape, microstructure, and genetic markers
Publication: Research › Conference abstract for conference – Annual report year: 2012

Modelling the mixing of herring stocks between the Baltic and the North Sea from otolith data
Publication: Research › Paper – Annual report year: 2012

Offshore windfarms and their impact on fish abundance and community structure
Publication: Research › Paper – Annual report year: 2012

Precautionary sandeel fishery in Natura 2000 areas on the Dogger Bank (North Sea): a way to comply with MSFD implementation?
Publication: Research › Paper – Annual report year: 2012

Short-term and long-term effects of an offshore wind farm on three species of sandeel and their sand habitat
Publication: Research › Journal article – Annual report year: 2012

The Gordian knot: managing herring (Clupea harengus) bridging across populations, fishery units, management areas, and politics
Publication: Research › Conference abstract for conference – Annual report year: 2012

Effect of the Horns Rev 1 Offshore Wind Farm on Fish Communities. Follow-up Seven Years after Construction: Follow-up Seven Years after Construction
Publication: Commissioned › Report – Annual report year: 2012

Inferring the location and scale of mixing between habitat areas of lesser sandeel through information from the fishery
Publication: Research › Journal article – Annual report year: 2010

Shedding light on fish otolith biomineralization using a bioenergetic approach
Publication: Research › Journal article – Annual report year: 2011

Growth and survival of larval and early juvenile lesser sandeel in patchy prey field in the North Sea: An examination using individual-based modelling
Publication: Research › Poster – Annual report year: 2010

Modelling the spatio-temporal dynamics in growth and survival of larval cod and sandeel in the North Sea by using individual-based models integrated with spatially explicit three-dimensional hydrodynamic and biogeochemical models
Publication: Research › Conference abstract in proceedings – Annual report year: 2010

Overwintering strategy of sandeel ecotypes from an energy/predation trade-off perspective
Publication: Research › Journal article – Annual report year: 2010

The effect of patchiness in prey on the growth of larval lesser sandeel in the North Sea: An examination using Individual-Based Modelling
Publication: Research › Conference abstract for conference – Annual report year: 2010

The life-cycle of sandeel - adaptations to a seasonal environment, from the perspective of a forage fish
Publication: Research › Ph.D. thesis – Annual report year: 2010
Thermal niche of Atlantic cod Gadus morhua: limits, tolerance and optima
Publication: Research - peer-review › Journal article – Annual report year: 2010

Adaptive foraging behaviour and the role of the overwintering strategy
Publication: Research › Article in proceedings – Annual report year: 2009

Automated Fish Ageing (AFISA)
Publication: Research › Report – Annual report year: 2009

Cod spatial dynamics and vertical movements in European waters and implications for fishery management (CODYSSEY)
Publication: Research › Report – Annual report year: 2009

Finding the signal in the noise: objective data-selection criteria improve the assessment of western Baltic spring-spawning herring
Publication: Research - peer-review › Journal article – Annual report year: 2009

Impending collapse of bluefin tuna in the northeast Atlantic and Mediterranean
Publication: Research - peer-review › Journal article – Annual report year: 2009

Individual-based modeling of growth and survival of Atlantic cod and lesser sandeel larval and juvenile stages
Publication: Research › Conference abstract in proceedings – Annual report year: 2009

Individual based modeling of growth and survival of Atlantic cod (Gadus morhua) and lesser sandeel (Ammodytes marinus) larval stages
Publication: Research › Poster – Annual report year: 2009

Spatially resolved fish population analysis for designing MPAs: influence on inside and neighbouring habitats
Publication: Research - peer-review › Journal article – Annual report year: 2009

Using data storage tags to link otolith macrostructure in Baltic cod Gadus morhua with environmental conditions
Publication: Research - peer-review › Journal article – Annual report year: 2009

Using otolith microstructure to infer age of adult Eastern Baltic cod (Gadus morhua L.)
Publication: Research › Conference abstract for conference – Annual report year: 2009

Estimating population age structure using otolith morphometrics: a test with known-age Atlantic cod (Gadus morhua) individuals
Publication: Research - peer-review › Journal article – Annual report year: 2008

Restricted fish feeding reduces cod otolith opacity
Publication: Research - peer-review › Journal article – Annual report year: 2008

Sandeel (Ammodytes marinus) larval transport patterns in the North Sea from an individual-based hydrodynamic egg and larval model
Publication: Research - peer-review › Journal article – Annual report year: 2008

Application and validation of otolith microstructure as a stock identification method in mixed Atlantic herring (Clupea harengus L.) stocks in the North Sea and western Baltic
Publication: Research - peer-review › Journal article – Annual report year: 2007
Date of otolith first increment formation in Baltic sprat (Sprattus sprattus) and its relation to onset of maturity
Publication: Research - peer-review › Journal article – Annual report year: 2007

Divergent origins of sympatric herring population components determined using genetic mixture analysis
Publication: Research - peer-review › Journal article – Annual report year: 2007

Et flerårigt grundlag for dansk industrifiskeri: Biologisk vurdering af ressourcegrundlaget og analyse af forvaltningsmodeller
Publication: Research › Report – Annual report year: 2007

Hydrodynamic backtracking of fish larvae by individual-based modelling
Publication: Research - peer-review › Journal article – Annual report year: 2007

Using otolith and body shape analysis to distinguish herring stocks to the west of the British Isles
Publication: Research › Conference abstract in proceedings – Annual report year: 2007

Biocomplexity in a highly migratory pelagic marine fish, Atlantic herring
Publication: Research - peer-review › Journal article – Annual report year: 2006

Considerations of population structuring in Atlantic herring, Clupea harengus L. assessment and management in the North Sea, Skagerrak, Kattegat and western Baltic
Publication: Research - peer-review › Journal article – Annual report year: 2006

Onset of maturity and cohort composition at spawning of Baltic sprat Sprattus sprattus on the basis of otolith macrostructure analysis
Publication: Research - peer-review › Journal article – Annual report year: 2006

The impact of temperature change on fisheries production
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2006

Variation in the abundance of sandeels Ammodytes marinus off the southeast Scotland: an evaluation of area-closure fisheries management and stock abundance assessment methods
Publication: Research - peer-review › Journal article – Annual report year: 2006

A cooperative effort to exchange age reading experience and protocols between European fish institutes
Publication: Research - peer-review › Journal article – Annual report year: 2005

Application and validation of otolith microstructure as stock identifier in mixed Atlantic herring (Clupea harengus) stocks in the North Sea and Western Baltic
Publication: Research › Conference article – Annual report year: 2005

Environmental correlates of population differentiation in Atlantic herring
Publication: Research - peer-review › Journal article – Annual report year: 2005

Mixing of populations of year class twinning in norwegian spring spawning herring?
Publication: Research - peer-review › Journal article – Annual report year: 2005

Atlantic cod (Gadus morhua) growth and otolith accretion characteristics modelled in a bioenergetics context
Publication: Research - peer-review › Journal article – Annual report year: 2004

Effect of age and temperature on amino acid composition and the content of different protein types of juvenile cod (Gadus morhua L.) otoliths
Publication: Research - peer-review › Journal article – Annual report year: 2004
Effects of sex, stock, and environment on the shape of known-age Atlantic cod (Gadus morhua) otoliths
Publication: Research - peer-review › Journal article – Annual report year: 2004

Märkning av liten fisk
Publication: Research › Book chapter – Annual report year: 2004

Phenotypic characteristics in genetically different populations in the Skagerrak
Publication: Research › Conference article – Annual report year: 2004

Factors determining variations in otolith microincrement width of demersal juvenile Baltic cod Gadus morhua
Publication: Research - peer-review › Journal article – Annual report year: 2003

Using otolith microstructure to analyse growth of juvenile Baltic cod Gadus morhua
Publication: Research - peer-review › Journal article – Annual report year: 2003

Publication: Research › Report – Annual report year: 2002

Fish ageing by otolith shape analysis: Final report to the European Commission
Publication: Research › Report – Annual report year: 2002

Glossary
Publication: Research › Book chapter – Annual report year: 2002

Indsamling af detaljerede oplysninger om tobisfiskeriet i Nordsøen
