Publications:

Secondary immune response of rainbow trout following repeated immersion vaccination
Publication: Research - peer-review › Journal article – Annual report year: 2018

Antimicrobial peptide CAP18 and its effect on Yersinia ruckeri infections in rainbow trout Oncorhynchus mykiss (Walbaum): comparing administration by injection and oral routes
Publication: Research - peer-review › Journal article – Annual report year: 2016

Detection and quantification of Aeromonas salmonicida in fish tissue by real-time PCR
Publication: Research - peer-review › Journal article – Annual report year: 2017

Effect of oral booster vaccination of rainbow trout against Yersinia ruckeri depends on type of primary immunization
Publication: Research - peer-review › Journal article – Annual report year: 2017

Epidemiology of Danish Aeromonas salmonicida subsp salmonicida in Fish Farms Using Whole Genome Sequencing
Publication: Research - peer-review › Journal article – Annual report year: 2017

Genomic characterization of Flavobacterium psychrophilum serotypes and development of a multiplex PCR-based serotyping scheme
Publication: Research - peer-review › Journal article – Annual report year: 2017

Infection routes of Aeromonas salmonicida in rainbow trout monitored in vivo by real-time bioluminescence imaging
Publication: Research - peer-review › Journal article – Annual report year: 2016

In vivo adherence of Flavobacterium psychrophilum to mucosal external surfaces of rainbow trout (Oncorhynchus mykiss) fry
Publication: Research - peer-review › Journal article – Annual report year: 2017

Positive correlation between Aeromonas salmonicida vaccine antigen concentration and protection in vaccinated rainbow trout Oncorhynchus mykiss evaluated by a tail fin infection model
Publication: Research - peer-review › Journal article – Annual report year: 2016

Subunit vaccine candidates against Aeromonas salmonicida in rainbow trout Oncorhynchus mykiss
Publication: Research - peer-review › Journal article – Annual report year: 2017

Aeromonas salmonicida - Epidemiology, whole genome sequencing, detection and in vivo imaging
Publication: Research › Ph.D. thesis – Annual report year: 2016
A New Furunculosis Challenge Method for Evaluation of Vaccine Efficacy in Rainbow Trout
Publication: Research - peer-review › Journal article – Annual report year: 2016

Antigen Uptake during Different Life Stages of Zebrafish (Danio rerio) Using a GFP-Tagged Yersinia ruckeri
Publication: Research - peer-review › Journal article – Annual report year: 2016

Comparative Genome Analysis Provides Insights into the Pathogenicity of Flavobacterium psychrophilum
Publication: Research - peer-review › Journal article – Annual report year: 2016

Effect of Bacteriophages on the Growth of Flavobacterium psychrophilum and Development of Phage-Resistant Strains
Publication: Research - peer-review › Journal article – Annual report year: 2016

Epidemiological cut-off values for Flavobacterium psychrophilum MIC data generated by a standard test protocol
Publication: Research - peer-review › Journal article – Annual report year: 2015

Oil adjuvant elevates protection of rainbow trout (Oncorhynchus mykiss) following injection vaccination against Yersinia ruckeri
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2016

Testing experimental subunit furunculosis vaccines for rainbow trout
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2016

Aeromonas salmonicida infection in vaccinated rainbow trout: influence of challenge methods and environmental factors on challenge success
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

A novel challenge method with aeromonas salmonicida in rainbow trout for evaluation of furunculosis vaccines
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Bacteriophage Resistance Mechanisms in the Fish Pathogen Flavobacterium psychrophilum: Linking Genomic Mutations to Changes in Bacterial Virulence Factors
Publication: Research - peer-review › Journal article – Annual report year: 2015

Booster immersion vaccination using diluted Yersinia ruckeri bacterin confers protection against ERM in rainbow trout
Publication: Research - peer-review › Journal article – Annual report year: 2015

Booster-vaccinering med fortyndet dypvaccine mod rødmundsyge forlænger beskyttelsesperioden
Publication: Research - peer-review › Journal article – Annual report year: 2015

Comparative evaluation of infection methods and environmental factors on challenge success: Aeromonas salmonicida infection in vaccinated rainbow trout
Publication: Research - peer-review › Journal article – Annual report year: 2015

Danish sea reared rainbow trout suffer from furunculosis despite vaccination - How can applied research help to solve the problem?
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2016

Detection of aeromonas salmonicida in fish tissue by real-time PCR
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015
Detection of Aeromonas salmonicida in fish tissue by real-time PCR
Publication: Research › Poster – Annual report year: 2015

Effect of hydrogen peroxide and/or Flavobacterium psychrophilum on the gills of rainbow trout, Oncorhynchus mykiss (Walbaum)
Publication: Research - peer-review › Journal article – Annual report year: 2015

Effects of adjuvant Montanide™ ISA 763 A VG in rainbow trout injection vaccinated against Yersinia ruckeri
Publication: Research - peer-review › Journal article – Annual report year: 2015

ERM immersion vaccination and adjuvants
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Evaluation of the immune response in rainbow trout fry, Oncorhynchus mykiss (Walbaum), after waterborne exposure to Flavobacterium psychrophilum and/or hydrogen peroxide
Publication: Research - peer-review › Journal article – Annual report year: 2014

Matrix-assisted laser desorption/ionization time of flight, MALDI-TOF, mass spectrometry for identification of fish pathogenic bacteria
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2015

Matrix-assisted laser desorption/ionization time of flight, MALDI-TOF, mass spectrometry for identification of fish pathogenic bacteria
Publication: Research - peer-review › Poster – Annual report year: 2015

Matrix-assisted laser desorption/ionization time of flight, meldi-tof, mass spectrometry for identification of fish pathogenic bacteria
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Sygdom og sundhed
Publication: Research - peer-review › Book chapter – Annual report year: 2016

Variable Number of Tandem Repeats (VNTR) analysis of Flavobacterium psychrophilum from salmonids in Chile and Norway
Publication: Research - peer-review › Journal article – Annual report year: 2015

Detection and Quantification of Flavobacterium psychrophilum-Specific Bacteriophages In Vivo in Rainbow Trout upon Oral Administration: Implications for Disease Control in Aquaculture.
Publication: Research - peer-review › Journal article – Annual report year: 2014

Diet type dictates the gut microbiota and the immune response against Yersinia ruckeri in rainbow trout (Oncorhynchus mykiss)
Publication: Research - peer-review › Journal article – Annual report year: 2014

Multilocus Sequence Typing Identifies Epidemic Clones of Flavobacterium psychrophilum in Nordic Countries
Publication: Research - peer-review › Journal article – Annual report year: 2014

Rainbow trout fed diets with varying content of marine and plant origin; how does that influence the outcome of experimental infections of the fry with Flavobacterium psychrophilum and Yersinia ruckeri?
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2014

The development of the gut microbiota in rainbow trout (Oncorhynchus mykiss) is affected by first feeding and diet type
Publication: Research - peer-review › Journal article – Annual report year: 2014
Time is of essence; rapid identification of veterinary pathogens using MALDI TOF
Publication: Research - peer-review › Poster – Annual report year: 2014

Vibriosis in aquaculture
Publication: Research - peer-review › Conference article – Annual report year: 2014

A simple and low-toxic method of preparing small specimens of bacteria, flagellates and their likes for Scanning Electron Microscopy
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Comparative evaluation of administration methods for a vaccine protecting rainbow trout against Yersinia ruckeri O1 biotype 2 infections
Publication: Research - peer-review › Journal article – Annual report year: 2013

Detection and quantification of Flavobacterium psychrophilum specific bacteriophages in rainbow trout upon different administration methods: Implications for disease control in aquaculture
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Diet type and challenge by Yersinia Ruckeri influence the intestinal microbiota in rainbow trout (Oncorhynchus Mykiss)
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Dispersal and Survival of Flavobacterium psychrophilum Phages In Vivo in Rainbow Trout and In Vitro under Laboratory Conditions: Implications for Their Use in Phage Therapy
Publication: Research - peer-review › Journal article – Annual report year: 2013

Effect of Hydrogen Peroxide on Immersion Challenge of Rainbow Trout Fry with Flavobacterium psychrophilum
Publication: Research - peer-review › Journal article – Annual report year: 2013

Yersinia ruckeri infection of rainbow trout: entrance portals and spread in the host
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Environmental factors affecting challenge success in vaccination studies
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Flavobacterium psychrophilum - Experimental challenge and immune response
Publication: Research › Ph.D. thesis – Annual report year: 2014

Immune Response in Head Kidney of Rainbow Trout Fry Following Stress and Infection with Flavobacterium Psychrophilum
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Insight from Molecular, Pathological, and Immunohistochemical Studies on Cellular and Humoral Mechanisms Responsible for Vaccine-Induced Protection of Rainbow Trout against Yersinia ruckeri
Publication: Research - peer-review › Journal article – Annual report year: 2013

Is the intestinal microbiota in rainbow trout (Oncorhynchus Mykiss) influenced by diet type and challenge by Yersinia Ruckeri?
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Is the intestinal microbiota in rainbow trout (oncorhynchus mykiss) influenced by diet type and challenge by yersinia ruckeri?
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2013
Preventing Disease in Rainbow Trout Caused by *Aeromonas Salmonicida*
Publication: Research - peer-review › Poster – Annual report year: 2013

The immune response of rainbow trout to *Flavobacterium psychrophilum* following immersion-challenge model with and without hydrogen peroxide pre-treatment
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

The intestinal microbiota in rainbow trout (*Oncorhynchus Mykiss*) is influenced by diet type and *Yersinia Ruckeri* challenge
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Tissue specific uptake of inactivated and live *Yersinia ruckeri* in rainbow trout (*Oncorhynchus mykiss*): Visualization by immunohistochemistry and in situ hybridization
Publication: Research - peer-review › Journal article – Annual report year: 2013

Vibriosis in aquaculture. 16th EAFP Conference, Tampere, Finland, 4th September 2013
Publication: Research - peer-review › Conference abstract in journal – Annual report year: 2014

Publication: Research - peer-review › Journal article – Annual report year: 2012

Characterisation of the gut microflora in rainbow trout fry (*Oncorhynchus mykiss*) using deep-sequencing
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Comparative protection of two different commercial vaccines against *Yersinia ruckeri* serotype O1 and biotype 2 in rainbow trout (*Oncorhynchus mykiss*)
Publication: Research - peer-review › Journal article – Annual report year: 2012

Current research on *Flavobacterium psychrophilum*
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Determining Vaccination Frequency In Farmed Rainbow Trout Using *Vibrio anguillarum* O1 Specific Serum Antibody Measurements
Publication: Research - peer-review › Journal article – Annual report year: 2012

Diversity of *Flavobacterium psychrophilum* and the potential use of its phages for protection against bacterial cold water disease in salmonids
Publication: Research - peer-review › Journal article – Annual report year: 2012

Hydrogen peroxide as pre-treatment stressor in experimental immersion challenge of rainbow trout fry with *Flavobacterium psychrophilum*
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Immersion challenge with *Flavobacterium psychrophilum* in rainbow trout fry (*Oncorhynchus mykiss*)
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Improved ERM vaccination efficacy using combined vaccine administration methods
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Improved Protection of Rainbow Trout Against Furunculosis by an Autologous Vaccine Under Experimental Conditions
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012
Influence of organic diets and probiotics on an experimental *Flavobacterium psychrophilum* infection in rainbow trout fry
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Local and global scale host range patterns and distribution of bacteriophages infecting the fish pathogen *Flavobacterium psychrophilum*
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2012

Økologisk regnbueørred – hvordan påvirker fodersammensætningen fiskenes sundhed?
Publication: Communication › Journal article – Annual report year: 2012

Optimering af driften på klassiske dambrug
Publication: Research › Report – Annual report year: 2013

Potential Role of Specific Antibodies as Important Vaccine Induced Protective Mechanism against *Aeromonas salmonicida* in Rainbow Trout.
Publication: Research - peer-review › Journal article – Annual report year: 2012

Potential role of specific antibodies in vaccine-induced protection against *Aeromonas salmonicida* subsp. salmonicida in rainbow trout (*Oncorhynchus mykiss*)
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Quality control ranges for testing broth microdilution susceptibility of *Flavobacterium columnare* and *F. psychrophilum* to nine antimicrobials
Publication: Research - peer-review › Journal article – Annual report year: 2012

The gut microbiota in rainbow trout changes after first feeding and is dependent on the type of diet
Publication: Research - peer-review › Poster – Annual report year: 2012

The role of the gills as potential portal of entry in rainbow trout fry syndrome
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Anvendelse af bakteriofager til kontrol af *Flavobacterium psychrophilum* i ørreddambrug
Publication: Research › Conference abstract in proceedings – Annual report year: 2011

Challenge models for RTFS in rainbow trout fry (*Oncorhynchus mykiss*)
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2011

*Flavobacterium psychrophilum*, prevention and immune response
Publication: Research › Conference abstract for conference – Annual report year: 2011

Immune response in rainbow trout against infection with *Flavobacterium psychrophilum*
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2011

Independent Emergence of *Yersinia ruckeri* Biotype 2 in the United States and Europe
Publication: Research - peer-review › Journal article – Annual report year: 2011

Nyt fra Veterinærinstituttet: Bakteriofager til behandling af fiskesygdomme i akvakultur
Publication: Communication › Journal article – Annual report year: 2011

Phage-host interactions in *Flavobacterium psychrophilum* and the potential for phage therapy in aquaculture
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2011
Phage-host interactions in Flavobacterium psychrophilum and the potential for phage therapy in aquaculture

Characterization of Danish Flavobacterium psychrophilum strains isolated from rainbow trout (Oncorhynchus mykiss) by ribotyping and plasmid profiles
Vibrio damsela associated with diseased fish in Denmark
Publication: Research - peer-review › Journal article – Annual report year: 1997

Characterization of atypical Aeromonas salmonicida isolates by ribotyping and plasmid profiling
Publication: Research - peer-review › Journal article – Annual report year: 1996

Comparison of a commercial biochemical kit and an oligonucleotide probe for identification of environmental isolates of Vibrio vulnificus
Publication: Research - peer-review › Journal article – Annual report year: 1996

Forbedret overlevelse af laksesmolt i Østersøen efter vaccinering
Publication: Research › Report – Annual report year: 1996

Fortsatte undersøgelser af yngelådsdødelighedssyndromet (YDS) hos rægnbueørred. Delrapport B : Undersøgelse vedrørende årsagerne til deformiteter hos fisk
Publication: Research › Report – Annual report year: 1996

Prevalence and characterization of Vibrio cholerae isolated from shrimp products imported into Denmark
Publication: Research - peer-review › Journal article – Annual report year: 1996

Undersøgelse af forekomst og betydning af Vibrio vulnificus i badevand, ål og importerede skaldyrsprodukter
Publication: Research › Journal article – Annual report year: 1996

A multidisciplinary danish research program on rainbow trout (Oncorhynchus mykiss) farming
Publication: Research - peer-review › Journal article – Annual report year: 1995

Atypical Aeromonas salmonicida associated with ulcerated flatfish species in the Baltic Sea and the North Sea
Publication: Research - peer-review › Journal article – Annual report year: 1995

Forekomst og betydning af Vibrio vulnificus i kystnære områder. Evaluering af AI 20E og DNA probe til påvisning af V. vulnificus
Publication: Research › Journal article – Annual report year: 1995

Aeromonas salmonicida subsp. salmonicida: correlation of protein patterns, antibiotic resistance, exoprotease activity, haemolysis and pathological lesions produced in vivo
Publication: Research - peer-review › Journal article – Annual report year: 1994

A multi-disciplinary Danish research programme on rainbow trout (Oncorhynchus mykiss) farming.
Publication: Research › Conference abstract for conference – Annual report year: 1994

Characteristics of "atypical", cytochrome oxidase-negative Aeromonas salmonicida isolated from ulcerated flounders (Platichthys flesus (L.))
Publication: Research - peer-review › Journal article – Annual report year: 1994

Characterization of Aeromonas salmonicida subsp. salmonicida: A comparative study of strains of different geographic origin
Publication: Research - peer-review › Journal article – Annual report year: 1994

Diseases and Injuries associated with mortality of hatchery reared Baltic cod (Gadus morhua L.) larvae
Publication: Research - peer-review › Journal article – Annual report year: 1993

Isolation of Cytophaga psychrophila (Flexibacter psychrophilus) from wild and farmed rainbow trout (Oncorhynchus mykiss) in Finland
Virulence mechanisms in *Cytophaga psychrophila* and other *Cytophaga*-like bacteria pathogenic for fish

Publication: Research - peer-review › Journal article – Annual report year: 1993

*Mycobacteriosis in cod (Gadus Morhua L.) in Danish coastal waters*

Publication: Research - peer-review › Journal article – Annual report year: 1992

*Enrofloxacin as an antibiotic in fish*

Publication: Research - peer-review › Journal article – Annual report year: 1991

*Plasmids in Vibrio salmonicida isolates from The Faroe Islands*

Publication: Research - peer-review › Journal article – Annual report year: 1991

*Preliminary investigations of fry mortality syndrome in rainbow trout*

Publication: Research - peer-review › Journal article – Annual report year: 1991

*Skin symptoms among workers in the fish processing industry are caused by high molecular weight compounds*

Publication: Research - peer-review › Journal article – Annual report year: 1991

*Study of Vibrio anguillarum strains from different sources with emphasis on ecological and pathobiological properties*

Publication: Research - peer-review › Journal article – Annual report year: 1988

*Vibrio salmonicida isolated from farmed Atlantic salmon in the Faroe Islands*

Publication: Research - peer-review › Journal article – Annual report year: 1988

*Disease problems in Danish eel farms*

Publication: Research - peer-review › Journal article – Annual report year: 1987

*Atypical Aeromonas salmonicida isolated from diseased sand-eels, Ammodytes lancea (Cuvier) and Hyperoplus lanceolatus (Lesauvege)*

Publication: Research - peer-review › Journal article – Annual report year: 1986

*Observation on enteric redmouth in Denmark*

Publication: Research › Conference abstract for conference – Annual report year: 1985

*First observation of Yersinia ruckeri in Denmark*

Publication: Research - peer-review › Journal article – Annual report year: 1984

*Occurrence of VHS in Danish maricultured rainbow trout*

Publication: Research - peer-review › Journal article – Annual report year: 1984

*Bakteriologiske undersøgelser af den naturlige flora i kvæg- og svinegylle*

Publication: Research › Ph.D. thesis – Annual report year: 1982

*A comprehensive study of environmental and human pathogenic Vibrio alginolyticus strains*

Publication: Research - peer-review › Journal article – Annual report year: 1981

*Occurrence of Vibrio parahaemolyticus and Vibrio alginolyticus in marine and estuarine bathing areas in Danish coast*

Publication: Research › Journal article – Annual report year: 1981
Spring ulcer disease in eels
Publication: Research - peer-review › Journal article – Annual report year: 1981

Projects:

Bacteriophage based technology to control Flavobacterium pathogens in aquaculture
Project: PhD

Prevention disease caused by Aeromonas salmonicida
Project: PhD

Antibiotikaresistens hos bakterier i dansk fiskeopdræt
Project

Minimering af antibiotikaforbrug i akvakultur gennem stikvaccinering af små fisk
Project

Fiskesygdomskurser - Udvikling af kursustilbud til akvakulturbrugere om fiskesygdomme, med primær fokus på forebyggelse og behandling samt reduktion af negative miljøeffekter
Project

Control Flavobacteriaceae infections in European fish farms
Project

Control Flavobacteriaceae infections in European fish farms
Project

Flavobacterium psychrophilum, forebyggelse og immunforsvar
Project: PhD

Anvendelse af bakteriofagterapi til behandling af fiskesygdomme i akvakultur
Project

Danish Fish Immunology Research Network
Project

Flavobacterium psychrophilum, epidemiologi og virulens faktorer
Project: PhD

Improved vaccination strategies in marine aquaculture
Project

Organic Aquaculture - the linkage between sustainable production and superior products
Project

RESTOCK (38566) (38400 pre-project)
Project

Influence of probiotics and feed on organic rainbow trout health
Project
