Publications:

Assessing the effects of seawater temperature and pH on the bioaccumulation of emerging chemical contaminants in marine bivalves
Publication: Research - peer-review › Journal article – Annual report year: 2017

Bioaccessibility of contaminants of emerging concern in raw and cooked commercial seafood species: insights for food safety risk assessment
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Bioavailability of emerging contaminants in seafood
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Can seafood safety be compromised in the ocean of tomorrow?
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Carryover of CH₃Hg from feed to sea bass and salmon
Publication: Research › Poster – Annual report year: 2017

Carryover of methylmercury from feed to seabass and salmon
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Detection and characterisation of aluminium-containing nanoparticles in Chinese noodles by single particle ICP-MS
Publication: Research - peer-review › Journal article – Annual report year: 2017

Effect of cooking on levels of contaminants of emerging concern in commercial seafood
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Effects of Industrial processing on essential elements and regulated and emerging contaminant levels in seafood
Publication: Research - peer-review › Journal article – Annual report year: 2017

Effects of industrial processing on regulated and emerging contaminant levels in seafood
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Exploration of the phycoremediation potential of Laminaria digitata towards diflubenzuron, lindane, copper and cadmium in a multitrophic pilot-scale experiment
Publication: Research - peer-review › Journal article – Annual report year: 2017
Iodine in seaweed - occurrence, speciation, bioavailability and risk assessment
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Oral bioaccessibility of toxic and essential elements in raw and cooked commercial seafood species available in European markets
Publication: Research - peer-review › Journal article – Annual report year: 2017

Phycoremediation of diflubenzuron, lindane, copper and cadmium potential by Laminaria digitata
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Phycoremediation potential of brown macroalgae species Saccharina latissimi and Laminaria digitata towards inorganic arsenic in a multitrophic pilot-scale experiment
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Phycoremediation potential of brown macroalgae species Saccharina latissimi and Laminaria digitata towards inorganic arsenic in a multitrophic pilot-scale experiment
Publication: Research - peer-review › Poster – Annual report year: 2017

Report on collaborative trial: Animal feedingstuffs – Determination of iodine in animal feed by ICPMS
Publication: Commissioned › Report – Annual report year: 2017

Risk assessment of methylmercury in five European countries considering the national seafood consumption patterns
Publication: Research - peer-review › Journal article – Annual report year: 2017

The influence of microplastic inclusion in feed on carryover of environmental pollutants from feed to seabass and salmon
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Toxic metals in European Ulva spp. – evaluation of potential use in food and feed applications
Publication: Research - peer-review › Poster – Annual report year: 2017

Accuracy of a method based on atomic absorption spectrometry to determine inorganic arsenic in food: Outcome of the collaborative trial IMEP-41
Publication: Research - peer-review › Journal article – Annual report year: 2016

Arsenic compounds in foodstuffs – the importance of speciation analysis for food safety assessment
Publication: Research - peer-review › Journal article – Annual report year: 2016

Chemical Contaminants: Food monitoring 2012-2013
Publication: Commissioned › Report – Annual report year: 2016

Development of an LC-ICP-MS method for zinc speciation in fish feeds
Publication: Research - peer-review › Poster – Annual report year: 2016

Evaluation of minerals and vitamins in the Danish cultivated sugar kelp
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2016

Quantitative proteomics suggests metabolic reprogramming during ETHE1 deficiency
Publication: Research - peer-review › Journal article – Annual report year: 2016

There is a need for speciation analysis of selenium in fish feed and fish tissue
Publication: Research - peer-review › Poster – Annual report year: 2016
Toxic Elements | Publication: Research - peer-review › Book chapter – Annual report year: 2016

Arsenico totale e inorganico nei mitili italiani | Publication: Research - peer-review › Poster – Annual report year: 2015

Arsenico totale e inorganico nei mitili italiani | Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

A study of lipid- and water-soluble arsenic species in liver of Northeast Arctic cod (Gadus morhua) containing high levels of total arsenic | Publication: Research - peer-review › Journal article – Annual report year: 2015

Correlations between arsenolipids, organic and inorganic forms of arsenic, mercury and selenium in muscles and cephalothoraxes of Aristaeomorpha foliacea shrimp | Publication: Research - peer-review › Poster – Annual report year: 2015

Correlations between arsenolipids, organic and inorganic forms of arsenic, mercury and selenium in muscles and cephalothoraxes of Aristaeomorpha foliacea shrimp | Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Environmental contaminants of emerging concern in seafood - European database on contaminant levels | Publication: Research - peer-review › Journal article – Annual report year: 2015

Evaluation of the Danish cultivated sugarkelp as possible future source of ingredients such as minerals and pigments | Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Exposure to lead from intake of coffee | Publication: Commissioned › Report – Annual report year: 2015

Introduction of regulations for arsenic in feed and food with emphasis on inorganic arsenic, and implications for analytical chemistry | Publication: Research - peer-review › Journal article – Annual report year: 2015

L’Arsenico nei prodotti della pesca lagunare in un’area estrattivo-industriale | Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

L’Arsenico nei prodotti della pesca lagunare in un’area estrattivo-industriale | Publication: Research - peer-review › Poster – Annual report year: 2015

Toxic elements and speciation in seafood samples from different contaminated sites in Europe | Publication: Research - peer-review › Journal article – Annual report year: 2015

Arsenic-containing fatty acids and hydrocarbons in marine oils - Determination using reversed-phase HPLC-ICP-MS and HPLC-qTOF-MS | Publication: Research - peer-review › Journal article – Annual report year: 2014

Arsenolipids in marine samples – Status and analytical challenges | Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2014
Bioavailability of cadmium: Results from in-vivo and in-vitro studies using cocoa and linseeds
Publication: Research - peer-review › Poster – Annual report year: 2014

Bioavailability of cadmium from linseed and cocoa
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2014

Bioavailability of cadmium from linseed and cocoa: A LOUS follow-up project
Publication: Research › Report – Annual report year: 2014

Determination of iodine and iodine compounds in marine samples by ICPMS and HPLC-ICPMS
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2014

Iodine excretion has decreased in Denmark between 2004 and 2010 - the importance of iodine content in milk
Publication: Research - peer-review › Journal article – Annual report year: 2014

Iodine in marine samples: Determination of iodine and iodine compounds in marine samples by ICPMS and HPLC-ICPMS
Publication: Research - peer-review › Poster – Annual report year: 2014

Iodine in marine samples - Determination of Iodine and Iodine Compounds in Marine Samples by ICPMS and HPLC-ICPMS
Publication: Research - peer-review › Poster – Annual report year: 2014

Review of arsenic contamination, exposure through water and food and low cost mitigation options for rural areas
Publication: Research - peer-review › Journal article – Annual report year: 2014

Total and inorganic As in seafood products caught in an environment facing a mining and industrial area in Sardinia (Italy)
Publication: Research - peer-review › Poster – Annual report year: 2014

Toxic Elements in Food: Occurrence, Binding, and Reduction Approaches
Publication: Research - peer-review › Journal article – Annual report year: 2014

Urinary excretion of arsenicals following daily intake of various seafoods during a two weeks intervention
Publication: Research - peer-review › Journal article – Annual report year: 2014

Use of alkaline or enzymatic sample pretreatment prior to characterization of gold nanoparticles in animal tissue by single-particle ICPMS
Publication: Research - peer-review › Journal article – Annual report year: 2013

Arsenic speciation in food – current status on standardization of methods for specific determination of inorganic arsenic
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Arsen i fiskeoljer
Publication: Research - peer-review › Journal article – Annual report year: 2013

Chemical Contaminants. Food monitoring 2004-2011
Publication: Research › Report – Annual report year: 2013

Consumer leather exposure: an unrecognized cause of cobalt sensitization
Publication: Research - peer-review › Journal article – Annual report year: 2013

Detection of arsenic-containing hydrocarbons in a range of commercial fish oils by GC-ICPMS analysis
Publication: Research - peer-review › Journal article – Annual report year: 2013
Determination of inorganic arsenic in food and feed – European initiatives in research and standardization of methods
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Inorganic arsenic –_SPE HG–AAS method for rice tested in-house and collaboratively
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Inorganic arsenic - SPE HG-AAS method for RICE tested in-house and collaboratively
Publication: Research - peer-review › Poster – Annual report year: 2013

Method validation and analysis of nine dithiocarbamates in fruits and vegetables by LC-MS/MS
Publication: Research - peer-review › Journal article – Annual report year: 2014

Methylmercury determined by HPLC-ICP-MS in marine food and feed: in-house method validation and inter-laboratory comparison
Publication: Research › Sound/Visual production (digital) – Annual report year: 2013

Methylmercury determined by HPLC-ICPMS in marine food and feed; in-house method validation and interlaboratory comparison
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Occurrence and sorption properties of arsenicals in marine sediments
Publication: Research - peer-review › Journal article – Annual report year: 2013

Speciation of arsenic by IC-ICP-MS: future standard method and its application on baby food samples
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2013

SPE HG-AAS method for the determination of inorganic arsenic in rice—results from method validation studies and a survey on rice products
Publication: Research - peer-review › Journal article – Annual report year: 2013

Total and inorganic arsenic in dietary supplements based on herbs, other botanicals and algae—a possible contributor to inorganic arsenic exposure
Publication: Research - peer-review › Journal article – Annual report year: 2013

Arsenolipids in fish oil determined by GC-ICPMS
Publication: Research - peer-review › Poster – Annual report year: 2012

Arsenolipids in marine oils and fats: A review of occurrence, chemistry and future research needs
Publication: Research - peer-review › Review – Annual report year: 2012

Bioopløselighed af arsen i jord fra gamle frugtplantager: Miljøprojekt nr. 1446, 2012
Publication: Research › Report – Annual report year: 2012

Danske kemikere til konference om plasmaspektrokemi
Publication: Research › Journal article – Annual report year: 2012

Determination of Arsenic Species in Marine Samples using Cation Exchange HPLC-ICP-MS
Publication: Research - peer-review › Book chapter – Annual report year: 2012
Determination of Inorganic Arsenic in Rice by Anion Exchange HPLC-ICP-MS
Publication: Research - peer-review › Book chapter – Annual report year: 2012

Development and validation of an SPE HG-AAS method for determination of inorganic arsenic in samples of marine origin
Publication: Research - peer-review › Journal article – Annual report year: 2012

Humans seem to produce arsenobetaine and dimethylarsinate after a bolus dose of seafood
Publication: Research - peer-review › Journal article – Annual report year: 2012

ICP-MS and HPLC-ICP-MS for large scale monitoring of total arsenic and inorganic arsenic in Norwegian seafood
Publication: Research - peer-review › Poster – Annual report year: 2012

ICPMS as an element-specific detector for the analysis of trace element species and nanoparticles
Publication: Research › Sound/Visual production (digital) – Annual report year: 2012

Is it possible to agree on a value for inorganic arsenic in food? The outcome of IMEP-112
Publication: Research - peer-review › Journal article – Annual report year: 2012

Major and minor arsenic compounds accounting for the total urinary excretion of arsenic following intake of blue mussels (Mytilus edulis): A controlled human study
Publication: Research - peer-review › Journal article – Annual report year: 2012

Quantitative Characterization of Gold Nanoparticles by Field-Flow Fractionation (FFF) Coupled On-Line with Light Scattering Detection and ICP-MS
Publication: Research - peer-review › Book chapter – Annual report year: 2012

Speciation analysis of trace elements in foodstuffs by HPLC- and GC-ICPMS
Publication: Research › Sound/Visual production (digital) – Annual report year: 2012

Specific Migration of Organotin Compounds from Food Contact Materials — Selective Determination by GC-ICP-MS
Publication: Research - peer-review › Book chapter – Annual report year: 2012

The CONffIDENCE project - The outcome of WP3 on heavy metals
Publication: Research › Sound/Visual production (digital) – Annual report year: 2012

Total and inorganic arsenic in fish samples from Norwegian waters.
Publication: Research - peer-review › Journal article – Annual report year: 2012

A novel speciation alternative for the determination of inorganic arsenic in marine samples
Publication: Research › Poster – Annual report year: 2011

A novel speciation alternative for the determination of inorganic arsenic in marine samples
Publication: Research › Poster – Annual report year: 2011

Arsenic Exposure from Seafood Consumption
Publication: Research - peer-review › Book chapter – Annual report year: 2011

CONffIDENCE WP3 – Rapid and cost-effective test for heavy metals in the food chain
Publication: Research › Poster – Annual report year: 2011
Determination of inorganic arsenic - food and feed
Publication: Research › Paper – Annual report year: 2010

Effects of prenatal exposure to surface-coated nanosized titanium dioxide (UV-Titan). A study in mice
Publication: Research - peer-review › Journal article – Annual report year: 2010

Metal accumulation and food safety in wastewater-fed aquatic production systems in Hanoi, Vietnam. Risk assessment of the human dietary intake of different elements
Publication: Research - peer-review › Report – Annual report year: 2010

Rapid Methods for Metal Speciation
Publication: Research › Paper – Annual report year: 2010

Stability of arsenic compounds in seafood samples during processing and storage by freezing
Publication: Research - peer-review › Journal article – Annual report year: 2010

The role of GC-ICPMS in food analysis applications
Publication: Research › Sound/Visual production (digital) – Annual report year: 2010

AFFF-MALS-ICP-MS and electron microscopy for the characterization of nanoparticles in biological studies
Publication: Research › Poster – Annual report year: 2009

Analytical Platform for Characterization of Inorganic Nanoparticles: Combination of Field Flow Fraction, Light Scattering Detection and Inorganic Mass Spectrometry
Publication: Research › Poster – Annual report year: 2009

Detection and characterisation of nanoparticles by field flow fractionation (FFF) using multi-angle light scattering (MALS) and ICPMS
Publication: Research › Conference abstract for conference – Annual report year: 2009

Determination of inorganic arsenic in food and feed by MAE-SPE-HG-AAS – a simple, inexpensive and fast speciation alternative
Publication: Education › Sound/Visual production (digital) – Annual report year: 2009

Determination of inorganic arsenic in food and feed by MAE-SPE-HG-AAS-A simple, inexpensive and fast speciation alternative
Publication: Research › Poster – Annual report year: 2009

Heavy metal speciation. How and why?
Publication: Research › Sound/Visual production (digital) – Annual report year: 2009

Seafood og kemisk fødevaresikkerhed - classics og newcomers
Publication: Communication › Sound/Visual production (digital) – Annual report year: 2009

Speciation issues in food control - are we ready?
Publication: Research › Conference abstract for conference – Annual report year: 2009

Trace Element Speciation Analysis - recent and future trends in food analysis
Publication: Research › Paper – Annual report year: 2009
Kilder og niveauer af kemiske fødevareforureninger
Publication: Research › Conference abstract for conference – Annual report year: 2007

Kilder og niveauer af kemiske fødevareforureninger
Publication: Communication › Journal article – Annual report year: 2007

Produktion af blødskalette strandkrabber i Danmark - en ny marin akvakulturproduktion
Publication: Research › Report – Annual report year: 2007

Produktion af blødskalette strandkrabber i Danmark – en ny marin akvakulturproduktion
Publication: Research › Report – Annual report year: 2007

Specific Migration of Organotin Compounds from Food Contact Materials - Selective Determination using GC-ICPMS
Publication: Research › Poster – Annual report year: 2007

Specific Migration of Organotin Compounds from Food Contact Materials – Selective Determination using GC-ICPMS
Publication: Research › Poster – Annual report year: 2007

Survey of pesticide residues in table grapes: Determination of processing factors, intake and risk assessment
Publication: Research - peer-review › Journal article – Annual report year: 2007

Survey on organotin compounds in Danish seafood using GC-ICPMS
Publication: Research › Conference abstract for conference – Annual report year: 2007

Arsenic exposure from seafood in healthy adult Norwegians - a randomized controlled diet trial
Publication: Research › Poster – Annual report year: 2006

Arsen i fiskeolje som føringrediens til oppdrettsfisk - en ny utfordring?
Publication: Research - peer-review › Journal article – Annual report year: 2006

Arsen i fiskeolje som føringrediens til oppdrettsfisk – en ny utfordring?
Publication: Communication › Journal article – Annual report year: 2006

of inorganic arsenic in blue mussel (Mytilus edulis L) from the Norwegian coastline – impact on seafood safety
Publication: Research › Poster – Annual report year: 2006

Prevention of cancer by intervention with selenium (PRECISE) pilot trial: Selenium in nails, plasma and whole blood as biomarkers of yeastselenium intake
Publication: Research › Conference abstract for conference – Annual report year: 2006

Survey of organotin compounds in seafood from Denmark by GC-ICPMS
Publication: Research › Conference abstract for conference – Annual report year: 2006

The occurrence of arsenic in food and feed and toxicological implications
Publication: Research › Conference abstract for conference – Annual report year: 2006

Toxic compounds and farmed salmon
Publication: Research › Conference abstract for conference – Annual report year: 2006
Uptake and speciation of selenium in garlic cultivated in soil amended with symbiotic fungi (mycorrhiza) and selenate
Publication: Research - peer-review › Journal article – Annual report year: 2006

Determination of inorganic arsenic in white fish using microwave-assisted alkaline alcoholic sample dissolution and HPLC-ICP-MS
Publication: Research - peer-review › Journal article – Annual report year: 2005

Is seawater a reliable source of iodine for Atlantic halibut (Hippoglossus hippoglossus L.)?
Publication: Research › Poster – Annual report year: 2005

Report on three aliphatic dimethylarsinoyl compounds as common minor constituents in marine samples. An investigation using high-performance liquid chromatography inductively coupled plasma mass spectrometry and electrospray ionisation tandem mass spectrometry
Publication: Research - peer-review › Journal article – Annual report year: 2005

Report on three dimethylarsinoylarsenicls as common minor constituents in seafood samples. An investigation using HPLC-ICP-MS and ESI-MS-MS, Rapid Communications in Mass Spectrometry
Publication: Research › Report – Annual report year: 2005

Speciation analysis of arsenic – Development of selective methodologies for assessment of seafood safety
Publication: Research › Doctoral thesis – Annual report year: 2005

Survey of inorganic arsenic in marine animals and marine certified reference materials by anion exchange high-performance liquid chromatography-inductively coupled plasma mass spectrometry
Publication: Research - peer-review › Journal article – Annual report year: 2005

Total arsenic and inorganic arsenic content in Norwegian fish feed products
Publication: Research - peer-review › Journal article – Annual report year: 2005

Arsenic speciation analysis – emphasis on inorganic arsenic in seafood
Publication: Research › Conference abstract for conference – Annual report year: 2004

Selective arsenic speciation analysis of human urine reference materials using gradient elution ion-exchange HPLC-ICP-MS
Publication: Research - peer-review › Journal article – Annual report year: 2004

Selenium From a High Se Yeast Supplement Is Well Absorbed and Retained in Humans
Publication: Research › Journal article – Annual report year: 2004

Specieringsanalyse i sjømat ved bruk av HPLC og GC koblet til ICPMS
Publication: Research › Conference abstract for conference – Annual report year: 2004

Arsenic speciation analysis using HPLC coupled to ICPMS
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2003

Arsenic species in marine samples
Publication: Research › Conference abstract for conference – Annual report year: 2003

Determination of arsenic species in marine CRMs by ion-exchange HPLC-ICPMS – emphasis on minor constituents
Publication: Research › Poster – Annual report year: 2003

Determination of organoarsenic species in marine samples using gradient elution cation exchange HPLC-ICP-MS
Publication: Research - peer-review › Journal article – Annual report year: 2003
Determination of total selenium and Se-77 in isotopically enriched human samples by ICP-dynamic reaction cell-MS
Publication: Research - peer-review › Journal article – Annual report year: 2003

Investigation on the arsenic content in processed seafood
Publication: Research › Poster – Annual report year: 2003

Selenium speciation and isotope composition in 77Se-enriched yeast using gradient elution HPLC separation and ICP-dynamic reaction cell-MS
Publication: Research - peer-review › Journal article – Annual report year: 2003

Arsenic speciation in marine samples by cation-exchange HPLC-ICPMS
Publication: Research › Conference abstract for conference – Annual report year: 2002

Arsenic speciation in marine samples by cation-exchange HPLC-ICPMS
Publication: Research › Conference abstract for conference – Annual report year: 2002

Arsenic speciation in marine samples by cation-exchange HPLC-ICPMS
Publication: Research › Poster – Annual report year: 2002

Determination of Selenium and the 77Se Fraction in Human Serum, Urine and Faeces
Publication: Research › Conference abstract for conference – Annual report year: 2002

Analyse af sporeelementer i levnedsmidler ved ICP-DRC-MS
Publication: Communication › Journal article – Annual report year: 2000

Den dynamiske reaktionscelle
Publication: Research › Poster – Annual report year: 2000

Den dynamiske reaktionscelle – nye muligheder og udfordringer for ICPMS-teknikken
Publication: Research › Conference abstract for conference – Annual report year: 2000

Determination of trace elements using ICP-DRC-MS
Publication: Research › Poster – Annual report year: 2000

The application of inductively coupled plasma dynamic reaction cell mass spectrometry for measurement of selenium isotopes, isotope ratios and chromatographic detection of selenoamino acids
Publication: Research - peer-review › Journal article – Annual report year: 2000

Multielementbestemmelse ved HR-ICP-MS
Publication: Research › Conference abstract for conference – Annual report year: 1997

Determination of Ultra-trace Amounts of Arsenic(III) by Flow Injection Hydride Generation Atomic Absorption Spectrometry with On-line Preconcentration by Coprecipitation with Lanthanum Hydroxide or Hafnium Hydroxide
Publication: Research - peer-review › Journal article – Annual report year: 1996

Determination of Ultra-Trace Amounts of Selenium(IV) by Flow Injection Hydride Generation Atomic Absorption Spectrometry with On-line Preconcentration by Co-precipitation with Lanthanum Hydroxide. Part II. On-line Addition of Coprecipitating Agent
Publication: Research - peer-review › Journal article – Annual report year: 1996
