Research outputs:

Breakfast in Denmark. Prevalence of Consumption, Intake of Foods, Nutrients and Dietary Quality. A Study from the International Breakfast Research Initiative
Research output: Research - peer-review › Journal article – Annual report year: 2018

Fakta om overvægt blandt 55-75-årige danskere – potentialer for at fremme sund kost og sundhedsadfærd
Research output: Commissioned › Report – Annual report year: 2018

Overvægt blandt 55-75-årige danskere – potentialer for at fremme sund kost og sundhedsadfærd
Research output: Commissioned › Report – Annual report year: 2018

Supplerende kostråd til ældre over 65 år – hvorfor og hvordan
Research output: Communication › Journal article – Annual report year: 2018

Denmark life expectancy in years (2013): Fact sheet Denmark
Research output: Research - peer-review › Report – Annual report year: 2017

Faktaark: Børn og unges kost fra 2000-2013
Research output: Research › Report – Annual report year: 2017

Finland life expectancy in years (2013): Fact sheet Finland
Research output: Research - peer-review › Report – Annual report year: 2017

Iceland life expectancy in years (2013): Fact sheet Iceland
Research output: Research - peer-review › Report – Annual report year: 2017

Intake and sources of gluten in 20- to 75-year-old Danish adults: a national dietary survey
Research output: Research - peer-review › Journal article – Annual report year: 2015

Kostens betydning for børn og unges sundhed og overvægt: 2000-2013
Research output: Research › Journal article – Annual report year: 2017

Kostvaner, sundhedsadfærd og vægtstatus blandt 55-64-årige og 65-75-årige danskere.
Research output: Research › Report – Annual report year: 2017
Social ulighed i fedme og fedme-epidemien for børn
Research output: Research › Sound/Visual production (digital) – Annual report year: 2015

Social ulighed i fedme og fedme-epidemien for børn; et review
Research output: Research › peer-review › Article in proceedings – Annual report year: 2015

Comparison of a Web-Based Frequency Questionnaire for Assessment of Beverage Intake with a Validated 7-Day Web-Diary from Danish Teenagers
Research output: Research › peer-review › Journal article – Annual report year: 2014

Danish children born to parents with lower levels of education are more likely to become overweight
Research output: Research › peer-review › Journal article – Annual report year: 2014

Danskernes kost- og aktivitetsvaner under lup
Research output: Research › peer-review › Journal article – Annual report year: 2014

Disparities in dietary habits and physical activity in Denmark and trends from 1995 to 2008.
Research output: Research › peer-review › Journal article – Annual report year: 2014

Energidrikke i Danmark Undersøgelse af indtaget blandt 10-35-årige
Research output: Research › Report – Annual report year: 2014

Identifying dietary patterns and associated health-related lifestyle factors in the adult Danish population.
Research output: Research › peer-review › Journal article – Annual report year: 2014

Mange børn og unge får for meget koffein fra energidrikke
Research output: Research › Journal article – Annual report year: 2014

Social ulighed i overvægt blandt børn
Research output: Research › Journal article – Annual report year: 2014

Trends in overweight and obesity in Danish children and adolescents: 2000-2008 – exploring changes according to parental education
Research output: Research › peer-review › Journal article – Annual report year: 2014

Trends in pedometer-measured steps per day in Danish adults: 2007 to 2012
Research output: Research › peer-review › Poster – Annual report year: 2014

Børn og unges måltidsvaner 2005-2008
Research output: Commissioned › Report – Annual report year: 2013

Comparison of estimated energy intake in children using a Web-based Dietary Assessment Software with accelerometer-estimated energy expenditure in children
Research output: Research › peer-review › Journal article – Annual report year: 2014

Dietary patterns and associated health-related lifestyle factors in Denmark
Research output: Research › peer-review › Conference abstract in journal – Annual report year: 2013

Dietary patterns and associated health-related lifestyle factors in Denmark
Research output: Research › peer-review › Poster – Annual report year: 2013
Dietary patterns on weekdays and weekend days in 4–14-year-old Danish children
Research output: Research - peer-review › Journal article – Annual report year: 2012

Increasing social inequality in overweight in Danish boys
Research output: Research - peer-review › Poster – Annual report year: 2013

Kostens betydning for børns sundhed og overvægt
Research output: Research › Journal article – Annual report year: 2013

Misperception of body weight among overweight Danish adults: trends from 1995 to 2008
Research output: Research - peer-review › Journal article – Annual report year: 2013

Relationship between sleep duration and dietary intake in 4- to 14-year-old Danish children
Research output: Research - peer-review › Journal article – Annual report year: 2013

Sociale forskelle - Børns kostvaner, fysiske aktivitet og overvægt & voksnes kostvaner
Research output: Research › Report – Annual report year: 2013

Comparison of estimated energy intake from 224-hour recalls and a seven-day food record with objective measurements of energy expenditure in children
Research output: Research - peer-review › Journal article – Annual report year: 2012

Aspects of energy intake assessment, dietary intake patterns and sleep duration in children
Research output: Research › Ph.D. thesis – Annual report year: 2012

Differences in Danish children's diet quality on weekdays v. weekend days
Research output: Research - peer-review › Journal article – Annual report year: 2012

Evaluation of dietary intake in Danish adults by means of an index based on food-based dietary guidelines.
Research output: Research - peer-review › Journal article – Annual report year: 2012

Evaluation of the diet in Danish adults using a diet quality index
Research output: Research - peer-review › Poster – Annual report year: 2012

Nordic monitoring of diet, physical activity and overweight: First collection of data in all Nordic Countries 2011
Research output: Research › Report – Annual report year: 2012

Pedometer-determined physical activity in Danish adults considering non-ambulatory activities
Research output: Research - peer-review › Poster – Annual report year: 2012

The effects of n-3 long-chain polyunsaturated fatty acids on bone formation and growth factors in adolescent boys
Research output: Research - peer-review › Journal article – Annual report year: 2012

Børns sukkervaner: Undersøgelse af sukkerkulturen blandt børnefamilier med 4-12-årige børn
Research output: Research - peer-review › Report – Annual report year: 2011
Differences in children’s dietary intake on weekdays vs. weekend days
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2011

Forældre undervurderer deres børns sukkerforbrug
Research output: Research › Journal article – Annual report year: 2011

Halvdelen af voksne danskere bevæger sig tilstrækkeligt
Research output: Research › Journal article – Annual report year: 2011

N-3 Long-chain PUFA are not associated with bone mineralization in adolescent boys: a cross-sectional analysis and a 4 month randomized controlled trial
Research output: Research - peer-review › Journal article – Annual report year: 2011

Nordic monitoring on diet, physical activity and overweight: Validation of indicators
Research output: Research › Report – Annual report year: 2012

Relationship between sleep duration, diet and BMI in 4- to 14-year-old Danish children
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2011

The Effect of Dietary Fish Oil in addition to Lifestyle Counselling on Lipid Oxidation and Body Composition in Slightly Overweight Teenage Boys
Research output: Research - peer-review › Journal article – Annual report year: 2011

Validation of Nordic monitoring system of self-reported physical activity and sedentary behaviour for adults
Research output: Research › Poster – Annual report year: 2011

Validation of Nordic monitoring system of self-reported physical activity and sedentary behaviour for children and adolescents
Research output: Research › Poster – Annual report year: 2011

Afrening af simple objektive mål til vurdering af fysisk aktivitet og antropometri i den nationale undersøgelse af danskernes kostvaner og fysiske aktiviteter 2007-2008
Research output: Research - peer-review › Report – Annual report year: 2010

Danskernes kostvaner 2003 - 2008: Hovedresultater
Research output: Research › Report – Annual report year: 2010

Den lille levnedsmiddeltabel: 4. reviderede udgave
