Enantiopure cyclopentane building blocks from iridoid glucosides: Conversion into carbocyclic homo-N-nucleosides. 

Ozonolysis of Protected Iridoid Glucosides
Research output: Contribution to journal - Journal article - Annual report year: 1998 - Research - peer-review

Synthesis of carbocyclic homo-N-nucleosides from iridoids
Research output: Contribution to journal - Journal article - Annual report year: 1998 - Research - peer-review

Iridoid glucosides in Plantago alpina and P. altissima.
Research output: Contribution to journal - Journal article - Annual report year: 1996 - Research - peer-review
