Research outputs:

SDN Controller Requirements for Next Generation Telco PaaS
Research output: Research - peer-review › Article in proceedings – Annual report year: 2019

A multi-radio, multi-hop ad-hoc radio communication network for Communications-Based Train Control (CBTC)
Research output: Research - peer-review › Article in proceedings – Annual report year: 2017

A multi-radio, multi-hop ad-hoc radio communication network for Communications-Based Train Control (CBTC):
Introducing frequency separation for train-to-trackside communication
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

A multi-radio, multi-hop ad-hoc radio communication network for Communications-Based Train Control (CBTC) with
optimized frequency separation
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

A Novel Algorithm for Flow-Rule Placement in SDN Switches
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

A Novel Multimedia Streaming System for Urban Rail Environments Using Wi-Fi Peer-to-Peer Technology
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

A Vision for the Next Generation Platform-as-a-Service
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

Caching at the Mobile Edge: a Practical Implementation
Research output: Research - peer-review › Journal article – Annual report year: 2018

Co-simulation Platform for Train-to-Ground communications
Research output: Research - peer-review › Paper – Annual report year: 2018

Evaluating TCMS Train-to-Ground communication performances based on the LTE technology and discreet event
simulations
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018
GEANT JRA1-T2-D7.3 Overview of SDN Pilots Description and Findings: Part B
Research output: Research - peer-review › Report – Annual report year: 2018

Implementing Resource-aware Multicast Forwarding in Software Defined Networks
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

Next Generation PaaS and CORD Cloud-Native Telco services
Research output: Research - peer-review › Poster – Annual report year: 2018

Policy Framework for the Next Generation Platform as a Service
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

Policy Framework Prototype for ONOS
Research output: Research - peer-review › Poster – Annual report year: 2018

Re-Factored Operational Support Systems for the Next Generation Platform-as-a-Service (NGPaaS)
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

The Next Generation Platform as a Service Cloudifying Service Deployments in Telco-Operators Infrastructure
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

Train-to-Ground communications of a Train Control and Monitoring Systems: A simulation platform modelling approach
Research output: Research - peer-review › Article in proceedings – Annual report year: 2018

VIM Adaptation Layer for CORD
Research output: Research - peer-review › Poster – Annual report year: 2018

A multimedia streaming system for urban rail environments
Research output: Research - peer-review › Article in proceedings – Annual report year: 2017

Effects of Port Congestion in the Gate Control List Scheduling of Time Sensitive Networks
Research output: Research - peer-review › Article in proceedings – Annual report year: 2017

Evaluating Application-Layer Traffic Optimization Cost Metrics for P2P Multimedia Streaming
Research output: Research - peer-review › Article in proceedings – Annual report year: 2017

GEANT JRA1-T2-D7.1 -Overview of SDN Pilot Description and Findings
Research output: Research › Report – Annual report year: 2017

Performance evaluation of a multi-radio, multi-hop ad-hoc radio communication network for Communications-Based Train Control (CBTC)
Research output: Research - peer-review › Journal article – Annual report year: 2017

Radio communication for Communications-Based Train Control (CBTC): A tutorial and survey
Research output: Research - peer-review › Journal article – Annual report year: 2017

SDN in GÉANT: Pilots and operational considerations
Research output: Research - peer-review › Paper – Annual report year: 2017

Streaming Multimedia via Overlay Networks using Wi-Fi Peer-to-Peer Connections
Research output: Research - peer-review › Article in proceedings – Annual report year: 2017
Dynamic aggregation of traffic flows in SDN Applied to backhaul networks
Research output: Research - peer-review › Article in proceedings – Annual report year: 2016

Ensuring Long-Term Data Integrity
Research output: Research - peer-review › Journal article – Annual report year: 2016

Mitigating the controller performance bottlenecks in Software Defined Networks
Research output: Research - peer-review › Journal article – Annual report year: 2016

Model-Driven Policy Framework for Data Centers
Research output: Research - peer-review › Article in proceedings – Annual report year: 2016

Towards Flexible SDN-based Management for Cloud-based Mobile Networks
Research output: Research - peer-review › Article in proceedings – Annual report year: 2016

Using relational databases to collect and store discrete-event simulation results
Research output: Research - peer-review › Article in proceedings – Annual report year: 2016

Utilizing Optical Circuits in Hybrid Packet/Circuit Data-Center Networks.
Research output: Research - peer-review › Poster – Annual report year: 2016

APIs for QoS configuration in Software Defined Networks
Research output: Research - peer-review › Article in proceedings – Annual report year: 2015

Communication Technologies for Vehicles: Proceedings of the 8th International Workshop,
Nets4Cars/Nets4Trains/Nets4Aircraft 2015
Research output: Research - peer-review › Book – Annual report year: 2015

Communication Technologies Support to Railway Infrastructure and Operations
Research output: Research › Ph.D. thesis – Annual report year: 2015

Mitigating SDN controller performance bottlenecks
Research output: Research - peer-review › Article in proceedings – Annual report year: 2015

PBL – Reflections after 10 years
Research output: Research - peer-review › Poster – Annual report year: 2015

SDN-based QoS Aware Network Service Provisioning
Research output: Research - peer-review › Article in proceedings – Annual report year: 2015

Software Defined Networking Demands on Software Technologies
Research output: Research - peer-review › Article in proceedings – Annual report year: 2015

VoLTE performance in railway scenarios
Research output: Research - peer-review › Article in proceedings – Annual report year: 2015

VoLTE Performance in Railway Scenarios: Investigating VoLTE as a Viable Replacement for GSM-R
Research output: Research - peer-review › Journal article – Annual report year: 2015
Capacity gain with an alternative LTE railway communication network
Research output: Research - peer-review › Article in proceedings – Annual report year: 2014

LTE for Railways: Impact on Performance of ETCS Railway Signaling
Research output: Research - peer-review › Journal article – Annual report year: 2014

LTE Micro-cell Deployment for High-Density Railway Areas
Research output: Research - peer-review › Article in proceedings – Annual report year: 2014

The MODUS approach to formal verification
Research output: Research - peer-review › Journal article – Annual report year: 2014

An IMS testbed for SIP applications
Research output: Research - peer-review › Article in proceedings – Annual report year: 2013

Can LTE become an alternative to GSM-R?
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2013

Evaluation of ETCS performance with LTE as alternative railway communication network using OPNET
Research output: Research - peer-review › Article in proceedings – Annual report year: 2013

Future alternatives to GSM-R
Research output: Research - peer-review › Poster – Annual report year: 2013

Impact of the traffic load on performance of an alternative LTE railway communication network
Research output: Research - peer-review › Article in proceedings – Annual report year: 2013

Introducing Process Competences in a PBL-based Engineering Course
Research output: Research - peer-review › Article in proceedings – Annual report year: 2013

Methodology and Supporting Toolset Advancing Embedded Systems Quality
Research output: Research - peer-review › Article in proceedings – Annual report year: 2013

Methodology and Toolset for Model Verification, Hardware/Software co-simulation, Performance Optimisation and Customisable Source-code generation
Research output: Research - peer-review › Journal article – Annual report year: 2013

Performance of LTE in High Speed Railway Scenarios
Research output: Research - peer-review › Journal article – Annual report year: 2013

Process Competences in PBL: Qualitative Assessment of an Experience
Research output: Research - peer-review › Article in proceedings – Annual report year: 2013

Om MPLS teknologi, oplysninger og beslutnings grundlag
Research output: Commissioned › Report – Annual report year: 2012

An overview of GSM-R technology and its shortcomings
Research output: Research - peer-review › Article in proceedings – Annual report year: 2012

Communication Technologies Support to Railway Operations
Research output: Research - peer-review › Poster – Annual report year: 2012
Enabling multimode wireless access networks using remote radio heads
Research output: Research - peer-review › Article in proceedings – Annual report year: 2012

Performance of Flow-Aware Networking in LTE backbone
Research output: Research - peer-review › Article in proceedings – Annual report year: 2012

4G Mobile Broadband Networks: Analysis of Spectrum and Power Performance Using Distributed Base Station Architectures
Research output: Research › Ph.D. thesis – Annual report year: 2011

A Novel Home Energy Management System Architecture
Research output: Research - peer-review › Article in proceedings – Annual report year: 2011

A Novel Web Service Based Home Energy Management System
Research output: Research - peer-review › Article in proceedings – Annual report year: 2011

Home Environment Service Knowledge Management System
Research output: Research - peer-review › Article in proceedings – Annual report year: 2011

Networks and Services: A decade's perspective
Research output: Research - peer-review › Book chapter – Annual report year: 2011

OWL Ontologies and SWRL Rules Applied to Energy Management
Research output: Research - peer-review › Article in proceedings – Annual report year: 2011

Reducing Electricity Demand Peaks by Scheduling Home Appliances Usage
Research output: Research - peer-review › Article in proceedings – Annual report year: 2011

Towards Efficient Energy Management: Defining HEMS, AMI and Smart Grid Objectives
Research output: Research - peer-review › Article in proceedings – Annual report year: 2011

Towards Efficient Energy Management: Defining HEMS and Smart Grid Objectives
Research output: Research - peer-review › Journal article – Annual report year: 2012

Virtualization-support Cases in Engineering Education
Research output: Research - peer-review › Article in proceedings – Annual report year: 2011

Analysis of control and management plane for hybrid fiber radio architectures
Research output: Research - peer-review › Article in proceedings – Annual report year: 2010

Fiber to the antenna: A step towards multimode radio architectures for 4G mobile broadband communications
Research output: Research - peer-review › Article in proceedings – Annual report year: 2010

Greening radio access networks using distributed base station architectures
Research output: Research - peer-review › Article in proceedings – Annual report year: 2010

Regulating electricity demand peaks for home appliances using reversible fair scheduling
Research output: Research - peer-review › Article in proceedings – Annual report year: 2010
Scheduling home appliances for energy efficient buildings
Research output: Research - peer-review | Article in proceedings – Annual report year: 2010

Service Creation and Deployment in Converged Networks: Early Experiences
Research output: Research - peer-review | Book – Annual report year: 2010

Simplified polynomial digital predistortion for multimode software defined radios
Research output: Research - peer-review | Article in proceedings – Annual report year: 2010

Hvordan virker internettet: Grafer, knudepunkter og netværk
Research output: Research - peer-review | Book chapter – Annual report year: 2007

Personalized Home-Networks: Identity-driven network behaviour and configuration
Research output: Research - peer-review | Article in proceedings – Annual report year: 2007

Framework for Development of Advanced Telecommunication Services in Current and Future Converged Networks

A Practical Implementation of GUP Architecture and its Migration Path to IMS
Research output: Research - peer-review | Article in proceedings – Annual report year: 2006

Generic User Profile (GUP) in the FlexiNET Architecture
Research output: Research - peer-review | Poster – Annual report year: 2006

New Architecture for a Centralized Next Generation Profile Register in Future Mobile Tele
Research output: Research - peer-review | Article in proceedings – Annual report year: 2006

FlexiNET: Flexible Network Architecture for Enhanced Access Network Services and Applications
Research output: Research - peer-review | Article in proceedings – Annual report year: 2005

Applying IT strategies as Interoperability Solution in Telecommunication Networks
Research output: Research - peer-review | Article in proceedings – Annual report year: 2004

First combined report on the multi-technological and multi-disciplinary analysis of the 'broadband for all' concept
Research output: Research - peer-review | Report – Annual report year: 2004

Report on the EU IST project GEMINI
Research output: Research | Journal article – Annual report year: 2004

SIP Servlets: an Efficient Scheme for Implementing Advanced Telecommunication Services
Research output: Research - peer-review | Article in proceedings – Annual report year: 2004

Webservices as enablers of converged telephony services
Research output: Research - peer-review | Article in proceedings – Annual report year: 2004

Intelligent Services in Converged Networks - Evolution steps in the signalling arena
Research output: Research - peer-review | Article in proceedings – Annual report year: 2003

Simulation and Performance Analysis of a GLMPS Lambda Scheduler
Research output: Research | Journal article – Annual report year: 2003
Modelling and Analysis of a Lambda-Scheduler for a GMPLS Node
Research output: Research › Poster – Annual report year: 2002

The Internet Protocol and Optical Networking Workshop
Research output: Research › Poster – Annual report year: 2002

Projects:

EMULRADIO4RAIL (826152-H2020-S2RJU-2018)
Project: Research

Next generation SDN/NFV-based Management of Service
Project: PhD

H2020-5GPPP - Next Generation Platform as a Service
Project: Research

H2020-Shift2Rails-Start-up activities for Advanced Signalling and Automation Systems
Project: Research

H2020-Shift2Rails-Safe Architecture for Robust Distributed Application Integration in Rolling Stock
Project: Research

P2P Communication solutions for resilient and scalable operation of collaboration tools
Project: PhD

Network management, control and operation of flexible optical networks and applications using Open Flow and SDO
Project: PhD

Quality of experience enabled network for intelligent and reliable service management
Project: PhD

Framework for deployment of advanced telecommunication services in current and future converged networks
Project: PhD

Transport network based on T-mpls
Project: PhD

Communication Technology Support for Railway Systems
Project: PhD

Software Defined Networking: applicability and service possibilities
Project: PhD

Intelligent control of home appliances via network
Project: PhD

Cross layer optimization in Heterogeneous Networks
Project: PhD
GN4-2 JRA1 Task 2: SDN/NFV capabilities in GEANT
Project: Research

SDN-enabled Management of Heterogeneous Optical & Wireless Network Infrastructure
Project: Research

Integrating Advanced Optical Hardware and SDN for Future All-Optical Data Center Networks
Project: Research

P2P communication solution for resilient and scalable operation of collaboration tools
Project: Research

An adaptive train on-board radio communication system for heterogeneous railway signalling systems
Project: Research

Methodology and Supporting Toolset advancing Embedded Systems Quality
Project: Research

Enhanced networked environment for personalised provision of AV content and appliances control information
Project: Research

Software configuration management framework for networked services environments and architectures incorporating ambient intelligence features
Project: Research

Flexible gateways architecture for enhanced access network services and applications
Project: Research

Generic Architecture for customised IP-based IN services over hybrid voice over IP and SS7 networks
Project: Research

Activities:

Next Generation PaaS and CORD Cloud-Native Telco services
Activity: Talks and presentations › Conference presentations

Policy Framework Prototype for ONOS
Activity: Talks and presentations › Conference presentations

VIM Adaptation Layer for CORD
Activity: Talks and presentations › Conference presentations

Science China Information Sciences (Journal)
Activity: Research › Peer review of manuscripts

Conference on Principles, Systems and Applications of IP Telecommunications- IPTCOM18 (Event)
Activity: Research › Peer review of manuscripts

IEEE Conference on Network Function Virtualization and Software Defined Networks (Event)
Activity: Research › Peer review of manuscripts
International Journal of Computer & Telecommunication Networking (Journal)
Activity: Research › Peer review of manuscripts

International Conference on Intelligent Transport Systems Telecommunications - ITST2018 (Event)
Activity: Research › Peer review of manuscripts

IEEE Communications Magazine - Design & Implementation Series (Journal)
Activity: Research › Peer review of manuscripts

IEEE Communications Magazine - AdHoc & Sensor Network Series (Journal)
Activity: Research › Peer review of manuscripts

COST ICT 1304 ACROSS Kick-Off meeting: Autonomous Control for a Reliable Internet of Services (ACROSS)
Activity: Other

Lecture on PBL-based course didactics and methodology: "To Plan teaching - to stage learning"
Activity: Other

IEEE Wireless Communication & Networking Conference (WCNC 2014) (Journal)
Activity: Research › Peer review of manuscripts

2013 International Conference on Connected Vehicles & Expo (Journal)
Activity: Research › Peer review of manuscripts

IEEE Network Magazine (Journal)
Activity: Research › Peer review of manuscripts

INDIN 2013 Tutorial: Demonstration of an Open Source framework for Embedded Systems Verfification and Simulation (EU FP7 MODUS Project)
Activity: Talks and presentations › Conference presentations

19th IEEE International Conference on Networks (ICON 2013) (Journal)
Activity: Research › Peer review of manuscripts

International Conference on Principles, Systems and Applications of IP Telecommunications (IPTComm 2013) (Journal)
Activity: Research › Peer review of manuscripts
IEEE 3rd International Conference on Consumer Electronics (Journal)
Activity: Research › Peer review of manuscripts

2013 IEEE Symposium on Industrial Electronics and Applications (Journal)
Activity: Research › Peer review of manuscripts

5th International Conference on Advances in Future Internet (AFIN 2013) (Journal)
Activity: Research › Peer review of manuscripts

IEEE Communications Magazine - Smart Cities Special Issue (June 2013) (Journal)
Activity: Research › Peer review of manuscripts

IEEE International Conference on Communications 2013 - Workshop on Smart Communication Protocols and Algorithms. (Journal)
Activity: Research › Peer review of manuscripts

International Journal of Computer & Telecommunication Networking (Journal)
Activity: Research › Peer review of manuscripts

IEEE Business Engineering and Industrial Applications Colloquium 2013 (IEEE BEIAC 2013) (External organisation)
Activity: Membership › Membership in review committee

9th International Conference on Networking and Services
Activity: Attending an event › Participating in or organising a conference

IEEE International Conference on Communication 2013 - Technical Symposium on Communication Software and Services (CSS) (External organisation)
Activity: Membership › Membership in review committee

Journal of Ambient Intelligence and Smart Environments (Journal)
Activity: Research › Peer review of manuscripts

International Journal On Advances in Internet Technology (Journal)
Activity: Research › Peer review of manuscripts

Open Journal on Adhoc & Wireless Sensor Networks (External organisation)
Activity: Membership › Membership in review committee

PhD Evaluation: P.R. da Nova Valente, "Action Coordination and resource Allocation Against User Profiles"
Activity: Examinations and supervision › External examination

PhD Evaluation: S. Hossain, "Cognitive Support using BDI Agent and Adaptive User Modelling"
Activity: Examinations and supervision › External examination

IEEE 18th International Conference on Networks (ICON 2012) (External organisation)
Activity: Membership › Membership in review committee

IEEE Communications Magazine - January 2013 - "Ultimate Technologies & Advances for Future Smart Grid" (Journal)
Activity: Research › Peer review of manuscripts
Federated Conference on Computer Science and Information Systems (FedCSIS 2012) (External organisation)
Activity: Membership › Membership of committees, commissions, boards, councils, associations, organisations, or similar

International Journal On Advances in Internet Technology (Journal)
Activity: Research › Peer review of manuscripts

Korean Information Technology Convergence Society (KITCS) (External organisation)
Activity: Membership › Board duties in companies, associations, or public organisations

2012 IEEE International Conference on Consumer Electronics (Event)
Activity: Membership › Membership of committees, commissions, boards, councils, associations, organisations, or similar

The fourth International Conference on Advances in Future Internet (Event)
Activity: Research › Peer review of manuscripts

Om MPLS Teknologi, oplysninger og beslutningsgrundlag
Activity: Public and private sector consultancy › Public sector consultancy

IEEE Communications Magazine : Consumer Communications and Networking Series (Journal)
Activity: Research › Peer review of manuscripts

International Workshop on Communication Technologies Support to the Smart Grid (ICNC'12 - SGCom)
Activity: Attending an event › Participating in or organising workshops, courses, seminars etc.

8th International Conference on Networking & Services (ICNS 2012) (Journal)
Activity: Research › Peer review of manuscripts

3rd International Congress on Engineering Education (ICEED)
Activity: Attending an event › Participating in or organising a conference

IEEE Wireless Communications & Networking Conference : Mobile & Wireless Track (WCNC 2012) (Journal)
Activity: Research › Peer review of manuscripts
