Research outputs:

A call for a paradigm shift: Assumed-to-be premature migrants actually yield good returns
Research output: Research - peer-review › Journal article – Annual report year: 2018

Another paradigm lost? Autumn downstream migration of juvenile brown trout: Evidence for a presmolt migration
Research output: Research - peer-review › Letter – Annual report year: 2018

Avancerede fiskemærker giver ny viden om havørreders adfærd
Research output: Communication › Net publication - Internet publication – Annual report year: 2018

Bækørredbestanden og lystfiskeriets betydning i Nørreå 2009 – 2012
Research output: Research › Report – Annual report year: 2018

Comparison of vegetable shortening and cocoa butter as vehicles for cortisol manipulation in Salmo trutta
Research output: Research - peer-review › Journal article – Annual report year: 2018

Evidence of cormorant-induced mortality, disparate migration strategies and repeatable circadian rhythm in the endangered North Sea houting (Coregonus oxyrinchus): A telemetry study mapping the postspawning migration
Research output: Research - peer-review › Journal article – Annual report year: 2018

Forskerne bider sig fast i stenbideren
Research output: Communication › Net publication - Internet publication – Annual report year: 2018

Massive problemer med spærringer i europæiske vandløb
Research output: Communication › Net publication - Internet publication – Annual report year: 2018

Moving beyond fitting fish into equations: Progressing the fish passage debate in the Anthropocene
Research output: Research - peer-review › Journal article – Annual report year: 2018

N-acetylcysteine manipulation fails to elicit an increase in glutathione in a teleost model
Research output: Research - peer-review › Journal article – Annual report year: 2018

REKREA-Monitoring and inclusion of Danish marine recreational fisheries data in stock assessment
Research output: Research › Poster – Annual report year: 2018

Relationship of baseline and maximum glucocorticoid concentrations to migration propensity – a field test with wild subadult brown trout (Salmo trutta)
Research output: Research - peer-review › Journal article – Annual report year: 2018
River connectivity reestablished: effects and implications of six weir removals on brown trout smolt migration
Research output: Research - peer-review › Journal article – Annual report year: 2018

Routes and survival of anadromous brown trout Salmo trutta L. post-smolts during early marine migration through a Danish fjord system
Research output: Research - peer-review › Journal article – Annual report year: 2018

Telemetry observations of predation and migration behaviour of brown trout (Salmo trutta) smolts negotiating an artificial lake: Telemetry observations of smolts negotiating an artificial lake
Research output: Research - peer-review › Journal article – Annual report year: 2018

Temperature and depth preferences of adult sea trout Salmo trutta during the marine migration phase
Research output: Research - peer-review › Journal article – Annual report year: 2018

Testing three common stocking methods: Differences in smolt size, migration rate and timing of two strains of stocked Atlantic salmon (Salmo salar)
Research output: Research - peer-review › Journal article – Annual report year: 2018

The future of fish passage science, engineering, and practice
Research output: Research - peer-review › Journal article – Annual report year: 2018

The influence of sex, parasitism, and ontogeny on the physiological response of European eel (Anguilla anguilla) to an abiotic stressor
Research output: Research - peer-review › Journal article – Annual report year: 2018

Tracking anguillid eels: five decades of telemetry-based research
Research output: Research - peer-review › Journal article – Annual report year: 2018

Voksne havørreder forlader også Limfjorden
Research output: Communication › Net publication - Internet publication – Annual report year: 2018

Voksne havørreder forlader også Limfjorden
Research output: Communication › Net publication - Internet publication – Annual report year: 2018

A comparison of the survival and migration of wild and F1-hatchery-reared brown trout (Salmo trutta) smolts traversing an artificial lake
Research output: Research - peer-review › Journal article – Annual report year: 2017

30 years of data reveal dramatic increase in abundance of brown trout following the removal of a small hydrodam
Research output: Research - peer-review › Journal article – Annual report year: 2017

Adaptive management in the context of barriers in European freshwater ecosystems
Research output: Research - peer-review › Journal article – Annual report year: 2017

Blåfinnet tuns færden skal undersøges i danske farvande
Research output: Communication › Contribution to newspaper - Newspaper article – Annual report year: 2017

Brown trout on the move - migration ecology and methodology: Biology, ecology and management
Research output: Research - peer-review › Book chapter – Annual report year: 2017
Den blåfinnede tuns færden skal undersøges i danske farvande
Research output: Communication › Net publication - Internet publication – Annual report year: 2017

Effects of Cortisol on Short and Long Term Diet and Morphology
Research output: Research - peer-review › Conference abstract in journal – Annual report year: 2017

Environment-dependent plasticity and ontogenetic changes in the brain of hatchery-reared Atlantic salmon
Research output: Research - peer-review › Journal article – Annual report year: 2016

Envisioning the future of aquatic animal tracking: Technology, science, and application
Research output: Research - peer-review › Journal article – Annual report year: 2017

Research output: Research - peer-review › Comment/debate – Annual report year: 2018

Følg den daglige smoltvandring i europæiske vandløb
Research output: Communication › Net publication - Internet publication – Annual report year: 2017

Følg den naturlige udvandring af ørred- og laksesmolt fra danske vandløb
Research output: Communication › Net publication - Internet publication – Annual report year: 2017

Havørredsmoltenes migration i Limfjorden
Research output: Research › Report – Annual report year: 2017

If and when: Intrinsic differences and environmental stressors influence migration in brown trout (Salmo trutta)
Research output: Research - peer-review › Journal article – Annual report year: 2017

Marine depth use of sea trout Salmo trutta in fjord areas of central Norway: marine depth use of salmo trutta
Research output: Research - peer-review › Journal article – Annual report year: 2017

Møde om havørreder i Roskilde Fjord 18. november 2017
Research output: Communication › Net publication - Internet publication – Annual report year: 2017

Morphological, physiological and dietary covariation in migratory and resident adult brown trout (Salmo trutta)
Research output: Research - peer-review › Journal article – Annual report year: 2017

Oxidative stress and partial migration in brown trout (Salmo trutta)
Research output: Research - peer-review › Journal article – Annual report year: 2017

Performance of fast-absorbable suture and histo-glue in closing incisions in Brown trout
Research output: Research - peer-review › Journal article – Annual report year: 2017

Pighvarers vandring i Roskilde Fjord
Research output: Communication › Net publication - Internet publication – Annual report year: 2017

Pike (Esox lucius L.) on the edge: consistent individual movement patterns in transitional waters of the western Baltic
Research output: Research - peer-review › Journal article – Annual report year: 2016

REKREA - Evaluating Survey Methods for Danish Marine Recreational Fisheries
Research output: Research › Poster – Annual report year: 2017
REKREA - Evaluating Survey Methods for Danish Marine Recreational Fisheries
Research output: Research › Poster – Annual report year: 2017

Shining a light on the loss of rheophilic fish habitat in lowland rivers as a forgotten consequence of barriers and its implications for management
Research output: Research › peer-review › Journal article – Annual report year: 2017

Short-term and long-term effects of transient exogenous cortisol manipulation on oxidative stress in juvenile brown trout
Research output: Research › peer-review › Journal article – Annual report year: 2017

Survival of migrating sea trout (Salmo trutta) smolts during their passage of an artificial lake in a Danish lowland stream
Research output: Research › peer-review › Journal article – Annual report year: 2017

Udsatte pighvarrer lader til at blive i Roskilde Fjord
Research output: Communication › Net publication - Internet publication – Annual report year: 2017

Vildt, vildere – Villestrup Å
Research output: Communication › Net publication - Internet publication – Annual report year: 2017

Aborre og gedder i brakvand - betydningen af ferskvandsområder for gydning
Research output: Research › Poster – Annual report year: 2016

Accounting for potential physiological, behavioral, and community-level responses to reintroduction
Research output: Research › peer-review › Book chapter – Annual report year: 2016

Cormorant predation of the highly endagered North Sea houting in river Vidaa, Denmark
Research output: Research › Poster – Annual report year: 2016

Deltag i en undersøgelse af ørredfiskeri i Isefjorden
Research output: Communication › Net publication - Internet publication – Annual report year: 2016

Empirical observations of the spawning migration of European eels: The long and dangerous road to the Sargasso Sea
Research output: Research › peer-review › Journal article – Annual report year: 2016

First evidence of European eels exiting the Mediterranean Sea during their spawning migration
Research output: Research › peer-review › Journal article – Annual report year: 2016

Hyvlike ærreder fanger lystfiskere i Isefjorden?
Research output: Communication › Net publication - Internet publication – Annual report year: 2016

Hydrographic features of anguillid spawning areas: Potential signposts for migrating eels
Research output: Research › peer-review › Journal article – Annual report year: 2016

Investigating the phenology of seaward migration of juvenile brown trout (Salmo trutta) in two European populations
Research output: Research › peer-review › Journal article – Annual report year: 2016

Knowledge exchange for efficient passage of fish in the southern hemispere (KEEPFISH)
Research output: Research › Conference abstract for conference – Annual report year: 2017

Konflikt mellem skarv og den uddydelsesstruede snæbel
Research output: Communication › Net publication - Internet publication – Annual report year: 2016
Laksebestanden i Ribe Å 2014
Research output: Research › Report – Annual report year: 2016

Laksen i Storå skal fremover klare sig uden udsætninger
Research output: Communication › Net publication - Internet publication – Annual report year: 2016

Naturlig smoltudvandring fra danske vandløb
Research output: Communication › Net publication - Internet publication – Annual report year: 2016

Partitioning the metabolic scope: the importance of anaerobic metabolism and implications for the oxygen- and capacity-limited thermal tolerance (OCLTT) hypothesis
Research output: Research - peer-review › Journal article – Annual report year: 2016

Phenotypic variation in metabolism and morphology correlating with animal swimming activity in the wild: relevance for the OCLTT (oxygen- and capacity-limitation of thermal tolerance), allocation and performance models
Research output: Research - peer-review › Journal article – Annual report year: 2016

Reduced rearing density increases postrelease migration success of Atlantic salmon (Salmo salar) smolts
Research output: Research - peer-review › Journal article – Annual report year: 2015

Spatial ecology of blue shark and shortfin mako in southern Peru: local abundance, habitat preferences and implications for conservation
Research output: Research - peer-review › Journal article – Annual report year: 2016

Stress and food deprivation: linking physiological state to migration success in a teleost fish
Research output: Research - peer-review › Journal article – Annual report year: 2016

Udbytte af udsatte ½- og 1-års laks (Salmo salar) I Skjern Å
Research output: Research › Report – Annual report year: 2016

An experimental field evaluation of winter carryover effects in semi-anadromous Brown trout (Salmo trutta)
Research output: Research - peer-review › Journal article – Annual report year: 2015

Aquatic animal telemetry: A panoramic window into the underwater world
Research output: Research - peer-review › Journal article – Annual report year: 2015

Effects of emergence time and early social rearing environment on behaviour of Atlantic salmon: Consequences for juvenile fitness and smolt migration
Research output: Research - peer-review › Journal article – Annual report year: 2015

Effects of hatchery rearing practices and cortisol manipulation on growth, survival and seaward migration success of stocked and wild Atlantic salmon and brown trout smolts
Research output: Research › Ph.D. thesis – Annual report year: 2015

Følg ørrederne, når de vandrer fra Geels Å og ud i Odense Fjord
Research output: Communication › Net publication - Internet publication – Annual report year: 2015

Følg ørrederne, når de vandrer fra vandløb og ud i havet
Research output: Communication › Net publication - Internet publication – Annual report year: 2015
Genetic and migratory evidence for sympatric spawning of tropical Pacific eels from Vanuatu
Research output: Research - peer-review › Journal article – Annual report year: 2015

Marine migration and habitat use of anadromous brown trout Salmo trutta
Research output: Research - peer-review › Journal article – Annual report year: 2015

Ørredfangster i Isefjorden bliver undersøgt
Research output: Communication › Net publication - Internet publication – Annual report year: 2015

Phenotypic variation in metabolism and morphology correlating with fish movements in the wild: a study combining respirometry and telemetry
Research output: Research › Conference abstract for conference – Annual report year: 2015

Præcis 3D-overvågning af ørred- og laksesmotl
Research output: Communication › Net publication - Internet publication – Annual report year: 2015

RevFisk – et projekt som kvantificerer stenrens betydning for fisk
Research output: Research › Poster – Annual report year: 2015

RevFisk – et projekt som kvantificerer stenren (et lavliggende stenrev i den fotiske zone og et dybere liggende stenrev i den afotiske zone) betydning for fisk
Research output: Research › Conference abstract for conference – Annual report year: 2015

Spatial segregation of ocean migrating Atlantic salmon
Research output: Research › Conference abstract for conference – Annual report year: 2015

Survival and progression rates of anadromous brown trout kelts Salmo trutta during downstream migration in freshwater and at sea
Research output: Research - peer-review › Journal article – Annual report year: 2015

The marine life of sea trout (Salmo trutta): Aspects of their migratory behaviour and survival
Research output: Research › Ph.D. thesis – Annual report year: 2015

The migration behaviour of European silver eels (Anguilla anguilla) released in open ocean conditions

Laks og havørreds gydevandringer i Gudenåen i 1994 og 1995
Research output: Research › Report – Annual report year: 2000

Prespawning migratory behaviour and spawning success of sea-ranched Atlantic salmon, Salmo salar L., in the River Gudenaa, Denmark
Research output: Research › Journal article – Annual report year: 2000

Relationship between gill Na+,K+-ATPase activity and downstream movement in domesticated and first-generation offspring of wild anadromous brown trout (Salmo trutta)
Research output: Research › Journal article – Annual report year: 2000

Smoltpassage forbi dambrug
Research output: Research › Journal article – Annual report year: 2000

Smolttab ved opstemninger
Research output: Research › Journal article – Annual report year: 2000

Udsættning af havørreds molt
Research output: Research › Journal article – Annual report year: 2000

A comparison of the growth of radio-tagged and dye-marked pike
Research output: Research › Journal article – Annual report year: 1999

Movements of two strains of radio tagged Atlantic salmon, Salmo salar L., smolts through a reservoir
Research output: Research › Journal article – Annual report year: 1999

Status for laksehandlingsplan
Research output: Research › Report – Annual report year: 1999

Fiskerimæssige forhold i Tange sø og Gudenå
Research output: Research › Journal article – Annual report year: 1998

Spawning migration of sea trout (Salmo trutta (L)) in a Danish river
Research output: Research › Journal article – Annual report year: 1998

Survival of radio-tagged Atlantic salmon (Salmo salar L.) and trout (Salmo trutta L.) smolts passing a reservoir during seaward migration
Research output: Research › Journal article – Annual report year: 1998
Mortality of sea trout (Salmo trutta L.) and Atlantic salmon (S. salar L.) smolts during seaward migration through rivers and lakes in Denmark

Research output: Research › Conference article – Annual report year: 1996

Projects:

Citizen science as a method to collect recreational fisheries data; Strengths and limitations
Project: PhD

Ecology of Atlantic Salmon
Project: PhD

Investigating the effects of barriers on fish in European streams and rivers
Project: PhD

Investigating the effects of barriers on fish in European streams and rivers
Project: PhD

Forbedring af forvaltningsgrundlaget for bestande i det rekreative fiskeri (39370)
Project: Research

Strengthening the Danish populations of Atlantic salmon – Increasing populations, genetic resources and recreational fishing (39340)
Project: Research

Expertise in marine and aquatic ecology and genomics for sustainable management of fish and shellfish in Skagerrak-Kattegat-Øresund (MarGen) (39301)
Project: Research

Marine migration behaviour of salmonids and gadoids assessed using biotelemetry and genetic stock identification
Project: PhD

Effects of the newly established lake on migrating juvenile salmonids (smolts)
Project: PhD

Marine Survival of Sea Trout
Project: PhD

Stres coping Styles’ effect on fitness and life history choice in wild salmonids
Project: PhD

Behaviour of lake-dwelling fish
Project: PhD

Scaling of individual trout behaviour and life history to population dynamics
Project: PhD
Sustainable smolt production – an integrated approach (SMOLTPRO) (38876)
Project: Research

Marine behaviour of Atlantic salmon (38825)
Project: Research

Living North Sea: Fish migration from sea to source (LNS) (38872)
Project: Research

Survival and growth of eel in coastal habitats (38830)
Project: Research

Silver eel biomass and non-fishing mortality (38845)
Project: Research

Genetic mapping of Danish trout populations (38828)
Project: Research

Monitoring of glass eel recruitment to Danish inland waters (38263)
Project: Research

Population dynamics of stocked eel in a river system (38261)
Project: Research

Salmonid freshwater habitats (38256)
Project: Research

European eel: Investigation and assessment of their decline (EELIAD) (38410)
Project: Research

Predation from birds and mammals and the significance for populations of freshwater fish (38829)
Project: Research

Migration and spawning behaviors of brackish water perch and pike (38413)
Project: Research

Flatfish nursery grounds (38176)
Project: Research

Population development of sea trout after removal of migration obstacles (38259)
Project: Research

The marine life and survival of sea trout (38258)
Project: Research

Activities:

2nd International Workshop on the Swimming Physiology of Fish
Activity: Talks and presentations › Conference presentations
