Research outputs:

Effects of water flow rates on growth and welfare of Nile tilapia (Oreochromis niloticus) reared in a recirculating aquaculture system
Research output: Contribution to journal › Journal article – Annual report year: 2019 › Research › peer-review

Digestibility and postprandial ammonia excretion in Nile tilapia (Oreochromis niloticus) fed diets containing different oilseed by-products
Research output: Contribution to journal › Journal article – Annual report year: 2015 › Research › peer-review

Effects of dietary inclusions of oilseed meals on physical characteristics and feed intake of diets for the Nile Tilapia, Oreochromis niloticus
Research output: Contribution to journal › Journal article – Annual report year: 2015 › Research › peer-review

Local agro-industrial by-products with potential use in Ghanaian aquaculture: a review
Research output: Contribution to journal › Review – Annual report year: 2014 › Research › peer-review
