Research outputs:

The innovation element of the diploma (b.eng.) programs at DTU
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2016 › Research › peer-review

Design considerations regarding the development of an interdisciplinary engineering innovation course involving collaboration with small and micro-sized companies
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2015 › Research › peer-review

Design of an interdisciplinary engineering elective scoped around collaboration with Small Medium Sized enterprises (SME)
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2015 › Research › peer-review

Business oriented educational experiments enhance active learning by engineering students
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2013 › Research › peer-review

Foranalyse: Beskrivelse af Center for Innovation og Entreprenørskab
Research output: Book/Report › Report – Annual report year: 2013 › Research › peer-review
