Publications:

Microbial contamination level profiles attributed to contamination of beef carcasses, personnel, and equipment: case of small and medium enterprise slaughterhouses
Publication: Research - peer-review › Journal article – Annual report year: 2018

Quantitative risk assessment of hemolytic uremic syndrome associated with consumption of bulk milk sold directly from producer to consumer in South Africa
Publication: Research - peer-review › Journal article – Annual report year: 2018

Application of Probabilistic Modeling to Quantify the Reduction Levels of Hepatocellular Carcinoma Risk Attributable to Chronic Aflatoxins Exposure
Publication: Research - peer-review › Journal article – Annual report year: 2017

Microbial Performance of Food Safety Control and Assurance Activities in a Fresh Produce Processing Sector Measured Using a Microbial Assessment Scheme and Statistical Modeling
Publication: Research - peer-review › Journal article – Annual report year: 2017

Quantitative assessment of human exposure to extended spectrum and AmpC β-lactamases bearing E. coli in lettuce attributable to irrigation water and subsequent horizontal gene transfer
Publication: Research - peer-review › Journal article – Annual report year: 2017

Scale of production and implementation of food safety programs influence the performance of current food safety management systems: Case of dairy processors
Publication: Research - peer-review › Journal article – Annual report year: 2017

Adaptation and mitigation options to manage aflatoxin contamination in food with a climate change perspective
Publication: Research - peer-review › Journal article – Annual report year: 2017

Influence of Thawing Methods and Storage Temperatures on Bacterial Diversity, Growth Kinetics, and Biogenic Amine Development in Atlantic Mackerel
Publication: Research - peer-review › Journal article – Annual report year: 2016
