Research outputs:

**Applying no-depletion equilibrium sampling and full-depletion bioaccessibility extraction to 35 historically polycyclic aromatic hydrocarbon contaminated soils**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Determining Biodegradation Kinetics of Hydrocarbons at Low Concentrations: Covering 5 and 9 Orders of Magnitude of Kow and Kaw**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**A Chemical Activity Approach to Exposure and Risk Assessment of Chemicals**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Assessing PCB pollution in the Baltic Sea - An equilibrium partitioning based study**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Equilibrium sampling reveals increasing thermodynamic potential of polycyclic aromatic hydrocarbons during sewage sludge digestion**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Headspace passive dosing of volatile hydrophobic chemicals – Aquatic toxicity testing exactly at the saturation level**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Linking algal growth inhibition to chemical activity: Excess toxicity below 0.1% of saturation**
Research output: Research - peer-review › Journal article – Annual report year: 2018

**Meta-Analysis of Fish Early Life Stage Tests - Association of Toxic Ratios and Acute-To-Chronic Ratios with Modes of Action**
Research output: Research - peer-review › Review – Annual report year: 2018

**New approaches for determining solubility of organic chemicals**
Research output: Research - peer-review › Poster – Annual report year: 2018

**Aquatic toxicity testing of liquid hydrophobic chemicals – Passive dosing exactly at the saturation limit**
Research output: Research - peer-review › Journal article – Annual report year: 2017

**Bioavailability and bioaccessibility of polycyclic aromatic hydrocarbons from (post-pyrolytically treated) biochars**
Research output: Research - peer-review › Journal article – Annual report year: 2017
Combining Equilibrium Sampling with Non-Target Analysis of Hydrophobic Complex Mixtures in a Complex Matrix
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2017

Cross-validation of equilibrium sampling and non-equilibrium passive sampling methods in PCB contaminated sediments
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Equilibrium sampling in a semi in situ pot experiment to measure freely dissolved concentrations of hydrophobic organic compounds
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2016

How to Determine the Environmental Exposure of PAHs Originating from Biochar
Research output: Research - peer-review › Journal article – Annual report year: 2016

Including Bioconcentration Kinetics for the Prioritization and Interpretation of Regulatory Aquatic Toxicity Tests of Highly Hydrophobic Chemicals
Research output: Research - peer-review › Journal article – Annual report year: 2016

Limited recovery of soil microbial activity after transient exposure to gasoline vapors
Research output: Research - peer-review › Journal article – Annual report year: 2016

Linking algal growth inhibition to chemical activity: A tool for identifying excess toxicity
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2016

Microscale In Vitro Assays for the Investigation of Neutral Red Retention and Ethoxyresorufin-O-Deethylase of Biofuels and Fossil Fuels
Research output: Research - peer-review › Journal article – Annual report year: 2016

Multiple coating thicknesses for sampling of organic pollutants – linear regressions confirm equilibrium even in challenging environmental media
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Passive Sampling in Regulatory Chemical Monitoring of Nonpolar Organic Compounds in the Aquatic Environment
Research output: Research - peer-review › Review – Annual report year: 2016

Polymers as reference partitioning phase: polymer calibration for an analytically operational approach to quantify multimedia phase partitioning
Research output: Research - peer-review › Journal article – Annual report year: 2016

Remediation of PCB contaminated sediments using activated carbon: Assessing efficiency and robustness using equilibrium sampling
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2016

Remediation of PCB contaminated sediments using activated carbon: Thermodynamic exposure assessment
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Response to Comment on "Application of the Activity Framework for Assessing Aquatic Ecotoxicology Data for Organic Chemicals"
Research output: Research - peer-review › Journal article – Annual report year: 2016

Strategies for Transferring Mixtures of Organic Contaminants from Aquatic Environments into Bioassays
Research output: Research - peer-review › Journal article – Annual report year: 2016
Strategies for transferring mixtures of organic contaminants from multimedia environments into bioassays
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Transferring in vivo exposure into in vitro assays using silicone to assess the endocrine activity of POPs accumulated in human breast implants
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Utilizing the partitioning properties of silicone for the passive sampling of polychlorinated biphenyls (PCBs) in indoor air
Research output: Research - peer-review › Journal article – Annual report year: 2016

Aged spiked soils cannot resemble desorption and bioaccessibility of native PAHs in historically contaminated soils
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

A high throughput passive dosing format for the Fish Embryo Acute Toxicity test
Research output: Research - peer-review › Journal article – Annual report year: 2015

Application of the Activity Framework for Assessing Aquatic Ecotoxicology Data for Organic Chemicals
Research output: Research - peer-review › Journal article – Annual report year: 2015

Bioaccessibility Extraction of Hydrophobic Pollutants: Benefits of Separating Leaching Agent and Acceptor Medium
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Bioaccumulation in aquatic systems: methodological approaches, monitoring and assessment
Research output: Research - peer-review › Journal article – Annual report year: 2015

Biocides from façade coatings in urban surface waters: Estimating the leaching of biocides from render by polyacrylate-water partitioning constants?
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Comparison of passive and standard dosing of polycyclic aromatic hydrocarbons to the marine algae Phaeodactylum tricornutum
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Determining High-Quality Critical Body Residues for Multiple Species and Chemicals by Applying Improved Experimental Design and Data Interpretation Concepts
Research output: Research - peer-review › Journal article – Annual report year: 2015

Differences between Lipids Extracted from Five Species Are Not Sufficient To Explain Biomagnification of Nonpolar Organic Chemicals
Research output: Research - peer-review › Letter – Annual report year: 2015

Differential immunomodulatory responses to nine polycyclic aromatic hydrocarbons applied by passive dosing
Research output: Research - peer-review › Journal article – Annual report year: 2015

Effect of narcotics on membrane-bound mitochondrial processes in fish
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2015

Endocrine activity of persistent organic pollutants accumulated in human silicone implants — Dosing in vitro assays by partitioning from silicone
Research output: Research - peer-review › Journal article – Annual report year: 2015

Equilibrium passive sampling as a tool to study polycyclic aromatic hydrocarbons in Baltic Sea sediment pore-water systems
The Feasibility of Tree Coring as a Screening Tool for Selected Contaminants in the Subsurface
Research output: Research › Ph.D. thesis – Annual report year: 2015

Transfer and effects of 1,2,3,5,7-pentachloronaphthalene in an experimental food chain
Research output: Research › peer-review › Journal article – Annual report year: 2015

Using a reference partitioning phase to link exposure and effect assessment of hydrophobic organic chemicals: Novel equilibrium partitioning concepts and methods
Research output: Research › Ph.D. thesis – Annual report year: 2015

Using equilibrium passive dosing to maintain stable exposure concentrations of triclosan in a 6-week toxicity test
Research output: Research › peer-review › Conference abstract in proceedings – Annual report year: 2015

Advancing passive sampling of contaminants in Environmental Science
Research output: Research › peer-review › Journal article – Annual report year: 2014

A novel passive dosing-based PICT detection method reveals no increased tolerance to benzene, toluene, ethylbenzene and xylene (BTEX) in soil bacterial communities exposed to gasoline vapours
Research output: Research › peer-review › Conference abstract in proceedings – Annual report year: 2014

Chemical activity for integrated chemical assessment
Research output: Research › peer-review › Conference abstract in proceedings – Annual report year: 2014

Concerned about the T in PBT? Ask what fugacity and activity can do for you!
Research output: Research › peer-review › Conference abstract in proceedings – Annual report year: 2014

Co-Transport of Polycyclic Aromatic Hydrocarbons by Motile Microorganisms Leads to Enhanced Mass Transfer under Diffusive Conditions.
Research output: Research › peer-review › Journal article – Annual report year: 2014

Equilibrium Sampling to Determine the Thermodynamic Potential for Bioaccumulation of Persistent Organic Pollutants from Sediment
Research output: Research › peer-review › Journal article – Annual report year: 2014

Impact of soil amendments and the plant rhizosphere on PAH behaviour in soil
Research output: Research › peer-review › Journal article – Annual report year: 2014

Is equilibrium sampling applicable in routine sediment monitoring?
Research output: Research › peer-review › Conference abstract in proceedings – Annual report year: 2014

Juvenile swine evaluation of the ability of silicone rod in vitro digestors to predict PAH uptake across 20 different soils
Research output: Research › peer-review › Conference abstract in proceedings – Annual report year: 2014

PAH toxicity at aqueous solubility in the fish embryo test with Danio rerio using passive dosing
Research output: Research › peer-review › Journal article – Annual report year: 2014

Partitioning of hydrophobic organic chemicals between silicone polymers and LDPE
Research output: Research › peer-review › Conference abstract in proceedings – Annual report year: 2014

Passive dosing as a tool to derive fugacity capacities of a variety of leaves for semi-volatile persistent organic contaminants
Passive dosing for the zebrafish embryo test using silicone O-rings

Passive Equilibrium Sampling of Hydrophobic Organic Contaminants in Sediment

Passive Equilibrium Sampling of Hydrophobic Organic Contaminants in Sediment

Passive Equilibrium Sampling of Hydrophobic Organic Contaminants in Sediment

Passive sampling methods for contaminated sediments: Scientific rationale supporting use of freely dissolved concentrations

Passive sampling of polychlorinated biphenyls (PCB) in indoor air: towards a cost-effective screening tool

Physiological and molecular responses of springtails exposed to combined chemical and drought stress by passive dosing

Physiological and molecular responses of springtails exposed to phenanthrene and drought

Polyacrylate–water partitioning of biocidal compounds: Enhancing the understanding of biocide partitioning between render and water

Silicone -Based Equilibrium Sampling of Sediment to Assess the Thermodynamic Potential of Trace-Level Hydrophobic Organic Contaminants to Bioaccumulate

Silicone-Based Equilibrium Sampling of Sediment to Assess the Thermodynamic Potential of Trace-Level Hydrophobic Organic Contaminants to Bioaccumulate

Silicone passive equilibrium samplers as ‘chemometers’ in eels and sediments of a Swedish lake.

Simultaneous Control of Phenanthrene and Drought by Dual Exposure System: The Degree of Synergistic Interactions in Springtails was Exposure Dependent

The effect of humic acids on biodegradation of polycyclic aromatic hydrocarbons depends on the exposure regime

Baseline Toxic Mixtures of Non-Toxic Chemicals: "Solubility Addition" Increases Exposure for Solid Hydrophobic Chemicals
Changes in Lumbriculus variegatus metabolites under hypoxic exposure to benzo(a)pyrene, chlorpyrifos and pentachlorophenol: Consequences on biotransformation
Research output: Research - peer-review › Journal article – Annual report year: 2013

Impact of soil amendments on the freely dissolved concentrations, chemical activities, and diffusive mass fluxes of PAHs in soil
Research output: Research - peer-review › Poster – Annual report year: 2013

Is there sufficient ‘sink’ in current bioaccessibility determinations of organic pollutants in soils?
Research output: Research - peer-review › Journal article – Annual report year: 2013

Limited exposure originating from desorption resistant PAHs in soot
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Loss of artemisinin produced by Artemisia annua L. to the soil environment
Research output: Research - peer-review › Journal article – Annual report year: 2013

Methods to assess bioavailability of hydrophobic organic contaminants: Principles, operations, and limitations
Research output: Research - peer-review › Review – Annual report year: 2013

Passive dosing of polycyclic aromatic hydrocarbon (PAH) mixtures to terrestrial springtails: Linking mixture toxicity to chemical activities, equilibrium lipid concentrations, and toxic units
Research output: Research - peer-review › Journal article – Annual report year: 2013

Passive Equilibrium Sampler for in Situ Measurements of Freely Dissolved Concentrations of Hydrophobic Organic Chemicals in Sediments
Research output: Research - peer-review › Journal article – Annual report year: 2013

Sorptive Bioaccessibility Extraction (SBE) of soils - combining mobilisation medium with absorption sink
Research output: Research - peer-review › Poster – Annual report year: 2013

Sorptive Physiologically Based Extraction of Contaminated Solid Matrices: Incorporating Silicone Rod As Absorption Sink for Hydrophobic Organic Contaminants
Research output: Research - peer-review › Journal article – Annual report year: 2013

The dosing determines mutagenicity of hydrophobic compounds in the Ames II assay with metabolic transformation: Passive dosing versus solvent spiking
Research output: Research - peer-review › Journal article – Annual report year: 2013

Uptake and toxicity of polycyclic aromatic hydrocarbons in terrestrial springtails-studying bioconcentration kinetics and linking toxicity to chemical activity
Research output: Research - peer-review › Journal article – Annual report year: 2013

A flow-through passive dosing system for continuously supplying aqueous solutions of hydrophobic chemicals to bioconcentration and aquatic toxicity tests
Research output: Research - peer-review › Journal article – Annual report year: 2013

Contaminant trap - Isolating and measuring the desorption resistant pool of soil pollutants
Research output: Research - peer-review › Book chapter – Annual report year: 2013

Dynamic Passive Dosing for Studying the Biotransformation of Hydrophobic Organic Chemicals: Microbial Degradation as an Example
Equilibrium sampling of organic soil pollutants
Research output: Research - peer-review › Book chapter – Annual report year: 2013

Long-Term Effects of Legacy Copper Contamination on Microbial Activity and Soil Physical Properties
Research output: Research › Conference abstract for conference – Annual report year: 2012

Measuring binding and speciation of hydrophobic organic chemicals at controlled freely dissolved concentrations and without phase separation
Research output: Research - peer-review › Journal article – Annual report year: 2013

Partitioning of fluoranthene between free and bound forms in stormwater runoff and other urban discharges using passive dosing
Research output: Research - peer-review › Journal article – Annual report year: 2012

Pulmonary Surfactant Suppressed Phenanthrene Adsorption on Carbon Nanotubes through Solubilization and Competition As Examined by Passive Dosing Technique
Research output: Research - peer-review › Journal article – Annual report year: 2013

Recreating the seawater mixture composition of HOCs in toxicity tests with Artemia franciscana by passive dosing
Research output: Research - peer-review › Journal article – Annual report year: 2013

Sensitive Equilibrium Sampling To Study Polychlorinated Biphenyl Disposition In Baltic Sea Sediment
Research output: Research - peer-review › Journal article – Annual report year: 2013

Soil microbial and physical properties and their relations along a steep copper gradient
Research output: Research - peer-review › Journal article – Annual report year: 2013

Sorptive Bioaccessibility Extraction (SBE) of Soils: Combining a Mobilization Medium with an Absorption Sink
Research output: Research - peer-review › Journal article – Annual report year: 2013

Speciation of PAHs in stormwater
Research output: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Time-Weighted Average SPME Analysis for in Planta Determination of cVOCs
