The Universal Primer - An open source solution for archiving, organizing and streaming live lectures
Many disparate projects providing open access to educational videos are currently available or under development. These projects lack a unifying interface for accessing content, employ differing content licenses, and provide little or no infrastructure for user-contribution or live teaching. The goal of the Universal Primer is to address these problems, and allow anyone, anywhere, to teach or learn anything that can be reasonably taught or learned through a computer. The Universal Primer is 1: A fully open source solution for streaming live lectures. And 2: A Wikipedia-like website for uploading and organizing open-licensed community contributed educational material.

General information
State: Published
Organisations: Mathematical Statistics, Department of Informatics and Mathematical Modeling, Technical University of Denmark
Authors: Christoffersen, M. J. (Ekstern), Panton, H. C. H. (Ekstern), Krajowski-Kukiel, M. (Ekstern), Fotel, D. C. A. (Ekstern), Madsen, H. (Intern), Lassen, J. K. (Intern), Haarlev Olsen, P. O. (Intern), Christiansen, L. E. (Intern)
Publication date: 2011
