Research outputs:

Embryogenesis and early larval development in wild-caught Levantine scraper, Capoeta damascina (Valenciennes, 1842)
Research output: Research - peer-review › Journal article – Annual report year: 2018

Effect of parental origin on early life history traits of European eel
Research output: Research - peer-review › Journal article – Annual report year: 2018

Molecular ontogeny of first-feeding European eel larvae
Research output: Research - peer-review › Journal article – Annual report year: 2018

Assessing pre- and post-zygotic barriers between North Atlantic eels (Anguilla anguilla and A. rostrata)
Research output: Research - peer-review › Journal article – Annual report year: 2016

Temperature effects on gene expression and morphological development of European eel, Anguilla anguilla larvae
Research output: Research - peer-review › Journal article – Annual report year: 2017

Effects of salinity and sea salt type on egg activation, fertilization, buoyancy and early embryology of European eel, Anguilla anguilla
Research output: Research - peer-review › Journal article – Annual report year: 2015

First-feeding by European eel larvae: A step towards closing the life cycle in captivity
Research output: Research - peer-review › Journal article – Annual report year: 2016

First production of larvae using cryopreserved sperm: Effects of preservation temperature and cryopreservation on European eel sperm fertilization capacity
Research output: Research - peer-review › Journal article – Annual report year: 2016

Ontogeny and growth of early life stages of captive-bred European eel
Research output: Research - peer-review › Journal article – Annual report year: 2016

Understanding the processes behind fish stock dynamics: Where are we?
Research output: Research › Conference abstract for conference – Annual report year: 2017

Reaching out: Communicating the Danish Eel Expedition 2014
Research output: Communication › Poster – Annual report year: 2015
Does the ‘snot’ of the oceans matter? Engaging with the public on gelatinous zooplankton. Lessons learned from The Danish Eel Expedition 2014
Research output: Research › Conference abstract for conference – Annual report year: 2014

Ichthyodinium identified in the eggs of European eel (Anguilla anguilla) spawned in captivity
Research output: Research › peer-review › Journal article – Annual report year: 2014

Improving biophysical rearing conditions during early life stages of European eel
Research output: Research › Conference abstract for conference – Annual report year: 2014

Kunstig befrugtning og babyboom i ålens verden
Research output: Research › Conference abstract for conference – Annual report year: 2014

Larval production and survival during the early larval stage in European eel
Research output: Research › Paper – Annual report year: 2014

Microbial interference and potential control in culture of European eel (Anguilla anguilla) embryos and larvae
Research output: Research › peer-review › Journal article – Annual report year: 2014

Muscle development in European eel Anguilla anguilla yolksac larvae and effects of egg incubation temperature
Research output: Research › Paper – Annual report year: 2014

On the way to successful European eel larval rearing: Impact of biophysical conditions and gamete quality
Research output: Research › Ph.D. thesis – Annual report year: 2014

Standardization of fertilization protocols for the European eel, Anguilla anguilla
Research output: Research › peer-review › Journal article – Annual report year: 2014

Development of techniques and technology for embryonic and larval rearing of the European eel
Research output: Research › Poster – Annual report year: 2014

Effect of preservation temperature and cryopreservation on European eel sperm fertilization capacity. First production of larvae using cryopreserved sperm
Research output: Research › Poster – Annual report year: 2014

Evaluation of methods to determine sperm density for the European eel, Anguilla anguilla
Research output: Research › Poster – Annual report year: 2013

Evaluation of methods to determine sperm density for the European eel, Anguilla anguilla
Research output: Research › Poster – Annual report year: 2014

Microbial interference and potential control in the production of European eel Anguilla anguilla larvae
Research output: Research › Conference abstract for conference – Annual report year: 2013

Microbial interference with hatch and survival of European eel larvae
Research output: Research › Conference abstract for conference – Annual report year: 2013

Reproduction of European eel and larval culture: state of the art
Research output: Research › Paper – Annual report year: 2014

Techniques for rearing European eel during early life history
Research output: Research › Paper – Annual report year: 2014
Reproduction of European Eel in Aquaculture (REEL): Consolidation and new production methods
Research output: Research › Report – Annual report year: 2012

Reproduction of European eel: towards a self-sustained aquaculture (PRO-EEL)
Research output: Research › Conference abstract for conference – Annual report year: 2012

Sublethal effects of alizarin complexone marking on Baltic cod (Gadus morhua) eggs and larvae
Research output: Research › peer-review › Journal article – Annual report year: 2011

Produktion af torskelarver til udsætning i den østlige Østersø – RESTOCK
Research output: Research › Conference abstract in proceedings – Annual report year: 2009

The production of Baltic cod larvae for restocking in the eastern Baltic. RESTOCK I, 2005-2007
Research output: Research › Report – Annual report year: 2008

Kystfodring og kystøkologi: Evaluering af revlefodring ud for Fjaltring
Research output: Research › Report – Annual report year: 2007

Kystfodring og godt fiskeri: Undersøgelse af strandnær kystfodring ved Agger Tange
Research output: Research › Report – Annual report year: 2005

Projects:

Eel Egg and Larval development in Relation to Bio-Physical Characteristics and Gamete Quality
Project: PhD

Eel hatchery technology for a sustainable aquaculture (EEL-HATCH) (39181)
Project: Research

The early life of eel in the Sargasso Sea – Influence of oceanography and climate (SARGASSO-EEL) (39107)
Project: Research

RESTOCK (38566) (38400 pre-project)
Project: Research

Reproduction of European eel: Towards a self-sustained aquaculture (PRO-EEL) (38793)
Project: Research

Reproduction of European eel in aquaculture: Consolidation and new production methods (REEL) (38398)
Project: Research

Artificial reproduction of eels: Phase III (ROE III) (38187)
Project: Research
