Research outputs:

Operational measures to mitigate and reverse the potential modal shifts due to environmental legislation
Research output: Research - peer-review › Journal article – Annual report year: 2019

Prospects of cold ironing as an emissions reduction option
Research output: Research - peer-review › Journal article – Annual report year: 2019

Reducing Sulphur Emissions: Logistical and Environmental Considerations
Research output: Research - peer-review › Book chapter – Annual report year: 2019

A Game theoretic approach to improve compliance to sulphur regulations
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2018

Key performance indicators to assess and reverse the negative impacts of SECA policies for Ro-Ro Shipping
Research output: Research - peer-review › Journal article – Annual report year: 2018

Operational measures and logistical considerations for the decarbonisation of maritime transport
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2018

The impact of flexible environmental policy on maritime supply chain resilience
Research output: Research - peer-review › Journal article – Annual report year: 2018

The prospects of cold ironing as an emissions reduction option
Research output: Research - peer-review › Paper – Annual report year: 2018

Report on the outcome of Task 3.2: Measures from policy makers
Research output: Research › Report – Annual report year: 2018

The implications of the new sulphur limits on the European Ro-Ro sector
Research output: Research - peer-review › Journal article – Annual report year: 2017

Payback Period for Emissions Abatement Alternatives: Role of Regulation and Fuel Prices
Research output: Research - peer-review › Journal article – Annual report year: 2016

The implications of the new sulphur limits on the European Ro-Ro sector
Research output: Research - peer-review › Paper – Annual report year: 2017
Environmental Balance of Shipping Emissions Reduction Strategies
Research output: Research - peer-review › Journal article – Annual report year: 2015

Evaluation of cold ironing and speed reduction policies to reduce ship emissions near and at ports
Research output: Research - peer-review › Journal article – Annual report year: 2014

Projects:

Mitigating and reversing the side-effects of environmental legislation on Ro-Ro shipping in Northern Europe
Project: Research
