Assessing patterns of hybridization between North Atlantic eels using diagnostic single-nucleotide polymorphisms
Publication: Research - peer-review › Journal article – Annual report year: 2014

Do North Atlantic eels show parallel patterns of spatially varying selection?
Publication: Research - peer-review › Journal article – Annual report year: 2014

Eels in culture, fisheries and science in Denmark
Publication: Research - peer-review › Book chapter – Annual report year: 2013

Genome-wide single-generation signatures of local selection in the panmictic European eel
Publication: Research - peer-review › Journal article – Annual report year: 2014

Speciation and demographic history of Atlantic eels (Anguilla anguilla and A. rostrata) revealed by mitogenome sequencing
Publication: Research - peer-review › Journal article – Annual report year: 2014

A resource of genome-wide single-nucleotide polymorphisms generated by RAD tag sequencing in the critically endangered European eel
Publication: Research - peer-review › Journal article – Annual report year: 2013

Microevolution in time and space: SNP analysis of historical DNA reveals dynamic signatures of selection in Atlantic cod
Publication: Research - peer-review › Journal article – Annual report year: 2013

Voluntary angler logbooks reveal long-term changes in a lentic pike, Esox lucius, population
Publication: Research - peer-review › Journal article – Annual report year: 2013

A genome-wide study of panic disorder suggests the amiloride-sensitive cation channel 1 as a candidate gene.
Publication: Research - peer-review › Journal article – Annual report year: 2011

Oxygen isotope ratios in the shell of Mytilus edulis: archives of glacier meltwater in Greenland?
Publication: Research - peer-review › Journal article – Annual report year: 2012

Oxygen isotope ratios in the shell of Mytilus edulis: Archives of glacier meltwater in Greenland?
Publication: Research - peer-review › Journal article – Annual report year: 2012

The molecular basis of local adaptation: A case study focusing on brown trout (Salmo trutta L.)
Publication: Research › Ph.D. thesis – Annual report year: 2012

All roads lead to home: panmixia of European eel in the Sargasso Sea
Publication: Research - peer-review › Journal article – Annual report year: 2011

Association of the leucine-7 to proline-7 variation in the signal sequence of neuropeptide Y with major depression
Publication: Research - peer-review › Journal article – Annual report year: 2011

Differential timing of gene expression regulation between leptocephali of North Atlantic eels in the Sargasso Sea
Publication: Research - peer-review › Journal article – Annual report year: 2011
MBL and MASP-2 concentrations in serum and MBL2 promoter polymorphisms are associated to schizophrenia
Publication: Research - peer-review › Journal article – Annual report year: 2011

Survival and growth of parasitic Maculinea alcon caterpillars (Lepidoptera: Lycaenidae) in nests of three Myrmica ant species
Publication: Research - peer-review › Journal article – Annual report year: 2011

A comparison of SNP and STR loci for delineating population structure and performing individual genetic assignment
Publication: Research - peer-review › Journal article – Annual report year: 2010

An otolith microchemistry study of possible relationships between the origins of leptocephali of European eels in the Sargasso Sea and the continental destinations and relative migration success of glass eels
Publication: Research - peer-review › Journal article – Annual report year: 2010

Oceanic fronts in the Sargasso Sea control the early life and drift of Atlantic eels
Publication: Research - peer-review › Journal article – Annual report year: 2010

Qualitative assessment of the diet of European eel larvae in the Sargasso Sea resolved by DNA barcoding
Publication: Research - peer-review › Journal article – Annual report year: 2010

Support for a bipolar affective disorder susceptibility locus on chromosome 12q24.3
Publication: Research - peer-review › Journal article – Annual report year: 2010

Support of association between BRD1 and both schizophrenia and bipolar affective disorder
Publication: Research - peer-review › Journal article – Annual report year: 2009

Panmixia in the European eel? – population genetics matters
Publication: Research › Conference abstract for conference – Annual report year: 2009

A genome-wide search for risk genes using homozygosity mapping and microarrays in 25 Eastern Cuban families with bipolar disorder shows suggestive evidence of linkage to chromosomes 6q26-q27 and 17q25.3
Publication: Research - peer-review › Journal article – Annual report year: 2008

A mosaic of chemical coevolution in a large blue butterfly
Publication: Research - peer-review › Journal article – Annual report year: 2008

Reproductive isolation, evolutionary distinctiveness and setting conservation priorities: The case of European lake whitefish and the endangered North Sea houting (Coregonus spp.)
Publication: Research - peer-review › Journal article – Annual report year: 2008

A genome-wide search for alleles and haplotypes associated with autism and related pervasive developmental disorders on the Faroe Islands
Publication: Research - peer-review › Journal article – Annual report year: 2006

Association analyses suggest GPR24 as a shared susceptibility gene for bipolar affective disorder and schizophrenia
Publication: Research - peer-review › Journal article – Annual report year: 2006

Association to markers in the 19P13 region in panic disorder samples from the genetically isolated Faroe Islands
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2006
Cryptic relatedness among cases and controls in two isolated populations
Publication: Research › Conference abstract in proceedings – Annual report year: 2006

Genetics of panic disorder on the Faroe Islands: a replication study of chromosome 9 and panic disorder
Publication: Research - peer-review › Journal article – Annual report year: 2006

Highly discrepant proportions of female and male Scandinavian and British Isles ancestry within the isolated population of the Faroe Islands
Publication: Research - peer-review › Journal article – Annual report year: 2006

Schizophrenia and MBL deficiency: Proper handling of MBL detection limit?
Publication: Research › Conference abstract in proceedings – Annual report year: 2006

A genome-wide search for risk genes using homozygosity mapping and microarrays with 1,494 single-nucleotide polymorphisms in 22 eastern Cuban families with bipolar disorder
Publication: Research - peer-review › Journal article – Annual report year: 2005

A genome-wide search for shared alleles and haplotypes in distantly related patients with bipolar affective disorder or schizophrenia from the Faroe Islands
Publication: Research › Conference abstract in proceedings – Annual report year: 2005

Association analysis suggesting GPR24 as a shared susceptibility gene for bipolar affective disorder and schizophrenia
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2005

Microsatellite markers for the large blue butterflies Maculinea nausithous and Maculinea alcon (Lepidoptera: Lycaenidae) and their amplification in other Maculinea species
Publication: Research - peer-review › Journal article – Annual report year: 2005

Simulation based power of association analysis in an isolated population
Publication: Research › Conference abstract in proceedings – Annual report year: 2005

The glutamate decarboxylase gene 1 as a potential candidate gene for autism
Publication: Research › Conference abstract in proceedings – Annual report year: 2005

A genome-wide screen for risk genes in 24 patients with bipolar disorder from Cuban inbred families by using homozygosity mapping
Publication: Research › Conference abstract in proceedings – Annual report year: 2004

A search for association of markers and segments on chromosome 2 with bipolar affective disorder and schizophrenia in patients from the Faroe Islands
Publication: Research › Conference abstract in proceedings – Annual report year: 2004

Association to markers near the SLC6A4 gene in panic disorder samples from the genetic isolate of Faroe Islands
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2004

Possible evidence for a common risk locus for bipolar affective disorder and schizophrenia on chromosome 4p16 in patients from the Faroe Islands
Publication: Research - peer-review › Journal article – Annual report year: 2004

Search for association with markers and segments on chromosome 15 in autistic individuals from the isolated population on the Faroe Islands
Publication: Research › Conference abstract in proceedings – Annual report year: 2004
The evolution of alternative parasitic life histories in large blue butterflies
Publication: Research - peer-review › Journal article – Annual report year: 2004

The origin of the isolated population of the Faroe Islands investigated using Y chromosomal markers
Publication: Research - peer-review › Journal article – Annual report year: 2004

A search for common alleles and haplotypes on chromosome 21Q in patients with bipolar affective disorder or schizophrenia from the Faroe Islands
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2003

Genetics and genomics of neurobehavioral disorders (contemporary clinical neuroscience)
Publication: Research - peer-review › Review – Annual report year: 2003

Psychiatric genetics: Methods and reviews (Methods in Molecular MedicineTM, No. 77)
Publication: Research - peer-review › Review – Annual report year: 2003

Schizophrenia co-occurring with Crohn's disease and polycystic kidney disease
Publication: Research › Conference abstract in proceedings – Annual report year: 2003

Chance findings and chance replication in a study of recurrent depression?
Publication: Research - peer-review › Journal article – Annual report year: 2002

Geographical variation in host-ant specificity of the parasitic butterfly Maculinea alcon in Denmark
Publication: Research - peer-review › Journal article – Annual report year: 2002

Haplotype pattern mining on chromosome 22q in patients with bipolar disorder or schizophrenia from the Faroe Islands
Publication: Research › Conference abstract in proceedings – Annual report year: 2002

Adoption of parasitic Maculinea alcon caterpillars (Lepidoptera : Lycaenidae) by three Myrmica ant species
Publication: Research - peer-review › Journal article – Annual report year: 2001

Evolutionary and ecological interactions between Maculinea parasites and their Myrmica ant hosts
Publication: Research › Ph.D. thesis – Annual report year: 2001

Hatching asynchrony in Linnets: the effects of nest predation and food demand of nestlings
Publication: Research - peer-review › Journal article – Annual report year: 2000
