Publications:

1. **Abundance and diversity of the faecal resistome in slaughter pigs and broilers in nine European countries**
   - Publication: Research - peer-review › Journal article – Annual report year: 2018

2. **Environmental sustainable decision making – The need and obstacles for integration of LCA into decision analysis**
   - Publication: Research - peer-review › Journal article – Annual report year: 2018

3. **Source Attribution and Risk Assessment of Antimicrobial Resistance**
   - Publication: Research - peer-review › Journal article – Annual report year: 2018

4. **Trends and sources in human salmonellosis**
   - Publication: Research - peer-review › Report chapter – Annual report year: 2018

5. **Applying LCA in decision making- the need and the future perspective**
   - Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2017

6. **Attribution of global foodborne disease to specific foods: Findings from a World Health Organization structured expert elicitation**
   - Publication: Research - peer-review › Journal article – Annual report year: 2017

7. **Cross-sectional survey on the use and impact of the Danish national antibiotic use guidelines for companion animal practice**
   - Publication: Research - peer-review › Journal article – Annual report year: 2017

8. **Framework to Define Structure and Boundaries of Complex Health Intervention Systems: The ALERT Project**
   - Publication: Research - peer-review › Journal article – Annual report year: 2017

9. **Modelling Dietary Exposure to Chemical Components in Heat-Processed Meats**
   - Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2017

10. **Probabilistic quantitative microbial risk assessment model of farmer exposure to Cryptosporidium spp. in irrigation water within Kumasi Metropolis-Ghana**
    - Publication: Research - peer-review › Journal article – Annual report year: 2017
Probabilistic quantitative microbial risk assessment model of norovirus from wastewater irrigated vegetables in Ghana using genome copies and fecal indicator ratio conversion for estimating exposure dose
Publication: Research - peer-review › Journal article – Annual report year: 2017

"Recycled paper for food packaging: burden of disease methodology to link sustainability and safety"
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

An Approach to Cluster EU Member States into Groups According to Pathways of Salmonella in the Farm-to-Consumption Chain for Pork Products
Publication: Research - peer-review › Journal article – Annual report year: 2016

Application of Molecular Typing Results in Source Attribution Models: The Case of Multiple Locus Variable Number Tandem Repeat Analysis (MLVA) of Salmonella Isolates Obtained from Integrated Surveillance in Denmark
Publication: Research - peer-review › Journal article – Annual report year: 2016

A Quantitative Microbiological Risk Assessment for Salmonella in Pigs for the European Union
Publication: Research - peer-review › Journal article – Annual report year: 2016

A risk-based approach for evaluation of hygiene performance at pig slaughter
Publication: Research - peer-review › Journal article – Annual report year: 2016

Assessing the Effectiveness of On-Farm and Abattoir Interventions in Reducing Pig Meat–Borne Salmonellosis within E.U. Member States
Publication: Research - peer-review › Journal article – Annual report year: 2016

Characterization of the Human Risk of Salmonellosis Related to Consumption of Pork Products in Different E.U. Countries Based on a QMRA
Publication: Research - peer-review › Journal article – Annual report year: 2016

Danske dyrlægers brug af Antibiotikavejledning til familiedyr: en spørgeskemaundersøgelse
Publication: Research - peer-review › Journal article – Annual report year: 2017

Evaluation of a Performance-Based Expert Elicitation: WHO Global Attribution of Foodborne Diseases
Publication: Research - peer-review › Journal article – Annual report year: 2016

Non-plastic food contact materials: classification of chemicals using predictive models
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2016

Quantitative Microbiological Risk Assessment and Source Attribution for Salmonella: Taking it Further
Publication: Research - peer-review › Journal article – Annual report year: 2016

Publication: Research - peer-review › Journal article – Annual report year: 2016

World Health Organization Estimates of the Relative Contributions of Food to the Burden of Disease Due to Selected Foodborne Hazards: A Structured Expert Elicitation
Publication: Research - peer-review › Journal article – Annual report year: 2016

Accounting for Campylobacter biology and epidemiology in source attribution modelling
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015
EFSA BIOHAZ Panel (EFSA Panel on Biological Hazards), 2014. Scientific Opinion on the scrapie situation in the EU after 10 years of monitoring and control in sheep and goats
Publication: Commissioned - peer-review › Report – Annual report year: 2014

EFSA BIOHAZ Panel (EFSA Panel on Biological Hazards), 2014. Statement on the update of the list of QPS-recommended biological agents intentionally added to food or feed as notified to EFSA 1: Suitability of taxonomic units notified to EFSA until October 2014
Publication: Commissioned - peer-review › Report – Annual report year: 2014

Projekt 15: Tilpasning af den offentlige kontrol - risikobaseret kødkontrol
Publication: Commissioned › Report – Annual report year: 2014

Relative human risk of Salmonella Enteritidis in table eggs
Publication: Research - peer-review › Report chapter – Annual report year: 2015

Source attribution of human campylobacteriosis in Denmark
Publication: Research - peer-review › Journal article – Annual report year: 2013

Source Attribution of Human Salmonellosis: An Overview of Methods and Estimates
Publication: Research - peer-review › Journal article – Annual report year: 2014

The interaction between human antimicrobial use and the risk of foodborne zoonotic bacteria
Publication: Research › Ph.D. thesis – Annual report year: 2014

Trends and sources in human salmonellosis
Publication: Research › Report chapter – Annual report year: 2015

A multi-country approach for attributing human salmonellosis to animal reservoirs: Global perspectives and application of surveillance data from the European Union
Publication: Research › Ph.D. thesis – Annual report year: 2014

Attributing foodborne salmonellosis in humans to animal reservoirs in the European Union using a multi-country stochastic mode
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

EFSA BIOHAZ Panel (EFSA Panel on Biological Hazards), 2013. Scientific Opinion on the public health hazards to be covered by inspection of meat (bovine animals).
Publication: Commissioned - peer-review › Report – Annual report year: 2013

EFSA BIOHAZ Panel (EFSA Panel on Biological Hazards), 2013. Scientific Opinion on the public health hazards to be covered by inspection of meat from farmed game
Publication: Commissioned - peer-review › Report – Annual report year: 2013

EFSA BIOHAZ Panel (EFSA Panel on Biological Hazards, 2013. Scientific Opinion on the public health hazards to be covered by inspection of meat from sheep and goats.
Publication: Commissioned - peer-review › Report – Annual report year: 2013

EFSA BIOHAZ Panel (EFSA Panel on Biological Hazards), 2013. Scientific Opinion on the public health hazards to be covered by inspection of meat (solipeds)
Publication: Commissioned - peer-review › Report – Annual report year: 2013
Development of a user-friendly interface version of the Salmonella source-attribution model
Publication: Research - peer-review › Report – Annual report year: 2013

EFSA Panel on Biological Hazards (BIOHAZ) and EFSA Panel on Contaminants in the Food Chain (CONTAM); Scientific Opinion on the minimum hygiene criteria to be applied to clean seawater and on the public health risks and hygiene criteria for bottled seawater intended for domestic use
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ) and Panel on Food Contact Materials, Enzymes, Flavourings and Processing Aids (CEF); Scientific Opinion on the evaluation of the safety and efficacy of Cecure® for the removal of microbial surface contamination of raw poultry products
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Norovirus (NoV) in oysters: methods, limits and control options
Publication: Commissioned - peer-review › Report – Annual report year: 2013

EFSA Panel on Biological Hazards (BIOHAZ) Panel; Scientific Opinion on the risk posed by pathogens in food of non-animal origin. Part 1 (outbreak data analysis and risk ranking of food/pathogen combinations)
Publication: Research - peer-review › Report – Annual report year: 2013

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on an estimation of the public health impact of setting a new target for the reduction of Salmonella in turkeys
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on a review on the European Union Summary reports on trends and sources zoonoses, zoonotic agents and food-borne outbreaks in 2009 and 2010 – specifically for the data on Salmonella, Campylobacter, verotoxigenic Escherichia coli, Listeria monocytogenes and foodborne outbreaks
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on Composting and incineration of dead-on-farm pigs
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on on the development of a risk ranking framework on biological hazards
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on public health risks represented by certain composite products containing food of animal origin
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on Reflecting on the experiences and lessons learnt from modelling on biological hazards
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on the „Biomation“ application for an alternative method for the treatment of animal-by-products
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on the evaluation of the safety and efficacy of ListexTM P100 for the removal of Listeria monocytogenes surface contamination of raw fish
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on the risk posed by Shiga toxinproducing Escherichia coli (STEC) and other pathogenic bacteria in seeds and sprouted seeds
Publication: Research - peer-review › Report – Annual report year: 2012
EFSA Panels on Biological Hazards (BIOHAZ), on Contaminants in the Food Chain (CONTAM), and on Animal Health and Welfare (AHAW); Scientific Opinion on the public health hazards to be covered by inspection of meat (poultry)
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Scientific Committee; Scientific Opinion on Risk Assessment Terminology
Publication: Research - peer-review › Report – Annual report year: 2012

Source attribution of human campylobacteriosis using a meta-analysis of case-control studies of sporadic infections
Publication: Research - peer-review › Journal article – Annual report year: 2012

Source attribution of human salmonellosis using a meta-analysis of case-control studies of sporadic infections
Publication: Research - peer-review › Journal article – Annual report year: 2012

Trends and sources in human salmonellosis
Publication: Report chapter – Annual report year: 2012

Vurdering fra DTU Fødevareinstituttet: Mikrobiologiske risici ved frugt og grønt
Publication: Commissioned › Report – Annual report year: 2012

DANMAP 2010: DANMAP 2010 - Use of antimicrobial agents and occurrence of antimicrobial resistance in bacteria from food animals, food and humans in Denmark
Publication: Research › Report – Annual report year: 2011

Analysis of the baseline survey on the prevalence of Campylobacter in broiler batches and of Campylobacter and Salmonella on broiler carcasses, in the EU, 2008. Part B: Analysis of factors associated with Salmonella contamination of broiler carcasses
Publication: Research - peer-review › Report – Annual report year: 2012

Antimicrobial Use: A Risk Factor or a Protective Factor for Acquiring Campylobacteriosis?
Publication: Research - peer-review › Journal article – Annual report year: 2011

Association Between Antimicrobial Resistance in Escherichia coli Isolates from Food Animals and Blood Stream Isolates from Humans in Europe: An Ecological Study
Publication: Research - peer-review › Journal article – Annual report year: 2011

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on a quantitative estimation of the public health impact of setting a new target for the reduction of Salmonella in broilers
Publication: Commissioned - peer-review › Report – Annual report year: 2011

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on Composting on-farm of dead poultry
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on On-site treatment of pig carcasses
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on Scientific Opinion on risk based control of biogenic amine formation in fermented foods
Publication: Research - peer-review › Report – Annual report year: 2012

EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on the maintenance of the list of QPS biological agents intentionally added to food and feed (2011 update)
Publication: Research - peer-review › Report – Annual report year: 2012
EFSA Panel on Biological Hazards (BIOHAZ); Scientific Opinion on the public health risks of bacterial strains producing extended-spectrum β-lactamases and/or AmpC β-lactamases in food and food-producing animals
Publication: Commissioned - peer-review › Report – Annual report year: 2011

EFSA Panels on Biological Hazards (BIOHAZ), on Contaminants in the Food Chain (CONTAM), and on Animal Health and Welfare (AHAW); Scientific Opinion on the public health hazards to be covered by inspection of meat (swine).
Publication: Commissioned - peer-review › Report – Annual report year: 2011

Estimation of the relative contribution of different food and animal sources to human Salmonella infections in the European Union
Publication: Research › Report – Annual report year: 2012

European Food Safety Authority; Analysis of the baseline survey of Salmonella in holdings with breeding pigs, in the EU, 2008; Part B: Analysis of factors potentially associated with Salmonella pen positivity
Publication: Research - peer-review › Report – Annual report year: 2012

Risk assessment of antimicrobial usage in Danish pig production on the human exposure to antimicrobial resistant bacteria from pork
Publication: Research › Ph.D. thesis – Annual report year: 2012

Salmonella Source Attribution in Japan by a Microbiological Subtyping Approach
Publication: Research - peer-review › Journal article – Annual report year: 2011

Analysis of the baseline survey on the prevalence of Campylobacter in broiler batches and of Campylobacter and Salmonella on broiler carcasses in the EU, 2008, Part A: Campylobacter and Salmonella prevalence estimates
Publication: Research - peer-review › Report – Annual report year: 2010

Assessing the Differences in Public Health Impact of Salmonella Subtypes Using a Bayesian Microbial Subtyping Approach for Source Attribution
Publication: Research - peer-review › Journal article – Annual report year: 2010

EFSA Panel on Biological Hazards; Scientific Opinion on a Quantitative Microbiological Risk Assessment of Salmonella in slaughter and breeder pigs
Publication: Commissioned - peer-review › Report – Annual report year: 2010

Integrated Approaches for the Public Health Prioritization of Foodborne and Zoonotic Pathogens
Publication: Research - peer-review › Journal article – Annual report year: 2010

Quantitative Microbiological Risk Assessment on Salmonella in Slaughter and Breeder pigs: Final Report
Publication: Research - peer-review › Report – Annual report year: 2010

Salmonellaforekomsten i danske svin stiger
Publication: Research - peer-review › Journal article – Annual report year: 2010

Scientific Opinion on a quantitative estimation of the public health impact of setting a new target for the reduction of Salmonella in laying hens
Publication: Research - peer-review › Report – Annual report year: 2010

Scientific Opinion on the maintenance of the list of QPS biological agents intentionally added to food and feed (2010 update); EFSA on Biological Hazards (BIOHAZ)
Publication: Research - peer-review › Report – Annual report year: 2010
Using Outbreak Data for Source Attribution of Human Salmonellosis and Campylobacteriosis in Europe
Publication: Research - peer-review › Journal article – Annual report year: 2010

Attributing the Human Disease Burden of Foodborne Infections to Specific Sources
Publication: Research - peer-review › Review – Annual report year: 2009

De danske systemer til overvågning og kontrol af salmonella: Et kritisk eftersyn
Publication: Research › Report – Annual report year: 2009

Source attribution of human salmonellosis and campylobacteriosis using a systematic review of studies of sporadic infections
Publication: Research - peer-review › Conference abstract for conference – Annual report year: 2009

Statement on technical assistance related to the EFSA opinion on transformation of Animal By-Products into biogas and compost: Question No EFSA-Q-2009-00654
Publication: Research - peer-review › Report – Annual report year: 2009

The effects, costs and benefits of salmonella control in the Danish table-egg sector
Publication: Research - peer-review › Journal article – Annual report year: 2009

Attributing the human disease burden of foodborne infections to specific sources
Publication: Research - peer-review › Article in proceedings – Annual report year: 2008

Estimating differences in public health impact between Salmonella subtypes and food sources
Publication: Research - peer-review › Article in proceedings – Annual report year: 2008

EU-wide baseline studies: achievements and difficulties faced
Publication: Research - peer-review › Journal article – Annual report year: 2008

Is future progress in consumer safety of pork in Denmark dependent on carcass decontamination?
Publication: Research › Conference abstract for conference – Annual report year: 2008

Report of the Task Force on Zoonoses Data Collection on the Analysis of the baseline survey on the prevalence of Salmonella in slaughter pigs, Part B: Question N° EFSA-Q-2006-042B
Publication: Research - peer-review › Report – Annual report year: 2008

Salmonella Source Attribution: Estimating differences in public-health impact between Salmonella subtypes and food sources
Publication: Research › Article in proceedings – Annual report year: 2008

Salmonella source attribution in different European countries
Publication: Research - peer-review › Article in proceedings – Annual report year: 2008

The attribution of human infections with antimicrobial resistant Salmonella bacteria in Denmark to sources of animal origin
Publication: Research - peer-review › Poster – Annual report year: 2008

Human salmonellosis attribution by exposure assessment
Publication: Research › Article in proceedings – Annual report year: 2007

New strategies for the use of microbiological examinations in food control in Denmark
Publication: Research - peer-review › Journal article – Annual report year: 2007
Report of the Task Force on Zoonoses Data Collection on the Analysis of the baseline survey on the prevalence of Salmonella in broiler flocks of Gallus gallus, Part A
Publication: Research - peer-review › Report – Annual report year: 2007

Report of the Task Force on Zoonoses Data Collection on the Analysis of the baseline survey on the prevalence of Salmonella in holdings of broiler flocks of Gallus gallus, Part B
Publication: Research - peer-review › Report – Annual report year: 2007

The attribution of human infections with antimicrobial resistant Salmonella bacteria in Denmark to sources of animal origin
Publication: Research - peer-review › Journal article – Annual report year: 2007

Towards an integrated approach in supporting microbiological food safety decisions
Publication: Research - peer-review › Journal article – Annual report year: 2007

380.000 syge af fødevarebårne infektioner i EU
Publication: Research › Journal article – Annual report year: 2006

Annual Report on Zoonoses in Denmark 2006
Publication: Research - peer-review › Report – Annual report year: 2006

Annual Report on Zoonoses in Denmark in 2005
Publication: Research - peer-review › Report – Annual report year: 2006

Case study: Salmonella Enteritidis in table eggs: Background paper for the FAO/WHO Consultation on "Development of Practical Risk Management Strategies based on Microbiological Risk Assessment Outputs"
Publication: Research › Report – Annual report year: 2006

Human health impact of Salmonella contamination in imported soybean products: A semiquantitative risk assessment
Publication: Research - peer-review › Journal article – Annual report year: 2006

Preliminary Report: Analysis of the baseline study on the prevalence of Salmonella in laying hen flocks of Gallus gallus
Publication: Research - peer-review › Report – Annual report year: 2006

Salmonella contamination in soya-based animal feed: a food safety issue?
Publication: Research › Article in proceedings – Annual report year: 2006

Salmonella contamination in soya-based animal feed - a food safety issue?
Publication: Research › Conference abstract for conference – Annual report year: 2006

The Attribution of Animal-food Sources to Human Salmonellosis
Publication: Research › Poster – Annual report year: 2006

The development of generic risk modules to respond promptly to food safety issues
Publication: Research › Conference abstract for conference – Annual report year: 2006

The effects, costs and benefits of Salmonella surveillance in the Danish table-egg sector
Publication: Research › Article in proceedings – Annual report year: 2006

The effects, costs and benefits of Salmonella surveillance in the Danish table-egg sector
Publication: Research › Poster – Annual report year: 2006
Annual Report on Zoonoses in Denmark 1998
Publication: Research › Report – Annual report year: 1999

Annual Report on zoonoses in Denmark 1997
Publication: Research › Report – Annual report year: 1997

Salmonella typhimurium udbrud på Fyn sensommeren 1996: En case-kontrol undersøgelse
Publication: Research - peer-review › Journal article – Annual report year: 1997

Annual Report on Zoonoses in Denmark 1996
Publication: Research - peer-review › Report – Annual report year: 1996

Projects:

Comparison of ADDs used in VetStat with primary data on usage doses obtained at visits in 20 Danish pig herds
Project

COMPARE WG 1, Task 1.2: Development of a novel approach for food chain risk assessment based on NGS data
Project

Tools for source attribution based on ngs data
Project: PhD

Quantification of exposure to AMR through different transmission routes from animals to humans
Project

Global Decision Support Initiative
Project

Attribution of human cases of salmonellosis to different animal reservoirs of the food chain in Denmark
Project

EFFORT: Ecology from farm to fork of microbial drug resistance and transmission
Project

The epidemiology of zoonotic antimicrobial resistance in animal production
Project: PhD

Risikorangering af frisk frugt og grønt
Project

Salmonella source attribution using molecular typing data
Project

Risk based control in pig slaughter
Project: PhD

Development of a Salmonella source-attribution model for evaluating targets in the turkey meat production
Project
The future approach for Salmonella source attribution

Global surveillance of Salmonella in animals, food and humans: Identification of major sources and analysis of global trends

Global surveillance of Salmonella in animals, food and humans: Identification of major sources and analysis of global trends
Project: PhD

Analyses of data on Salmonella serovars and phage types derived from animals and food in the European Union

The interaction between drug use and the risk of infection with foodborne zoonotic bacteria
Project: PhD

Evaluation and optimisation of surveillance programmes for antimicrobial resistance and drug use

Evaluation and optimisation of surveillance programmes for antimicrobial resistance and drug use

Evaluering og optimering af overvågningsprogrammer for antibiotika resistens og antibiotikaforbrug
Project: PhD

Campylobacter - human eksponering, smittenlde og Bekæmpelsestiltag
Project: PhD

EFSA Quantitative Microbiological Risk Assessment on Salmonella in Slaughter and Breeder pigs

Balancing microbiological safety against other food quality parameters

Balancing microbiological safety against other food quality parameters (QUALYSAFE)

Activities:

Incorporation of machine learning methods for whole genome sequencing based risk prediction and source attribution: case of Listeria monocytogenes
Activity: Talks and presentations › Conference presentations

Applying LCA in decision making - the need and the future perspective
Activity: Talks and presentations › Conference presentations

One Health International Summer Course 2017
Activity: Attending an event › Participating in or organising workshops, courses, seminars etc.

Applying LCA in decision making - the need and the future perspective
Activity: Talks and presentations › Conference presentations
Burden of disease of barbecued meat - who's at risk?
Activity: Talks and presentations › Conference presentations

Source attribution: Translating science into public health action
Activity: Talks and presentations › Conference presentations

Burden of disease and source attribution
Activity: Talks and presentations › Guest lectures, external teaching and course activities at other universities

Waldemir Santiago Neto
Activity: Hosting a guest lecturer

Epidemiology and control of Taenia solium in Africa
Activity: Examinations and supervision › Internal examination

Descriptive study of antibiotic resistance and resistance determinants in indicator E. coli from Danish and imported meat and Danish animals using whole genome sequencing (WGS) and phenotypic resistance determination
Activity: Examinations and supervision › Supervisor activities

Master i Fødevarekvalitet og - sikkerhed
Activity: Talks and presentations › Guest lectures, external teaching and course activities at other universities

Molecular epidemiological studies of Campylobacter isolated from different sources in New Zealand between 2005 and 2015.
Activity: Examinations and supervision › Internal examination

Attributing the disease burden to different food groups - will it be easier in the future
Activity: Talks and presentations › Conference presentations

Global Surveillance
Activity: Talks and presentations › Conference presentations
