Multi-objective optimization of microstructure enhanced plate heat exchangers for organic Rankine cycle power systems - DTU Orbit (01/12/2018)

MicroPHE: Multi-objective optimization of microstructure enhanced plate heat exchangers for organic Rankine cycle power systems

Haglind, F., PI, Thermal Energy, Department of Mechanical Engineering
Zhu, X., Project Applicant, Thermal Energy, Department of Mechanical Engineering
01/10/2017 → 30/09/2019
Project: Research
