A rapid room temperature chemical route for the synthesis of graphene: metal-mediated reduction of graphene oxide

A rapid and facile route for the synthesis of reduced graphene oxide sheets (rGOs) at room temperature by the chemical reduction of graphene oxide using Zn/acid in aqueous solution is demonstrated.

General information
Publication status: Published
Organisations: National Aerospace Laboratories, Indian Institute of Technology, Kharagpur
Contributors: Dey, R. S., Hajra, S., Sahu, R. K., Raj, C. R., Panigrahi, M.
Pages: 1787-1789
Publication date: 2012
Peer-reviewed: Yes
