Crystallization Kinetics within a Generic Modelling Framework

An existing generic modelling framework has been expanded with tools for kinetic model analysis. The analysis of kinetics is carried out within the framework where kinetic constitutive models are collected, analysed and utilized for the simulation of crystallization operations. A modelling procedure is proposed to gain the information of crystallization operation kinetic model analysis and utilize this for faster evaluation of crystallization operations.

General information
State: Published
Organisations: Department of Chemical and Biochemical Engineering, Computer Aided Process Engineering Center, Center for Energy Resources Engineering, CERE – Center for Energy Resources Engineering, Center for Process Engineering and Technology
Contributors: Meisler, K. T., von Solms, N., Gernaey, K., Gani, R.
Pages: 176-183
Publication date: 2013

Host publication information
Title of host publication: Proceedings of 20th International Workshop on Industrial Crystallization (BIWIC2013)
Source: dtu
Source-ID: u::9395
Research output: Research - peer-review » Article in proceedings – Annual report year: 2013
