Density Functional Theory Study of Redox Potential Shifts in LiₓMnyFe₁₋ₓPO₄ Battery Electrodes - DTU Orbit (14/03/2019)

Density Functional Theory Study of Redox Potential Shifts in LiₓMnₓFe₁₋ₓPO₄ Battery Electrodes, / Loftager, Simon; Schougaard, Steen Brian; Vegge, Tejs; Garcia Lastra, Juan Maria.
Research output: Research - peer-review › Journal article – Annual report year: 2019
