Experimental and numerical investigation on the shear strength of glulam - DTU Orbit
(18/04/2019)

Experimental and numerical investigation on the shear strength of glulam

General information
Publication status: Published
Organisations: Section for Structural Engineering, Department of Civil Engineering, Lund University, Limträteknik AB
Contributors: Crocetti, R., Gustafsson, P. J., Danielsson, H., Emilsson, A., Ormarsson, S.
Publication date: 2010

Host publication information
Title of host publication: International Council for Research and Innovation in Building and construction : Working Commission - W18 Timber Structures
Source: orbit
Source-ID: 266716
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2010 › Research › peer-review
