Indirect Hydrogen storage in Metal Amine Complexes for Portable Devices - DTU Orbit

(15/12/2018)

Indirect Hydrogen storage in Metal Amine Complexes for Portable Devices

General information
State: Published
Organisations: Department of Chemistry, Department of Physics, Centre for Catalysis and Sustainable Chemistry
Contributors: Asbjørn, K., Sørensen, R. Z., Nørskov, J. K., Christensen, C. H.
Publication date: 2008
Peer-reviewed: Yes
Research output: Research - peer-review › Conference abstract for conference – Annual report year: 2008
