In-situ ETEM Study of Nucleation and Growth Termination Mechanism of Single-Wall Carbon Nanotubes - DTU Orbit (29/12/2018)
Zhang, Lili ; Kling, Jens ; He, Maoshuai ; Hansen, Thomas Willum ; Jiang, Hua ; Kauppinen, Esko I. ; Wagner, Jakob Birkedal. / In-situ ETEM Study of Nucleation and Growth Termination Mechanism of Single-Wall Carbon Nanotubes. Abstract from 18th International Conference on the Science and Application of Nanotubes and Low-dimensional Materials, Belo Horizonte, Brazil.
