Challenges to application of the three points approach (3PA) - ambiguity in definition of event magnitude, spatial scales and goals
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Development and validation of a novel monitoring system for batch flocculant solids settling process
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

From vision to operation - Smart real-time control of water systems in Aarhus, Denmark
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Greenhouse gas emissions from integrated urban drainage systems: where do we stand?
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

How much can we trust data from the real world? Assessing the performance of online sensors for CSO monitoring when operated in non-ideal conditions
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Model predictive control for urban drainage: testing with a nonlinear hydrodynamic model
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Revisiting conceptual stormwater quality models by reconstructing virtual state-variables
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Simple control strategy for mitigating N2O emissions in phase isolated full-scale WWTPs
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2017

Spatial bias and uncertainty in numerical weather predictions for urban runoff forecasts with long time horizons
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017
Superstructure-based optimization tool for plant design and retrofitting
Publication: Research - peer-review › Book chapter – Annual report year: 2018

Towards a domain-based framework for use of rainfall forecasts in control of integrated urban wastewater systems
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Training the urban water engineers of the future – the challenge of stormwater TSS models
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Using a time-lagged method to enhance Numerical Weather Prediction for urban drainage applications
Publication: Research - peer-review › Article in proceedings – Annual report year: 2017

Data Handling and Parameter Estimation
Publication: Research - peer-review › Book chapter – Annual report year: 2016

Urban drainage research and planning. Quo vadis?
Publication: Research - peer-review › Book chapter – Annual report year: 2016

A comprehensive 454 survey provides insights into microbial diversity and community structure in rapid sand filters
Publication: Research - peer-review › Article in proceedings – Annual report year: 2015

Removal of pesticides with filter sand from biological rapid sand filters
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Stimulation of Nitrification in Biological Rapid Sand Filters by Addition of Phosphorus and Trace Metals
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2015

Benchmarking of Control Strategies for Wastewater Treatment Plants
Publication: Research - peer-review › Book – Annual report year: 2014

Describing concurrent flood hazards in a risk assessment decision framework using a bayesian network methodology
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2014
Describing concurrent flood hazards in a risk assessment decision framework using a Bayesian network methodology
Publication: Research - peer-review › Article in proceedings – Annual report year: 2014

Extreme precipitation in a future climate-assessing climate factors at sub-daily scales from regional climate model projections
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2014

Highly stable and reactive nZVI synthesis with Mg-aminoclay and aging characteristics for practical application
Publication: Research - peer-review › Article in proceedings – Annual report year: 2014

Implications of long-term oscillations in rainfall extremes on urban drainage design practices
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2014

Modelling the impact of retention-detention units on sewer surcharge and peak and annual runoff reduction
Publication: Research - peer-review › Article in proceedings – Annual report year: 2014

Nano- and microparticles and associated pollutants in stormwater runoff: effects of disc filtration with and without flocculant addition
Publication: Research - peer-review › Article in proceedings – Annual report year: 2014

Holistic assessment of a secondary water supply for a new development in Copenhagen, Denmark
Publication: Research - peer-review › Article in proceedings – Annual report year: 2013

Innovative Two-stage Engineering Solutions for Resource Recovery via Downstream Cultivation of Green Microalgae
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013
Removal of perfluorinated compounds from water with activated carbon and advanced oxidation processes (AOPs)
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Required ozone doses for removing pharmaceuticals from wastewater effluents
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Sorption of perfluorinated compounds onto different types of sludge
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2013

Application of chemical oxidation for removal of pharmaceuticals in wastewater effluents
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Decadic Delivered O3 Doses of 50 API's from WWTP Effluents
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Impacts of Climate Change on Rainfall Extremes and Urban Drainage Systems
Publication: Research - peer-review › Book – Annual report year: 2012

Pharmaceutical removal with biofilm carriers and activated sludge
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Pre-treatments to control bromate formation during ozonation
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Selecting the cost effective treatment option for prioritized pharmaceuticals
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Sorption – Distribution Of Pharmaceuticals Between Water And Sludge And Removal With Carbon (Pac)
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2012

Assessing the most Sustainable Alternative for Production of drinking water - ASTA a decision support system
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2011
Indirect economic impacts in water supplies augmented with desalinated water

Risk and vulnerability

Selection of priority pollutants for Stockholm City - Real life application of CHIAT

Selection of priority pollutants in the DayWater project

Start-up strategies for stable autotrophic nitrogen removal in redox-stratification controlled biofilm reactor (ReSCoBiR)

Wastewater characterization

Wastewater treatment development

Removal of arsenic by iron oxides in granular sand filters in water works treating groundwater

Anaerobic digestion model No. 1 - developments and applications: Selected papers from the first international workshop on the IWA anaerobic digestion model No. 1 (ADM1), held in Lyngby, Denmark, September 2-4, 2005

CHIAT: Chemical hazard identification and assessment tool for selection of priority pollutants

Efficiency, equity and sustainability in water privatization: some Chinese lessons
Electro-remediation of heavy-metal contaminated soil
Publication: Research - peer-review › Book chapter – Annual report year: 2005

Factors controlling biomass production on polymers: Paper 75
Publication: Research › Conference abstract in proceedings – Annual report year: 2005

Introduction
Publication: Research - peer-review › Book chapter – Annual report year: 2005

Long-term biofilm formation in a model drinking water distribution system - beyond culturability: structure and diversity: Paper 33
Publication: Research › Conference abstract in proceedings – Annual report year: 2005

Optimisation of serial-CSTR biogas reactors using modeling by ADM1
Publication: Research - peer-review › Article in proceedings – Annual report year: 2005

Preface
Publication: Communication › Book chapter – Annual report year: 2005

Project implementation and management
Publication: Research - peer-review › Book chapter – Annual report year: 2005

Project identification and formulation
Publication: Research - peer-review › Book chapter – Annual report year: 2005

Project selection
Publication: Research - peer-review › Book chapter – Annual report year: 2005

Quantitative risk assessment for human infection by the protozoans Giardia and Cryptosporidium related to different water uses in Denmark: Paper 73
Publication: Research › Conference abstract in proceedings – Annual report year: 2005

Rural water supply and sanitation projects
Publication: Research - peer-review › Book chapter – Annual report year: 2005
The biorefinery for production of multiple fuels
Publication: Research - peer-review › Book chapter – Annual report year: 2005

Uncertainty and precaution in environmental management: Selected Proceedings of the International Symposium held in Copenhagen, 7-9 June 2004
Publication: Research - peer-review › Book – Annual report year: 2005

Urban drainage in transition
Publication: Communication › Book chapter – Annual report year: 2005

Water and wastewater management in the tropics
Publication: Research - peer-review › Book – Annual report year: 2005

Biodegradation of gasoline compounds (BTEX) in a water works sand filter
Publication: Research - peer-review › Article in proceedings – Annual report year: 2004

Efficient modeling necessitates standards for model documentation and exchange
Publication: Research - peer-review › Article in proceedings – Annual report year: 2004

Publication: Research - peer-review › Book – Annual report year: 2004

Environmental biotechnology problems
Publication: Research - peer-review › Article in proceedings – Annual report year: 2004

Handling of grey wastewater: a test of a method for hazard identification
Publication: Research - peer-review › Article in proceedings – Annual report year: 2004

Impact of reactive settler models on simulated WWTP performance
Publication: Research - peer-review › Article in proceedings – Annual report year: 2004

Instrumentation and control in anaerobic digestion
Co-Digestion of the Organic Fraction of Municipal Waste With Other Waste Types
Publication: Research - peer-review › Book chapter – Annual report year: 2002

Aspects of groundwater recharge using grey wastewater. Chapter 18
Publication: Research - peer-review › Book chapter – Annual report year: 2001

Emerging paradigms in water supply and sanitation
Publication: Research - peer-review › Book chapter – Annual report year: 2001

River water quality model No. 1
Publication: Research - peer-review › Book – Annual report year: 2001

Types, characteristics and quantities of classic, combined domestic wastewaters
Publication: Research - peer-review › Book chapter – Annual report year: 2001

Activated sludge models ASM1, ASM2, ASM2d and ASM3
Publication: Research - peer-review › Book – Annual report year: 2000

Comparative Evaluation of Biodegradation Rates for Chemicals in Sewage Treatment Plants, Surface Water and Standardized Screening Tests - Influence of Microbial Biomass and Chemical Concentration
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 1995

Development of an Fluorimetric Multispecies 96-Well Plate Growth Test for Screening Metal Toxicity to Phytoplankton
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 1995

New Monitoring Method for Pesticides in Surface Water - Combining XAD-2 Pre-Concentration and Bioassays
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 1995
