Wind Energy Denmark
Annual Event 2016

DTU Wind Energy
Department of Wind Energy
What is the importance to the wind industry of having a strong Danish base?
What is the importance to Denmark of having a strong wind industry?
The Wind Industry in Denmark
Good framework conditions for the sector

Well-established sector
- Costs
- Operation
- Integration

Focus on
- Industrialization
- Reliability
- Quality and validation
- Optimization
- Innovation

Need for
- Access to state-of-the-art knowledge
- Test and demonstration facilities
- Qualified staff
- Market for demonstration

University role
- Research (knowledge generation)
  - Education and training
  - Contribution to innovation
  - Tests and consultancies
Research and test facilities

Public. 2010-15

- Full-scale testing facilities (Østerild and Høvsøre)
- Blade tests (Blaest)
- LORC
  - Nacelle tests
  - Support structures
  - Climate chambers
- Windscanner
- Research turbines
- National Wind Tunnel
- Large scale structural test facility (Villum foundation)
- Lab facilities
- ...
## National Research Budgets

Concluding remarks

• Together strengthen the strategic priority of public wind energy research in Denmark
• New models for industry-university cooperation
• Increased coordination of the Danish research, test and education efforts through MEGAVIND
• Plan the Danish effort in an European and global context
