ISNFF Title and Abstract Submission

CALL FOR PRESENTATION PAPERS 2012

Functional Foods, Nutraceuticals, Natural Health Products
and Dietary Supplements

December 1-6, 2012

Courtyard King Kamehameha's Kona Beach Hotel
Kailua-Kona, Hawaii, USA

I would like to attend and present:	<input checked="" type="checkbox"/> Oral <input type="checkbox"/> Poster <input type="checkbox"/> Oral or Poster
Title:	<p style="text-align: center;">Antioxidant effect of seaweed extracts in food emulsion systems enriched with fish oil</p>
Abstract (150 words or less):	<p>Natural antioxidants derived from marine algae have a high content of bioactive components with potential for improving oxidative stability of lipids in food systems. In this presentation we will discuss results from our ongoing work on the brown algae <i>Fucus vesiculosus</i>. This seaweed contains a wide range of polyphenols with potential antioxidant activity. Thus, <i>in vitro</i> antioxidant properties of <i>F. vesiculosus</i> extracts have been found to be related to the total polyphenolic content. It has been suggested that the primary antioxidant activity comes from secondary metabolites such as phlorotannins, a dominant polyphenolic compound. However, studies on the effectiveness of seaweed extracts in food model systems are sparse, therefore there is a need to look further into this area. Results obtained in our lab with different extracts of <i>F. Vesiculosus</i> in a range of different food models will be presented.</p>
