Center for Hyperpolarization in Magnetic Resonance - Research outputs - DTU Orbit
(24/10/2019)

Magnusson PO, Boer VO, Marsman A, Lundell H, Hanson LG, Petersen ET. 2017. GABA-edited echo-planar spectroscopic imaging (EPSI) with MEGA-sLASER at 7T. Poster session presented at ISMRM 25th Annual Meeting & Exhibition, Honolulu, United States.

Laustsen M, Andersen M, Madsen KH, Hanson LG. 2017. Gradient distortions in EEG provide motion tracking during simultaneous EEG-fMRI. Abstract from ISMRM Workshop on Motion Correction in MRI & MRS, Cape Town, South Africa.

Hanson LG. 2016. Educational simulator app and web page for exploring Nuclear and Compass Magnetic Resonance. Poster session presented at 33rd ESMRMB Annual Scientific Meeting, Vienna, Austria.
