Research outputs:

**Intestinal colonization of broiler chickens by Campylobacter spp. in an experimental infection study**
Research output: Contribution to journal › Journal article – Annual report year: 2014 › Research › peer-review

**Towards the production of reliable quantitative microbiological data for risk assessment: Direct quantification of Campylobacter in naturally infected chicken fecal samples using selective culture and real-time PCR**
Research output: Contribution to journal › Journal article – Annual report year: 2015 › Research › peer-review

**Campylobacter vaccination of poultry: Clinical trials, quantitative microbiological methods and decision support tools for the control of Campylobacter in poultry**

**Direct Quantification of Campylobacter jejuni in Chicken Fecal Samples Using Real-Time PCR: Evaluation of Six Rapid DNA Extraction Methods**
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

**Integration of Epidemiological Evidence in a Decision Support Model for the Control of Campylobacter in Poultry Production**
Research output: Contribution to journal › Journal article – Annual report year: 2013 › Research › peer-review

**The development of probabilistic graphical models to assist on strategic decisions for the control of Campylobacter in poultry**
Research output: Chapter in Book/Report/Conference proceeding › Conference abstract in proceedings – Annual report year: 2013 › Research › peer-review

**Design and data analysis of experimental trials to test vaccine candidates against zoonotic pathogens in animals: the case of a clinical trial against campylobacter in broilers**
Research output: Contribution to journal › Journal article – Annual report year: 2012 › Research › peer-review

**Estimation of the variation that can be attributed to different levels in a clinical trial of a vaccine**
Research output: Chapter in Book/Report/Conference proceeding › Conference abstract in proceedings – Annual report year: 2012 › Research › peer-review

**Estimation of the variation that can be attributed to different levels in a clinical trial of a vaccine against Campylobacter in broilers**
Research output: Contribution to conference › Poster – Annual report year: 2012 › Research › peer-review
Quantitative microbiological data analysis of a *Campylobacter* vaccination trial
Research output: Contribution to conference › Conference abstract for conference – Annual report year: 2012 › Research › peer-review

The use of probabilistic graphical models (PGMs) to develop a cost-effective vaccination strategy against *Campylobacter* in poultry
Research output: Contribution to conference › Conference abstract for conference – Annual report year: 2012 › Research › peer-review

Projects:

**Development of a decision tool for vaccination against Campylobacter in poultry**
Garcia Clavero, A. B., Vigre, H., Christensen, L. S., Læsø Madsen, A., Pedersen, K., Rådström, G. P. & Pielaat, A.
Forskningsrådsfinansiering
15/08/2010 → 29/01/2014
Project: PhD

**CamVac: CampVac: Campylobacter vaccination of poultry**
01/03/2010 → 31/12/2014
Project: Research
