Enys Mones - DTU Orbit (21/07/2019)
Enys Mones

Research outputs:

**Emergence of leader-follower hierarchy among players in an on-line experiment**
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2019 › Research › peer-review

**Academic performance and behavioral patterns**
Research output: Contribution to journal › Journal article – Annual report year: 2018 › Research › peer-review

**Optimizing targeted vaccination across cyber-physical networks: an empirically based mathematical simulation study**
Research output: Contribution to journal › Journal article – Annual report year: 2018 › Research › peer-review

**Class attendance, peer similarity, and academic performance in a large field study**
Research output: Contribution to journal › Journal article – Annual report year: 2017 › Research › peer-review

**Contact activity and dynamics of the social core**
Research output: Contribution to journal › Journal article – Annual report year: 2017 › Research › peer-review

**Phenomenological theory of collective decision-making**
Research output: Contribution to journal › Journal article – Annual report year: 2017 › Research › peer-review

**The role of gender in social network organization**
Research output: Contribution to journal › Journal article – Annual report year: 2017 › Research › peer-review
