Per Ambus - Research outputs - DTU Orbit (02/10/2019)

Merrild M, Ambus P, Rosendahl S, Jakobsen I. Phosphorus resources in the mycorrhiza mycelium of adult plants is poorly available to a seedling connecting into the mycelium. 2010. Poster session presented at 4th International Symposium on Phosphorus Dynamics in the Soil-Plant Continuum, Beijing (CN), 19-23 Sep., .

Andresen LC, Michelsen A, Jonasson S, Beier C, Ambus P. Climate change alters nutrient cycling: Nitrogen uptake in temperate heath vegetation and soil microbes is influenced by elevated temperature CO2 and drought. 2009. Poster session presented at International Scientific Congress on Climate Change, Copenhagen, Denmark.

Andresen LC, Michelsen A, Johanssøn S, Beier C, Ambus P. **Nitrogen uptake in temperate heath vegetation and soil microbes is influenced by elevated temperature, CO2 and drought.** 2009. Poster session presented at BIOGEOMON 2009, University of Helsinki (FI), 29 Jun - 3 Jul.

Bruhn D, Ambus P, Mikkelsen TN. Abiotic aerobic methane release from plant material. 2007. Poster session presented at Joint Assembly of the American Geophysical Union (AGU), San Francisco, CA, United States.

Ambus P, Petersen SO. Oxidation of $^{13}$C-labeled methane in surface crusts of pig- and cattle slurry. Isotopes in Environmental and Health Studies. 2005;41:125-133. https://doi.org/10.1080/10256010500131783

Thyme M, Ambus P. N_2O emission from grass-clover swards is largely unaffected by recently fixed N_2. DARCOFenews. 2004;(1).

Formanek P, Ambus P. **Assessing the use of d13C natural abundance in separation of root and microbial respiration in a Danish beech (Fagus sylvatica L.) forest.** 2003. Abstract from 10th Canadian continuous-flow isotope ratio mass spectrometry workshop, Winnipeg, Canada.

Thyme M, Ambus P. **From N₂ fixation to N₂O emission in a grass-clover pasture (poster).** 2003. Poster session presented at 12th N workshop 'Controlling N flows and losses', Exeter, United Kingdom.

Ambus P. **Greenhouse gas emission from agricultural and forest soils.** 2002. Abstract from PLE-Symposium on Climate Change and Plant-Ecosystem Interactions, Riso, Denmark.

Ambus P, Kure LK, Jensen ES. **Gross N transformation rates after application of household compost or domestic sewage sludge to agricultural soil.** Agronomie. 2002;22(7-8):723-730. https://doi.org/10.1051/agro:2002041

Ambus P. Fluxes of CH$_4$ and N$_2$O from soils with accelerated inputs of C and N: Influence of sewage sludge and inorganic fertilizer. 2000. Abstract from Meeting at Environmental Institute, Joint Research Centre, Ispra (IT), 24-25 Feb, .

——

Rasmussen L, Beier C, Pilegaard K, Ambus P, Mikkelsen T, Jensen NO et al. Fluxes of NO$_3^-$, NH$_4^+$, NO, NO$_2$, HNO$_3^-$, N$_2$O and organic N in an old Danish beech forest. In Abstracts. Copenhagen: Danish Environmental Protection Agency. 1999

Ambus P, Jensen ES. **Soil N dynamics as influenced by the spatial distribution of straw.** 1998. Abstract from Seminar: Soil tillage and biology, Ås (NO), 8-10 Jun, .

Ambus P. **Nitrogen mineralization and denitrification as influenced by crop residue particle size.** Plant and Soil . 1997;197(2):261-270. https://doi.org/10.1023/A:1004276631914
