Antibiotic Lethality Is Impacted by Nutrient Availabilities: New Insights from Machine Learning - DTU Orbit (21/10/2019)

Antibiotic Lethality Is Impacted by Nutrient Availabilities: New Insights from Machine Learning

In this issue of Cell, Yang, Wright et al. describe a machine learning approach that can provide mechanistic insight from chemical screens. They use this approach to uncover how the nutritional availability for Escherichia coli impacts lethality toward three widely used antibiotics.

General information
Publication status: Published
Organisations: Yeast Cell Factories, Novo Nordisk Foundation Center for Biosustainability
Contributors: Nielsen, J.
Pages: 1373-1374
Publication date: 2019
Peer-reviewed: Yes

Publication information
Journal: CELL
Volume: 177
Issue number: 6
