Calculation of Herd Sensitivity and Herd Specificity for a Monoclonal Blocking ELISA Detecting Antibodies to Mycoplasma hyopneumoniae in Pig Serum and Colostrum

General information
Publication status: Published
Organisations: Secretariat, Division of Veterinary Diagnostics and Research, National Veterinary Institute, Division of Microbiology and Risk Assessment, National Food Institute, Section for Veterinary Diagnostics
Contributors: Sørensen, V., Barfod, K., Feld, N. C.
Number of pages: 138
Publication date: 1992

Host publication information
Title of host publication: Proceedings of the International Organization for Mycoplasmology
Source: orbit
Source-ID: 240133
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 1992 › Research › peer-review
