First detection of linezolid resistance due to the optrA gene in enterococci isolated from food products in Denmark - DTU Orbit (28/09/2019)

First detection of linezolid resistance due to the optrA gene in enterococci isolated from food products in Denmark

General information
Publication status: Published
Organisations: National Food Institute, Division of Risk Assessment and Nutrition, Research group for Genomic Epidemiology, Danish Veterinary and Food Administration
Contributors: Cavaco, L., Korsgaard, H. B., Kaas, R. S., Seyfarth, A. M., Leekitcharoenphon, P., Hendriksen, R. S.
Number of pages: 2
Pages: 128-129
Publication date: 2017
Peer-reviewed: No

Publication information
Journal: Journal of Global Antimicrobial Resistance
Volume: 9
ISSN (Print): 2213-7165
Ratings:
Scopus rating (2017): CiteScore 1.51 SJR 0.658 SNIP 0.762
Web of Science (2017): Impact factor 2.022
Web of Science (2017): Indexed yes
Original language: English
Keywords: Enterococcus faecalis, Enterococcus faecium, chloramphenicol, florfenicol, linezolid, optrA, tedizolid
DOIs:
10.1016/j.jgar.2017.04.001
