New ways of networking: A hands on workshop exploring the workspace:lab and its equipment - DTU Orbit (18/10/2019)

New ways of networking: A hands on workshop exploring the workspace:lab and its equipment
Are you interested in designing new ways of networking at the Nordes conference with fellow researchers? Do you want to explore and discuss the so called “workspacelab” as a platform for user involvement? This workshop invites participants to explore a particular version of the design:lab called the workspace:lab. With a focus on methods like probekits, design games and experience prototyping the participants will experience what it is like being part of the design:lab as “users” and they will be exposed to the different equipment and tools used in the “laboratory of change”. Though the main focus of the workshop is to explore the workspace:lab, the actual output of the workshop is also relevant. The participants will be encouraged to codesign examples of new ways of networking at conferences, which could benifit the Nordes community in the future.

General information
Publication status: Published
Organisations: Department of Management Engineering, Production and Service Management, Engineering Systems Group, Royal Danish Academy of Fine Arts School of Architecture Design and Conservation, Sweco Architects A/S
Contributors: Lundsgaard, C., Souza da Conceição, C., Eriksson, J.
Pages: 463-465
Publication date: 2013

Host publication information
Title of host publication: Nordes 2013: Experiments in design research : Online proceedings
Publisher: The Royal Danish Academy of Fine Arts, Schools Architecture, Design and Conservation
Editors: Brandt, E., Ehn, P., Degn Johansson, T., Hellström Reimer, M., Markussen, T., Vallgårda, A.
