Production and oxidative stability of a human milk fat substitute produced from lard by enzyme technology in a pilot packed-bed reactor

Production and oxidative stability of a human milk fat substitute produced from lard by enzyme technology in a pilot packed-bed reactor

General information
Publication status: Published
Organisations: Section for Aquatic Lipids and Oxidation, National Institute of Aquatic Resources, Department of Systems Biology
Contributors: Nielsen, N. S., Yang, T., Xu, X., Jacobsen, C.
Pages: 53-60
Publication date: 2006
Peer-reviewed: Yes

Publication information
Journal: Food Chemistry
Volume: 94
Issue number: 1
ISSN (Print): 0308-8146
Ratings:
Scopus rating (2006): SJR 1.395 SNIP 1.856
Web of Science (2006): Indexed yes
Original language: English
DOIs:
10.1016/j.foodchem.2004.10.049
Source: orbit
Source ID: 226933
Research output: Contribution to journal › Journal article – Annual report year: 2006 › Research › peer-review
