Qualification and testing of CT systems

This chapter focuses on system verification and conformance to specifications. System qualification is carried out to ensure that the system and its components achieve the best performance—usually corresponding to the specifications made by the manufacturer. Acceptance and reverification testing are undertaken on the overall integrated system to check whether the system performs as specified.

General information
Publication status: Published
Organisations: Department of Mechanical Engineering, Manufacturing Engineering, Physikalisch-Technische Bundesanstalt, University of Padova
Pages: 185-228
Publication date: 2018

Host publication information
Title of host publication: Industrial X-Ray Computed Tomography
Publisher: Springer
Editors: Carmignato, S., Dewulf, W., Leach, R.
ISBN (Print): 978-3-319-59571-9
ISBN (Electronic): 978-3-319-59573-3
DOIs:
