Study of the acoustical properties of a condenser microphone under an obliquely incident plane wave using a fully coupled three-dimensional numerical model - DTU Orbit (08/11/2019)

Study of the acoustical properties of a condenser microphone under an obliquely incident plane wave using a fully coupled three-dimensional numerical model

General information
Publication status: Published
Organisations: Department of Electrical Engineering, Acoustic Technology, Dansk Fundamental Metrology A/S, University of Southern Denmark
Contributors: Cutanda Henriquez, V., Barrera Figueroa, S., Torras Rosell, A., Juhl, P. M.
Number of pages: 10
Publication date: 2015

Host publication information
Title of host publication: Proceedings of Internoise 2015
Source: PublicationPreSubmission
Source ID: 110975781
Research output: Chapter in Book/Report/Conference proceeding › Article in proceedings – Annual report year: 2015 › Research › peer-review
