The OE-A OPV demonstrator anno domini 2011 - DTU Orbit (23/08/2019)

The OE-A OPV demonstrator anno domini 2011
Roll-to-roll manufacture of OPV and integration into credit card sized flashlights for the OE-A demonstrate that large numbers (10 000 units) can be prepared in high technical yield.

General information
Publication status: Published
Organisations: Solar Energy Programme, Risø National Laboratory for Sustainable Energy, Mekoprint A/S, Pomona College, Holst Center
Pages: 4116-4123
Publication date: 2011
Peer-reviewed: Yes

Publication information
Journal: Energy & Environmental Science
Volume: 4
Issue number: 10
ISSN (Print): 1754-5692
Ratings:
BFI (2011): BFI-level 1
Scopus rating (2011): CiteScore 9.66 SJR 3.737 SNIP 2.497
Web of Science (2011): Impact factor 9.61
ISI indexed (2011): ISI indexed no
Web of Science (2011): Indexed yes
Original language: English
Keywords: Polymer solar cells
DOIs:
10.1039/c1ee01891d

Bibliographical note
This work has been supported by the Danish Strategic Research Council (2104-07-0022) and EUDP (j. no. 64009-0050). Partial financial support was also received from the European Commission as part of the Framework 7 ICT 2009 collaborative project HIFLEX (grant no. 248678) from the EU-Indian framework of the "Largecells" project that received funding from the European Commission's Seventh Framework Programme (FP7/2007–2013. grant no. 261936) and from PV-ERA-NET (project acronym POLYSTAR).
