# OPERA - Open Research Analytics

The DEFF OPERA project aims at establishing open and advanced research analysis systems at Danish universities and in the wider Danish landscape around the universities. The project brings together leading Danish actors with global operators and experts. One of the core objectives of the OPERA project is to develop a VIVO platform, integrating and combining the best global metadata with Open Science analytics data, research datasets, network visualizations and locally curated metadata.

Project leads: Karen Hyttballe Ibanez ([kshi@dtu.dk](mailto:kshi@dtu.dk)), Mogens Sandfær ([mosa@dtu.dk](mailto:mosa@dtu.dk)), Christina Steensboe ([chste@dtu.dk](mailto:chste@dtu.dk)), David Budtz ([davidp@hum.aau.dk](mailto:davidp@hum.aau.dk)), Nikoline Dohm Lauridsen ([nidl@dtu.dk](mailto:nidl@dtu.dk)), Birger Larsen ([birger@hum.aau.dk](mailto:birger@hum.aau.dk)) and Poul Melchiorsen ([pmm@aub.aau.dk](mailto:pmm@aub.aau.dk))

**GOOD GLOBAL DATA:** Obtaining and consolidating the best-quality global citation data

**ALSO HUMANITIES:** Providing adequate documentation for research- and relevance of research in the SSH domain

**NEW TOOLS & CONCEPTS:** Adapting and applying innovative analytical and visualization tools

**OPEN SYSTEM:** An open source system, aimed at and controlled by Danish stakeholders (VIVO-based)

**OPEN SCIENCE:** Better recognition for Open Science contributions in metrics and evaluation

**BROAD OUTREACH:** Extensive communication to and involvement of stakeholders

Join the  
OPERA Workshop  
**March 28th 2019**  
in Copenhagen
